Proceedings
31st International Conference on Ground Control in Mining

Edited by

Thomas Barczak
Donna Opfer
Donna Caudill
Syd S. Peng

Steve Tadolini
Melanie Thompson
Brittney Warnick

Primary Technical Reviewers

Dennis Dolinar
Dave Gearhart
John Ellenberger
Essie Esterhuizen
Gerry Finfinger
Keith Heasley
Tristan Jones
Ted Klemetti

Yi Luo
Brijes Mishra
Michael Murphy
Dan Payne
Steve Signer
Vince Scovazzo
Steve Tadolini
Mike Trevits
Jeff Whyatt

1. West Virginia University, Morgantown, WV
2. Minova International, Bowerston, OH
3. NIOSH, Office of Mine Safety and Health Research
4. BHP Billiton Mitsubishi Alliance
5. John T. Boyd Company
6. Consultant

July 31- August 2, 2012
Lakeview Scanticon Resort & Conference, Morgantown, WV, USA
# TABLE OF CONTENTS

## Operator Case Histories and Experiences

   
   .......................................................... 1

   
   .......................................................... 14

   
   .......................................................... 22

   
   .......................................................... 27

   
   .......................................................... 38

   
   .......................................................... 43

## Engineering Design Tools and Developments

7. **Calibrating the LaModel Program for Site Specific Conditions**, K. Heasley, West Virginia University, Morgantown, WV
   
   .......................................................... 48

8. **CISPM-MS: A Tool to Predict Surface Subsidence and to Study Interactions Associated with Multi-seam Mining Operations**, Y. Luo, B. Qiu, West Virginia University, Morgantown, WV
   
   .......................................................... 56

## New Roof Support Product Developments

9. **The Next Generation of Cable Bolts for Improved Ground Support**, S. Tadolini, Minova USA, Bowerston, OH, J. Tinsley, Minova USA, Marion, IL, J. McDonnell, Minova USA, Grand Junction, CO
   
   .......................................................... 63

    
    .......................................................... 70

11. **The Development and Application of Polyurethane Injectable Cable Bolts**, D. Faulkner, Jennmar Corporation, Inc., Pittsburgh, PA
    
    .......................................................... 75

12. **Aspect Ratio and Other Parameters That Affect the Performance of Burrell Can Roof Supports**, D. Gearhart, T. Batchler, NIOSH-Pittsburgh Research Lab, Pittsburgh, PA
    
    .......................................................... 80

    
    .......................................................... 89
Fundamental Research Studies

14. The Load Transfer Properties of Post-Groutable Cable Bolts Used in the Australian Coal Industry, R. Thomas, Strata Engineering (Australia) Pty Ltd, Charlestown, Australia

15. Comparison of the Performance of Active and Passive Roof Bolts in An Illinois Basin Coal Mine, A. Ray, M. Gadde, Peabody Energy, St. Louis, MO, A. Spearing, Southern Illinois University, Carbondale, IL

17. Passive Seismic Imaging for Determination of the Longwall Rear Abutment Location, E. Westman, Virginia Tech, Blacksburg, VA

18. Relocating Mining-Induced Seismicity at the Trail Mountain Mine, M. Boltz, K. Pankow, M. McCarter, University of Utah, Salt Lake City, UT

19. Effects of Transverse Isotropy on Vertical Stresses When Multi-seam Mining under Supercritical Longwall Panels, A. Suchowerska, J. Carter, R. Merifield, University of Newcastle, Callaghan, Australia

Pillar and Mine Design

20. Large Scale Ground Instability Caused By Failure of Underlying Pillars: A Case Study of Dynamic Multiple Seam Interaction, C. Mark, MSHA, Pittsburgh, PA, L. Barker, MSHA, Mt. Hope, WV

21. Investigating Abutment Load, I. Tulu, K. Heasley, West Virginia University, Morgantown, WV

22. Massive Pillar Collapse: A Room-and-Pillar Marble Mine Case Study, S. Phillipson, MSHA, Pittsburgh, PA

Roof and Rib Control Strategies

23. The Extraction of Main Heading Pillars with a Longwall at Nre Wongawilli Colliery, R. Stone, Charlestown, Australia

24. Think Like a Roof Bolt - Then Make It Scream, G. Smith, EMS Mining, Lebanon, OH

Numerical Modeling Developments and Applications

26. Load Transfer Distance Calibration of a Coal Panel Scale Model: A Case Study, M. Larson, J. Whyatt, NIOSH - Spokane Research Laboratory, Spokane, WA

27. Pillar Design Considering the Plastic Behavior of the Coal Seam, A. Zingano, University Federal of Rio Grande do Sul, Porto Alegre, Brazil

29. Post-Collapse Seismicity of the Crandall Canyon Mine Using Double Difference Relocations, T. Kubacki, M. McCarter, K. Pankow, University of Utah, Salt Lake City, UT

30. The Estimation of Ground Control Risk By Real-Time Quantitative Visual Assessments, A. Garcia, Golder Associates (UK) Ltd., Burton-on-Trent, United Kingdom, P. Altounyan, A. Rostocki, Golder Associates (UK) Ltd, Burton-on-Trent, United Kingdom

31. A Management System to Develop Occupational Health & Safety in Ground Control Operations of Underground Mines, K. Oraee, Stirling University, Stirling, United Kingdom, N. Oraee-Mirzamani, Imperial College London Business School, London, United Kingdom, A. Goodarzi, Ministry of Labor and Social Affairs, Tehran, Iran

32. Subsidence and Uplift Prediction in German and Polish Hard Coal Mining, A. Preusse, H. Kateloe, RWTH Aachen University, Aachen, Germany, A. Sroka, Freiberg University of Mining & Technology, Freiberg, Germany

33. Knowledge Is Power: Introducing the MIDAS, a New Permissible Datalogging System for Use in Mines, T. Jones, NIOSH-Pittsburgh Research Lab, Pittsburgh, PA

34. New Monitoring Technologies for Measuring the In-situ Performance of Rock Bolts, H. Mitri, McGill University, Montreal, Canada, A. Hyett, YiledPoint Inc., Kingston, Canada, D. Guntumadugu, McGill University, Montreal, Canada

35. Is Mining Coal at a 900M Below Surface at the Xuan Dong Coal Mine in China Challenging or Just Interesting Rock Mechanics?, W. Hartman, Geohart Consultants, Melbourne, Australia, M. Everson, SIMTARS, Brisbane, Australia, B. Pang, S. Hayes, Geohart Consultants, Melbourne, Australia

36. Applications of Microseismic Monitoring in China’s Underground Coal Mines, X. Wu, Z. Hosseini, ESG Solutions, Kingston, Canada, C. Liu, Xi’an University of Science and Technology, Xi’an, China, C. Trifu, ESG Solutions, Kingston, Canada

37. Track Entry Deformation Subjected to Longwall Mining in the Overlying Seam: A Case Study, W. Xie, S. Jing, China University of Mining & Tech., Xuzhou, China, Y. Guo, Shanxi Coking Coal Group International Development Co., Ltd., Taiyuan, China
38. Application of Chain Conveyor Cutter (CCC) to Highwall Mining System, T. Sasaoka, S. Ikuta, H. Shimada, A. Hamanaka, Kyushu University, Fukuoka, Japan, H. Takamoto, MMI Coal Tech Co. Ltd, Tokyo, Japan, K. Matsui, Kyushu University, Fukuoka, Japan

39. The Evaluation of Empirical Coal Pillar Strength Formula Based on Uncertainty Criterion, N. Hosseini, Islamic Azad University, South Tehran Branch, Tehran, Iran, B. Oraee-Mirzamani, Centre for Environmental Policy, Imperial College London, London, United Kingdom, K. Oraee, University of Stirling, Stirling, United Kingdom

40. Prediction of First Weighting Distance in Longwall Coal Mining By 3D Numerical Modeling - A Case Study, H. Manteqi, Azad university of south of Tehran branch, Tehran, Iran, K. Shahriar, Amirkabir University, Tehran, Iran, Tehran, Iran, R. Torabi, Shahrood University of Technology, Tehran, Iran

41. A Review of Effective Parameters on Roof Fall During Retreat Mining in Room and Pillar Coal Mines, E. Ghasemi, M. Ataei, Shahrood University of Technology, Shahrood, Iran, K. Shahriar, Amirkabir University of Technology, Tehran, Iran

42. Application of Neuro-Fuzzy Technique in Mine Support System for Ground Control, S. Kashyap, Central Institute of Mining and Fuel Research, CSIR (Ministry of Science & Technology, Govt. of India), Barwa Road, Dhanbad, India, D. Parhi, National Institute of Technology, Rourkela, India, A. Sinha, Central Institute of Mining and Fuel Research, Barwa Road, Dhanbad, India

43. Determination of the Strength of Powered Roof Supports According for Fatigue Life, M. Polak-Micewicz, Fazos Co. LW Support System The Opole University of Technology, Faculty of Mechanical Engineering, Tarnowskie Góry, Poland, T. Lagoda, The Opole University of Technology, Faculty of Mechanical Engineering, Opole, Poland, A. Khair, Department of Mining Engineering West Virginia University, Morgantown, WV

5. Modal Testing and Dynamic Finite Element Analysis of a Roof Bolter’s Drilling Boom, Y. Zhang, Z. Shi, J. Zhang, Xi’an Research Institute of China Coal Technology & Engineering Group Corp, Xi’an, China
