Table of Contents

Workshop Case-Based Reasoning, CBR-MD 2012 .................. 1

Class Separating Measures of Similarity for the CBR Scheme
   Leon Bobrowski .......................................................... 5

How Do Various Categorical Similarity Measures Influence the CBR
Credit Scoring Model?
   Sanja Vukovic, Boris Delibasic, and Milija Suknovic .......... 19

Commonsense Knowledge in Weblogs: Mining Script-Like Structures
from the Web
   Niels Kasch and Tim Oates ......................................... 31

From Texts, Images, and Data to Attribute Based Case Representation
   Michael M. Richter and Rosina O. Weber ....................... 46

Similarity Assessment Mechanism for Spatiotemporal Data Sets in
Case-Based Reasoning
   Osman M. Hegazy, Ibrahim H. Hemeida, Mohamed Nour Eldein,
   and Jihan Elhusseiny ............................................... 62

An Overview of Three Medical Applications Using Hybrid
Case-Based Reasoning
   Mobyen Uddin Ahmed, Shahina Begum, and Peter Funk ....... 79

Workshop Data Mining in Agriculture DMA 2012 ................ 95

Extracting Patterns from Socioeconomic Databases to Characterize
Small Farmers with High and Low Corn Yields in Mozambique:
a Data Mining Approach
   Constantino Sotomane, Jordi Gallego-Ayala, Lars Asker,
   Henrik Bostrom, and Venancio Massingue ...................... 99
Workshop Data Mining in Marketing DMM 2012 

Boundary Points Detection Using Adjacent Grid Block Selection (AGBS) kNN-Join Method
Shivendra Tiwari and Saroj Kaushik

Sentiment Classification of on-line Products Based on Machine Learning Techniques and Multi-agent Systems Technologies
Mohammed Almashraee, Dagmar Monetti Diaz, and Rainer Unland

Workshop on Data Mining in the Life Sciences DMLS 2012

Pluripotent Stem Cells: Classification and Search for Small Sets of Biomarkers
Rainer Schmidt, Lena Scheubert, and Georg Fuellen

A Multi-Label Correlation-Based Feature Selection Method for the Classification of Neuroblastoma Microarray Data
Suwimol Jungjit, Alex A. Freitas, M. Michaelis, and J. Cinatl

Class Decomposition in Bioinformatics Analyzing Omics Data
Inese Polaka and Arkady Borisov

Biological Interpretation of Metabolic Syndrome Data Missing Value Imputation and Classification
Madara Gasparovica, Gita Krievina, and Ludmila Aleksejeva

SBML2SMW Links Systems Biology, Text Mining and Semantic Web
Abdul Mateen-Rajput, Tobias Mathäß, Peter Haase, Alexander Scheer and Luca Toldo

Architectural Framework for a Case-Based Reasoning System for Data Mining Experience Management
Isabelle Bichindaritz

Optimization of Activities in Smart Homes
Farzad Amirjavid, Abdenour Bouzouane, and Bruno Bouchard
