2011 IEEE Third International Workshop on Software Aging and Rejuvenation

(WoSAR 2011)

Hiroshima, Japan
29 November – 2 December 2011
2011 Third International Workshop on Software Aging and Rejuvenation
WoSAR 2011
Table of Contents

Preface ................................................................. vii
Workshop Organization ........................................ viii
Technical Program Committee ................................ ix
Reviewers ................................................................ x

Plenary Talk
Software Aging and Rejuvenation: Where We Are and Where We Are Going ........................................ 1
Domenico Cotroneo, Roberto Natella, Roberto Pietrantuono, and Stefano Russo

Session #1
Understanding Bohr-Mandel Bugs through ODC Triggers and a Case Study with Empirical Estimations of Their Field Proportion ................................................................. 7
Ram Chillarege
A POMDP Formulation of Multistep Failure Model with Software Rejuvenation ....................................... 14
Hiroyuki Okamura and Tadashi Dohi
Applying Partial and Full Rejuvenation in Different Degradation Levels ............................................. 20
V.P. Koutras and A.N. Platis
A Comparative Evaluation of Software Rejuvenation Strategies ......................................................... 26
Javier Alonso, Rivalino Matias, Elder Vicente, Ana M. Carvalho, and Kishor Trivedi
Multi-granularity Software Rejuvenation Policy Based on Continuous Time
Markov Chain ................................................................ 32
Gaorong Ning, Kishor S. Trivedi, Hai Hu, and Kai-Yuan Cai
Session #2

Software Rejuvenation in Eucalyptus Cloud Computing Infrastructure: A Method Based on Time Series Forecasting and Multiple Thresholds .......................................................... 38
   Jean Araüjo, Rubens Matos, Paulo Maciel, Francisco Vieira, Rivalino Matias, and Kishor S. Trivedi

Job Completion Time on a Virtualized Server Subject to Software Aging and Rejuvenation .................................................................................................................. 44
   Fumio Machida, Victor F. Nicola, and Kishor S. Trivedi

Can Linux be Rejuvenated without Reboots? ......................................................................... 50
   Takeshi Yoshimura, Hiroshi Yamada, and Kenji Kono

Performance Modeling of Apache Web Server Affected by Aging ..................................... 56
   Jing Zhao and Kishor S. Trivedi

Author Index .......................................................................................................................... 62
