2010 Second International Conference on eHealth, Telemedicine, and Social Medicine

(ETELEMED 2010)

St. Maarten, Netherlands Antilles
10-16 February 2010

Editors:

Joseph Finkelstein
Hans C. Ossebaard

Lisette van Gemert-Pijnen

IEEE Catalog Number: CFP1070F-PRT
2010 Second International Conference on eHealth, Telemedicine, and Social Medicine

eTELEMED 2010

Table of Contents

Preface ........................................................................................................................................... viii
Committees ..................................................................................................................................... x
Reviewers ........................................................................................................................................ xv

eTELEMED 1: BUSMMED
Towards a Regional Innovation System for Telemedicine in South Africa ............................................. 1
  Liezl van Dyk, Martin Groenewald, and Jill Fortuin Abrahams
Business Model Engineering for a Wireless Telerehabilitation Service ...................................................... 5
  Lambert J. M. Nieuwenhuis and Björn Kijl
Towards Innovative Business Modeling for Sustainable eHealth Applications ........................................... 11
  A. H. M. van Limburg and J. van Gemert-Pijnen

eTELEMED 2: Rural and Wilderness eHealth
African Telenursing: What is It and What's Special about It? ................................................................. 17
  S. Wynchank and Jill Fortuin
Enhancing Rural Healthcare in Emerging Countries through an eHealth Solution ................................... 23
  Saatviga Sudhahar, Dinusha Vatsalan, Dulindra Wijethilake,
  Yvonne Wickramasinghe, Shiromi Arunathilake, Keith Chapman,
  and Gihan Seneviratna
# eTELEMED 3: Classical Medicine and eHealth Integration

- **e-Dietician in General Practice**
  - Carl J. Brandt, Cecilia Arendal, Dorte Glintborg, and Søren Toubro
  - Innovative ICT Platform for Emerging eHealth Services: Towards Overcoming Technical and Social Barriers and Solving Grand Challenges in Medicine
  - Cezary Mazurek and Maciej Stroinski

## eTELEMED 4: Telemedicine/eHealth Applications I

- **User-Centered Development of Effective Web-Based Patient Education: A Case Study about Methicillin-Resistant Staphylococcus aureus**
  - Fenne Verhoeven, Lisette van Gemert-Pijnen, and Ron Hendrix
- **Operational Wellness Model: A Wellness Model Designed for an Agent-Based Wellness Visualization System**
  - Chitsutha Soomlek and Luigi Benedicenti
- **Evaluation of the User Experience of a Standard Telecare Product - The Personal Trigger**
  - Andrea Taylor and Stefan Agamanolis

## eTELEMED 5: Telemedicine/eHealth Applications II

- **Implementation a Holistic Model, Interactive and Persuasive to Facilitate Self-Care of Patients with Diabetes (hIPAPD)**
  - Miguel Vargas-Lombardo, Armando Jipsion, Rafael Vejarano, Ismael Camargo, Humberto Álvarez, Elena Villalba Mora, and Emestina Menasalva Ruiz
- **Experiences and Preferences of Patients with Rheumatic Diseases Regarding an Interactive Health Communication Application**
- **Evaluation of the Use of an Ask-the-Expert e-Consultation Service for Support on Health-Related Requests**
  - N. Nijland, J. E. W. C. van Gemert-Pijnen, S. M. Kelders, B. J. Brandenburg, and E. R. Seydel

## eTELEMED 6: Telemedicine/eHealth Applications III

- **WSN Applications in Personal Healthcare Monitoring Systems: A Heterogeneous Framework**
  - Karla Felix Navarro and Elaine Lawrence
- **Mobile Technologies for Enhancing eHealth Solutions in Developing Countries**
  - Dinusha Vatsalan, Shiromi Arunatileka, Keith Chapman, Gihan Senaviratne, Saatviga Sudahar, Dulindra Wijetileka, and Yvonne Wickramasinghe
- **A Pilot Study of Home Automated Telemanagement (HAT) System in African Americans with Congestive Heart Failure**
  - Joseph Finkelstein and Cheryl R. Dennison
A Cloud Computing Solution for Patient's Data Collection in Health Care
 Carlos Oberdan Rolim, Fernando Luiz Koch, Carlos Becker Westphall, Jorge Werner, Armando Fracalossi, and Giovanni Schmitt Salvador

95

eTELEMED 7: Personalized eHealth

Exploiting Personal Health Records in Automating Information Therapy ................................................................. 100
 Juha Puustjärvi and Leena Puustjärvi

Interactive Games to Improve Quality of Life for the Elderly: Towards Integration into a WSN Monitoring System .................................................. 106
 Elaine Lawrence, Christian Sax, Karla Felix Navarro, and Mu Qiao

Usage and Effect of a Web-Based Intervention for the Prevention of Overweight; a Randomized Controlled Trial ...................... 113
 S. M. Kelders, J. E. W. C. van Gemert-Pijnen, A. Werkman, and E. R. Seydel

100

eTELEMED 8: eHealth Technology and Devices

Intra-body Temperature Monitoring Using a Biofeedback Solution ........................................................................ 119
 João M. L. P. Caldeira, José A. F. Moutinho, Binod Vaidya, Pascal Lorenz, and Joel J. P. C. Rodrigues

Wireless Transmission of EMG Signal and Analysis of Its Correlation with Simultaneously Acquired Carotid Pulse Wave Using Dual Channel System ........................................................................ 125
 Dipali Bansal, Munna Khan, and Ashok Kumar Salhan

Statistical Modeling of Aggregated Lifestyle and Blood Glucose Data in Type 1 Diabetes Patients ........................................ 130
 Stein Olav Skrøvsseth, Eirik Årsand, Ragnar M. Joakimsen, and Fred Godtliebsen

 Diana Elena Vega, Ina Schieferdecker, and George Din

eTELEMED 9: Social and Financial Aspects

e-CRL: A Rule-Based Language for Expressing Patient Electronic Consent .......................................................... 141
 Cédric Pruski

A Theory of Constraints Approach to Health Technology Assessment ........................................................................ 147
 Johan Groop, Karita Reijonsaari, and Paul Lilrank

Web Communities for Preventive Health Care - Experienced Usability and Health Impact among Smokers and Overweight People ............................................................ 153
 Åsa Smedberg

141

Author Index ................................................................................................................................................................ 159
