# TABLE OF CONTENTS

SPE 151957 Squimulation – Simultaneous Well Stimulation and Scale Squeeze Treatments in Deep-Water, West Africa .............................. 1
D. Patterson, M. Kendrick, W. Williams, M. Jordan

SPE 152870 Dual Chelant Mechanism for the Deployment of Scale Inhibitors in Controlled Solubility/Precipitation Treatments .................. 21
M. J. Todd, A. J. Savin, K. S. Sorbie

SPE 153005 An Exhaustive Study of Scaling in the Canadian Bakken: Failure Mechanisms and Innovative Mitigation Strategies From Over 400 Wells .......... 35
Jonathan J. Wylde, Jubal L. Slayer, Brent Frehlick

SPE 153098 New Insights on the Impact of Mass to Volume and Volume to Volume as it Relates to Barium Sulphate Dissolver Performance ......... 46
M. M. Jordan, E. O. Ajayi, M. Archibald

SPE 153952 Successful Deployment of a Green Multifunctional Scale Inhibitor, A Case Study From the Rockies .................................. 62

SPE 154135 Phosphorus Functionalised Polymeric Scale Inhibitors, Further Developments and Field Deployment .................................. 72

SPE 154332 Application of Silicate Scale Inhibitors For ASP Flooded Oilfields: A Novel Approach to Testing and Delivery ...................... 95
Jennifer Sonne, Scott Kerr, Kirk Miner

SPE 154455 A Successful Removal of Inorganic Hard Scale Deposits in an Offshore Pipeline in Gemsa Oil Field, Egypt: Field Study .......... 102
M. Bakr, A. Abdel Hay, E. Hamdy

SPE 154934 Qualification Procedure for Continuous Injection of Chemicals in the Well - Method Development .................................. 109
Neil J. Goodwin, Odd Geir Svela, John Helge Olsen, Tore Tjomsland, Brittie Marie Hustad, Gordon M. Graham

SPE 154935 Novel Scale Squeeze Technology and Treatment Designs for Improving Scale Inhibitor Retention and Treatment Lifetimes - Use of Ionic Polymers in the Overflush ........................................... 121
Steve Heath, Bjorn Juliussen, Ping Chen, Tao Chen, Ronald Benvie

SPE 154953 New Polymer Chemistry for Squeeze Application in Tight Carbonate Reservoirs ......................................................... 130
Tao Chen, Steve Heath, Ronald Benvie, Ping Chen, Harry Montgomery, Thomas Hagen

SPE 154954 Automatic Isotherm Derivation from Field Data for Oilfield Scale Inhibitor Squeeze Treatments ........................................ 148
O. Vasquez, D. Corne, M. M. Jordan, E. J. Mackay

SPE 154967 Downhole Chemical Injection Lines - Why Do They Fail? Experiences, Challenges and Application of New Test Methods .......... 167
Brittie Marie Hustad, Odd Geir Svela, John Helge Olsen, Kari Ramstad, Tore Tjomsland

SPE 154980 Elemental Sulphur Induced Formation Damage Management in Gas Reservoir ........................................................... 178
Fadairo Adesina, Ako Churchill, Faolda Olubenga

SPE 155036 Flow Assurance in Complex Topside Processes with Subsea Tie-ins and Multiple Fluid Systems ..................................... 185
Kari Ramstad, Hans Christian Rohde, Aslang Dalland, Ekaterina Ponomarewa, Pia Johansen

SPE 155039 Scale Inhibitors for Geothermal Applications ........................................ 208
Hua Guan

SPE 155042 Effects of Hydrate Inhibitors on the Solubility of Barite and Halite in Produced Water ......................................................... 216
Essmaïl Djamali, Haiping Lu, Amy T. Kan, Mason B. Tomson

SPE 155045 Modeling the Thermodynamic Properties of Common Minerals at High Temperature, Pressure and Salinity with Complex Ions ................. 230
Wei Shi, Haiping Lu, Nan Zhang, Chunfang Fan, Amy T. Kan, Mason B. Tomson

SPE 155094 The Effect of pH on Static Barium Sulphate Inhibition Efficiency and Minimum Inhibitor Concentration of Generic Scale Inhibitors ........................................... 247
S. S. Shaw, K. S. Sorbie

SPE 155108 A Novel and Comprehensive Study of Polymeric and Traditional Phosphonate Inhibitors for High Temperature Scale Control .......... 265
Wei Wang, Amy T. Kan, Mason B. Tomson
