5th International Workshop on Semantic Media Adaptation and Personalization

Main Track

Semantic Reasoning and Mashups: An Innovative Approach to Personalized E-Commerce in Digital TV
Yolanda Blanco-Fernández, Martín López-Nores, Alberto Gil-Solla, Manuel Ramos-Cabrér, Manuela Martín-Vicente, and José J. Pazos-Arias

Avoiding Fake Neighborhoods in e-Commerce Collaborative Recommender Systems:
A Semantic Approach
Manuela I. Martín-Vicente, Alberto Gil-Solla, Manuel Ramos-Cabrér,
Yolanda Blanco-Fernández, and Martín López-Nores

A Framework for Cross-language Search Personalization
M. Rami Ghorab, Dong Zhou, Alexander O’Connor, and Vincent Wade

Ontology Mapping: The Case of the CiNeSPACE Project
Maria Teresa Linaza, Cristina Sarasua, Yolanda Cobos, Jesús Bermúdez, and Arantza Illarramendi

Generalized Concept Overlay for Semantic Multi-Modal Analysis of Audio-visual Content
Vasileios Mezaris, Spyros Gidaros, and Ioannis Kompatsiaris

DMS-1 Driven Data Model to Enable a Semantic Middleware for Multimedia Information Retrieval in a Broadcaster
Gorka Marcos, Kevin Alonso, Igor G. Olatzola, Julián Florez, and Arantza Illarramendi

Towards a Personalized Blog Site Recommendation System: A Collaborative Rating Approach
Iraklis Varlamis and Malamati Louta
Semantic Multimedia Document Adaptation with Functional Annotations

Sébastien Laborie, Jérôme Euzenat, and Nabil Layaida

Investigation of Image Models for Landmark Classification

Mark Hughes, Gareth J. F. Jones, and Noel E. O'Connor

Towards Interactive Image Query System for Content-Based Image Retrieval

Fumihiko Kawanobe, Shigeru Takano, and Yoshihiro Okada

Identifying Personalization Patterns Using Intelligent Techniques in XML-Based Communication Records

I. Anagnostopoulos, N. Dimitriou, C. Skianis, and G. Kormentzas

Concept Space Rating for Personalization of Learning Materials Based on Relations

Petr Saloun and Zdenek Velar

Image Descriptors Based on the Edge Orientation

António M.G. Pinheiro

Semantic Object Based Retrieval from Surveillance Videos

Virginia Fernandez, Krishna Chandramouli, and Ebroul Izquierdo

Experimental Evaluation of the MPEG-7 Visual Descriptors for Object Classification

Zenonas Theodosiou and Nicolas Tsapatsoulis

Image Analysis Platform for Data Management in the Meteorological Domain

Igor G. Olaizola, Naiara Aginako, and Mikel Labayen

Special Session

Foreword to the SMAP '09 Special Session on Intelligence, Adaptation and Personalization on the Web

Malamati Louta, Angelos Michalas, and Ioannis Anagnostopoulos

An Approach to Annotation of Learning Texts on Programming within a Web-Based Educational System

Vladimir Mihdla and María Bieliková

Context Aware Help and Guidance for Large-Scale Public Spaces

Nasim Mahmud, Kris Luyten, and Karin Coninx

Semantic Platform for the Composition of Tourism Products and Services

Sonía Bilbao and Jesús Herrero

Adaptive Task Scheduling in Grid Computing Environments

Angelos Michalas and Malamati Louta

A Web Service to Generate Program Coprocessors

M.F. Dossis, T. Themelis, and L. Markopoulos
