Contents

Preface ...........................................................................................................................................vii

Section I: Bio-processes for Value Added Products

1. Potential Applications of Lactic Acid Bacteria in Functional Foods .........................3
   – Vandana Bali, P.S. Panesar, M.B. Bera and Varinder Kaur

2. Microbial Proteases: At the Interface of Academia and Industry ..............................15
   – M.L. Verma and A.K. Jana

3. Traditional fermented cereal based alcoholic beverages ..............................................29
   – T.C. Bhalla and Navdeep Thakur

4. Importance, Nutritive Value, Role, Present Status and Future Strategies in Fruit
   Wines in India ............................................................................................................................39
   – V.K. Joshi and Vikas Kumar

5. Genetically Modified Foods: Foods for 21st Century .................................................63
   – Duni Chand

6. Enzymatic Preparation of High Fructose Syrup from Inulin ......................................77
   – R. S. Singh

7. Enzymatic Degumming of Crude Rice Bran Oil ..............................................................99
   – Richa Mishra, H.K. Sharma, B.C. Sarkar and Garima Sengar

8. Screening of Plum Cultivars for Preparation of Ready-to-Serve Beverages ..........107
   – V.K. Joshi, Rakesh Sharma, G.S. Abrol and Radha Sharma
9. Production of Probiotic Fruit Juice and Study of the Storage Stability at Refrigerated Temperature .................................................. 114
   – Sayantan Khan, Arindam Haldar, Tahira Tabassum and Charanjiv Singh

Section II: Bio-safety & Quality Systems in Food Processes

10. Biotechnological Tools: Potentials in Food Quality and Safety .................................................. 123
    – Shubhneet Kaur, P.S. Panesar, M.B. Bera and Reeba Panesar

11. Food Safety and Quality – Role of Uncertainty of Measurement .................................................. 142
    – Ajit Dua and S.S. Marwaha

12. Biosensors in Food Processing .................................................. 158
    – Vedpal Yadav, Neelam Gulia and Alka Sharma

13. Biosensors for Food Safety: An Overview .................................................. 181
    – Minni Singh

14. Indian Food Regulations: A Landscape in Transition .................................................. 191
    – Neha Singh and Jasvir Singh

15. Effect of Packaging and Anti-Oxidant on Storage Quality of Enzymatically Extracted Olive Oil .................................................. 200
    – Rakesh Sharma, P.C. Sharma and V.K. Joshi

16. Structure and Functionality of Wheat Gluten Proteins .................................................. 211
    – B.S. Khatkar

Section III: Bio-preservation & Bio-packaging of Food Products

17. Bacteriocins of Lactic Acid Bacteria in Biopreservation and Food Safety .................................................. 229
    – R.K. Malik and Gurpreet Kaur

18. Biopreservation: A Novel Approach to Food Preservation .................................................. 243
    – B.S. Bisht, Anil Kumar and Gurmukh Singh

19. Present Status of Exploitation of Microbial Polymers for Biodegradable Plastic .................................................. 262
    – S.S. Thorat

20. Nanotechnological Applications in Food Processing and Packaging .................................................. 282
    – P. Nazni
21. Efficacy of Plant Extracts on Shelf Life of Guava (*Psidium guajava* L.)
cv. Allahabad Safeda .................................................................294
   - A.A. Malik, Anju Bhat and Rajkumari Kaul

Section IV: Bio-processing & Bio-management of Agro-industrial Waste

22. Diverse Cellulases and Hemicellulases for Bioconversion of
   Agro-residues into Ethanol.......................................................305
   - Rohit Soni, Asiya Nazir, Manju Sharma and B.S. Chadha

23. Ethanol Production from Fruit Residues- Prospects and Problems........350

24. Development of Alcoholic Beverage by Utilizing Whey.......................359
   - L.S. Badwaik, Rohit Kapoor, Rahul Saxena and Rahul Agarwal

25. Optimization of Processing Parameters for Cloudy Kiwifruit Juice
   Using Enzymes..........................................................................366
   - Surabhi Sharma and Devina Vaidya
