PROCEEDINGS OF THE XXVIII INTERNATIONAL HORTICULTURAL CONGRESS ON SCIENCE AND HORTICULTURE FOR PEOPLE

PROCEEDINGS OF THE INTERNATIONAL SYMPOSIUM ON POSTHARVEST TECHNOLOGY IN THE GLOBAL MARKET

Volume 2

Co-Conveners

M.I. Cantwell
D.P.F. Almeida

Lisbon, Portugal
August 22-27, 2010

ISHS Commission Quality and Post Harvest Horticulture

Acta Horticulturae 934
June 2012
LIST OF CONTENTS

VOLUME 2

Fruit Quality

Evaluation of Factors Affecting Shelf-Life and Quality Biomarkers of Imported Avocado Fruit
M. Donetti and L.A. Terry

Effect of Electrolysed Water (Anolyte) Dipping on Microbial, Physicochemical and Sensorial Quality of Date Fruit
H. Bessi, H. Debbabi, K. Grissa and S. Bellagha

Shelf Life of Solanum gilo Fruits Affected by Ethylene and O2 Absorbers
A.P.S. Ferreira, D.R. Carvalho, A.M. Mapeli and F.L. Finger

Influence of Hydrothermal Treatments on Papaya Fruit (Carica papaya L.)

Effect of Ethanol and Hot Water on Postharvest Ripening of Persimmon
A. Ramezanian

Quality of Custard Apple (Annona squamosa L.) in Relation to Packaging and Storage Period

Involvement of Antioxidant Activity in Flesh Browning of Astringent Persimmon
C. Besada, A. Salvador, J.L. Vázquez-Gutiérrez, J. Hernando and I. Pérez-Munuera

Effect of Postharvest Hot Air Treatments on Ripening and Soluble Sugars in Banana Fruits, Musa Spp. ‘Williams’
J.L. Ambuko, Y. Sekozawa, S. Sugaya, G. Zanol and H. Gemma

Postharvest Behavior of Purple Passion Fruit in Xtend® Bags during Low Temperature Storage

Postharvest Lecithin Application Improves Storability of ‘Primosole’ Pomegranates
S. D’Aquino, M. Schirra, A. Gentile, E. Tribulato, S. La Malfa and A. Palma

D-Mannoheptulose: Special Carbohydrate in Avocado: Presence Postharvest and Commercial Importance

Chilling Injury in Avocados and Its Prevention with Thermal Treatment
J.R. Donadon, J.F. Durigan, C.M.A. Morgado and M.F.B. Durigan

667
Pre-Harvest Chemical Treatments Affect Post-Harvest Quality of Litchi Fruit

P. Aliya and I. Achumi

Changes in Water Status in ‘Camarosa’ Strawberries Associated with Storage at Low Temperature and High CO₂

M. Blanch, M.T. Sanchez-Ballesta, M.I. Escribano and C. Merodio

Defining the Suitable Cold Storage Temperature for ‘Karaj’ Persimmon

O. Khademi, Z. Zamani, Y. Mostofi, J. Adib and A. Ahmadi

Diagnosis of Fruit Quality and Mineral Contents of ‘Fuyu’ Persimmon Produced in Southern Brazil

Effects of Storage Temperature and Duration on Quality of Unshelled and Shelled Almonds

R. Cornacchia, M.L. Amodio and G. Colelli

Postharvest Conservation of Mature-Green and Ripe ‘Paluma’ Guava Stored at Two Temperatures

C.M.A. Morgado, J.F. Durigan, M.F.B. Durigan and V.G. Lopes

Nitric Oxide-Induced Enhancement of Banana Fruit Attributes and Keeping Quality

G. Manjunatha, V. Lokesh and N. Bhagyalakshmi

Influence of Organic Beeswax-Based Coating Emulsion on the Post-Storage Quality of Sweet Pepper, Mango, and Avocado Fruit

A. Bustan and J. Lahav

Bio-Available Silicon Fertilization Effects on Strawberry Shelf-Life

E. Babini, S. Marconi, S. Cozzolino, M. Ritota, A. Taglienti, P. Sequi and M. Valentini

Postharvest Behavior of Native Pineapple Fruit and ‘Golden MD-2’ (Ananas comosus) during Low Temperature Storage

Fruit Quality – Apple and Pear

Development and Mapping of Molecular Markers for Candidate Genes Involved in Apple Fruit Texture

R. Dreesen, M.W. Davey, K. Peeters, N.-J. Van der Veken and J. Keulemans

Effects of Bagging Twice and Room Temperature Storage on Quality of ‘Cuiguan’ Pear Fruit

J. Lin, Z.H. Wang, X.G. Li and Y.H. Chang

Cell Wall Modifications Following Cold Storage of Calcium-Treated ‘Golden Reinders’ Apples

A. Ortiz, J. Graell and I. Lara
Selection for Improved Fruit Texture and Storability in Apple
H. Nybom, M. Ahmadi-Afzadi, L. Garkava-Gustavsson, J. Sehic and I. Tahir

Assessment of Bitter Pit Risk in ‘Gala’ Apples by Fruit Infiltration with Magnesium
C.V.T. Amarante, C.A. Steffens, P.R. Ernani and L.C. Argenta

Predicting Bitter Pit in ‘Golden Smoothee’ Apples
E. Torres and S. Alegre

Maturity Index and Cold Storage Effects on Postharvest Quality of ‘Packham’s Triumph’ and ‘Rocha’ Pears
L.R. Antonioili and A.B.C. Czermainski

Apple Ripening Determined by Conventional Methods and the ‘NSure’ Genetic Assay
D.A. Neuwald and J. Streif

Fruit quality – Citrus

Exploring the Involvement of Ethylene in the Regulation of Color Changes in Citrus Fruit
L. Carmona, M.J. Rodrigo and L. Zacarias

Degreening of ‘Satsuma Okitsu’ Tangerine
L.O. Santos, J.F. Durigan, R.N. Martins and M.F.B. Durigan and E.S. Stuchi

Antioxidant Activity and Vitamin C Are Not Affected by Degreening Treatment of Clementine Mandarins
S. Sdiri, P. Navarro, J. Ben Abda, A. Monterde and A. Salvador

Physical and Chemical Characterization of Persian Lime Fruit Harvested at Two Stages of Maturity

The Potential of Hot Water and Molybdenum Dips to Induce a Synergistic Sugar-Ascorbic Acid Interaction in Lemon Rind during Cold Storage
J.P. Bower, N. Mathaba and I. Bertling

Fruit Quality – Mango

Abscisic Acid Modulates Mango Fruit Ripening
S.S. Zaharah and Z. Singh

Effect of Post-Harvest Distribution Environment on Quality Deterioration of Mango Fruits
E. Yasunaga, V. Sardsud, P. Wanwarang, K. Yuge, W. Spreer and S. Fukuda

Role of Brassinosteroids in Mango Fruit Ripening
S.S. Zaharah and Z. Singh

669
Mass Estimation of Mangoes by Processing of White Background Grayscale Images

An Adaptive Threshold Level for Segmentation of Grayscale Images Using Image Processing to Sort Mangoes by Weight Estimation

Fruit Quality – Melons

Aroma Volatiles during Whole Melon Ripening in a Climacteric Near-Isogenic Line and Its Inbred Non-Climacteric Parents
J.P. Fernández-Trujillo, M. Fernández-Talavera, M. Ruiz-León, M.J. Roca and N. Dos-Santos

Lysophosphatidylethanolamine Effects upon Volatiles and Quality of Fresh-Cut Cantaloupe Melon

Non-Enzymatic Antioxidant Activity of Skin and Flesh of Near-Isogenic Lines of Melon Is Linked to Postharvest Behavior
Y. Piñeros and J.P. Fernández-Trujillo

Quality Oriented Breeding Using Sensory Attributes in Melon: the Case of Climacteric and Non-Climacteric Near-Isogenic Lines Obtained from Non-Climacteric Parents
J.P. Fernández-Trujillo, M.C. Bueso and M.S. Hernández

Postharvest Change in Compositional, Visual and Textural Quality of Grafted Watermelon Cultivars
M.C. Kyriacou and G.A. Soteriou

Fruit Quality – Stone Fruits

Fruit Colour, Size and Temperature Affect the Shelf Life of Sweet Cherry
N. Puniran, D.C. Close, S.A. Bound, R. Corkrey and M.D. Whiting

Transcriptome Analysis of the Differential Effects of 1-MCP on the Development of Chilling Injury in Peaches Harvested at Early and Late Maturities

Effect of Cold Storage Duration on Shelf Quality Attributes of ‘Bing’ and Five Sweet Cherry Cultivars Developed in the Summerland Breeding Program
P.M.A. Toivonen and F. Kappel

Metabolomics Approach to Studying Minimally Processed Peach (Prunus persica) Fruit
R. Tosetti, F. Martinelli, P. Tonutti and D.K. Barupal

670
Postharvest Performance of Peach and Nectarine Grafted on Seven Rootstocks

J. Castro, C. Sotomayor and T. Jackson

Effect of Different Storage Conditions on Nutritional and Quality Parameters of 'Sweetheart' Cherry

Suture Softening and Sugar Metabolism in Peach (Prunus persica L. Batch 'Okubo')

Z. Liu, H. Ma and X. Jia

Packaging to Preserve 'Aurora-1' Peaches from Two Maturity Stages

L.C. Cunha Junior, B.H. Mattius and C.F.M. Mattius

Influence of Cell Wall Calcium Content in Fruit Firmness during the Ripening of Plums (Prunus domestica L.)

A.E. Rato, C. Nunes, A.C. Agulheiro-Santos, J.M. Barroso, F. Riquelme and M.A. Coimbra

Skin Colour Changes in Fruits of Two Sweet Cherry Cultivars, Its Heterogeneity and Relationship with Quality Indices

A. Yommi, V. Fernandez, N. Guerra, G. Cendoya and V. Quillehauquy

Changes in the Chemical Composition of Several Peach Cultivars (Prunus persica L.) during Cold Storage

J. Cano, L. López and G. Echeverría

Radiation, Yield, and Fruit Quality of ‘Gala’ Apples Grown under White Hail Protection Nets

C.V.T. Amarante, C.A. Steffens and L.C. Argenta

Influence of Volatile Compound Emissions and Standard Quality on Consumer Acceptance of Peaches and Nectarines

G. Echeverría, J. Cano, L. López and G. Alins

Effects of Pre-Storage at 20°C on the Standard, Sensory and Aroma Quality of ‘Big Top®' Nectarines

L. López, J. Cano, G. Echeverría and G. Alins

Pre-Storage Conditioning of Non-Melting Flesh Peaches Using Directed Heat Stress Alone or Combined with 1-Methylcyclopropene to Maintain Fruit Quality during Postharvest Handling

M.S. Kao, J.K. Brecht and D.J. Ruber

Watercore Dissipation in ‘Fuji’ Apples by Postharvest Temperature Conditioning Treatments

D.A. Neuwald, D. Kittemann, J. Streif and C.A.W. Andrade

Effect of Cold Acclimation Treatment and Exogenous Ethylene Treatment on Woolliness Related Enzymes on ‘Okubo’ Peach Fruits during Low Temperature Storage

Y.X. Li, G.X. Wang and L.S. Liang
Cell Wall Characterisation of Cracking-Affected ‘Snow Queen’ Nectarines
A. Ortiz, G. Seymour, G. Tucker and I. Lara

Fruit Quality, Colour Development and Index of Absorbance Difference (Iad) of Different Nectarine Cultivars at Different Harvest Dates
G. Relg, S. Alegre, I. Iglesias, G. Echeverría and F. Galius

Quality Evaluation of ‘Sunburst’ Cherries Harvested at Different Ripeness Stages
A.C. Agulheiro-Santos, V. Palma, G. Machado, A.E. Rato and M.J. Cabrita

Vegetable Quality

Detection of Mealiness in Tomato by Textural Analysis
C. Jatvn, S. Arazuri, I. Arana, N. Arias, P. Riga and B. Epalza

Prediction of Spinach Quality Based on Pre- and Postharvest Conditions
E. Gutiérrez-Rodríguez, J.H. Lieth, J.A. Jernstedt and T.V. Suslow

Effect of Different Pre-Cooling, Packaging and Cold Storage Treatments on Quality of Broccoli
L. Yan and S. Liu

Pre-Harvest H2O2 Application Affects Postharvest Quality of Greenhouse-Grown Sweet Peppers
W.C. Lin, G.S. Block and D.L. Ehret

Influence of Planting Date and Mulching on Some Qualitative Traits of Processed Tomatoes
P. Sambo, S. Santagata, M. Elsayed, G. Peretto, G. Zanin and C. Nicoletto

Main Characteristics of Polyphenol Oxidase from Asparagus Lettuce
X. Yue and G.L. Chen

Ethylene Exposure after Dormancy Break Is as Effective as Continuous Ethylene to Control Sprout Growth in Some UK-Grown Potato Cultivars
S.G. Foukaraki, G.A. Chope and L.A. Terry

Quality of Italian Tomato Fruit from Organic and Conventional Production Systems and Stored at Two Temperatures
N. Botrel, F.V. Resende, B.S.F. Leite, R.C.M.R. Nassur and E.V.B. Vilas Boas

Quality of Tomatoes Produced with Different Doses of Organic Compost
R.C.M.R. Nassur, E.V.B. Vilas Boas, N. Botrel, F.V. Resende and B.S.F. Leite

The Effects of Blanching on Biological Value of Endive (Cichorium endivia L.)
K. Adamczewska-Sowińska and C.M. Uklańska

Color and Other Quality Aspects of Tomato Fruits Subjected to a Short Period of Induced Compression

672
Quality Indices Changes in Petioles of Celery (Apium graveolens L.) Harvested at Different Physiological Stages
A. Yomni, N. Di Gerónimo, L. Carrozzi, V. Quillehauqy, G. Goñi and S. Roua

A Method for Detecting the Spoilage Microbe Mycocentrospora acerina in Carrot Production for Industry

Microwave Application for Blanching and Drying of Cooking Tomato
T. Orikasa, Y. Ando, T. Shiina, I. Sotome, S. Isobe, T. Yano and A. Tagawa

Sanitation of Mushroom (Agaricus bisporus) with UV-C Light
B. Ozcoz, J. Barriobero, E. Róth, R. López and C. Urbina

UV-C Induced Disease Resistance and Delayed Ripening in Tomato Fruit with Prior Exposure to Selected Storage Stresses
R. Corcuff, R. Muvunyi, S. Bourget and J. Arul

Postharvest Quality and Antioxidant Activity of Mini Sweet Peppers as Affected by Several Types of Bulk Packaging
Z.S. Ilić, Z. Aharon, Y. Perzelan, Sh. Alkalai-Tuvia and E. Fallik

Effect of Pressure Pre-Cooling, Room Pre-Cooling and Cold Storage on Quality of Sweet Corn
S. Liu, H. Zhang and S. Zheng

Effect of the Dimension of Mechanical Injury on the Respiration of Tomatoes

Optimisation of the Postharvest Chain for Whole and Fresh-Cut Cauliflower
E. Róth, A. Gómez, J. Barriobero, B. Ozcoz, J. Mir-Bel and R. López

Impact of Water Heat Treatment on Physical-Chemical, Biochemical and Microbiological Quality of Whole Tomato (Solanum lycopersicum) Fruit
J. Pinheiro, C.L.M. Silva, C. Alegria, M. Abreu, M. Sól and E.M. Gonçalves

Effect of Lightness and Darkness on Respiration Rate of Vegetables
C. Cunkun, G. Yuanhui, W. Wensheng and D. Chenghu

Optimization, Heat Stability and Kinetic Characterization of Pectinmethylesterase Enzyme from Tomato (Solanum lycopersicum ‘Zinac’) Fruits
J. Pinheiro, C.L.M. Silva, C. Alegria, M. Abreu and E.M. Gonçalves

Relationship between Pectin-Methyl Esterase Activity and Softening in ‘Raf’ Tomato Fruit
M. Guzmán, A. Sánchez, M.C. Salas, F. del Moral and J.L. Valenzuela

Do Quercetin Glucosides Govern Skin Colour Changes in Brown Onion (Allium cepa L.) Bulbs during Curing?
K. Cools, G.A. Chope and L.A. Terry

673
Evaluation of the Impact of Hot Water Treatment on the Sensory Quality of Fresh Tomatoes
F.E. Loayza, J.K. Brecht, A. Plotto, E.A. Baldwin and J. Bai

Sensory Profile of Stored Sweet Corn

Effects of Auxin-Induced Parthenocarpy on Ethylene Production and Postharvest Quality Attributes of Zucchini Fruit
C. Martinez, S. Manzano, Z. Megias, A. Rubio, J.L. Valenzuela, M. Jamilena, F. Carvajal and D. Garrido

Postharvest Storage Systems Affect Phytochemical Content and Quality of Traditional Portuguese Onion Cultivars

The Effect of CA Storage on Quality Parameters of Shallot (Allium ascalonicum L.) Bulbs
M.T. Bajer and M. Gajewski

Effect of Physical Characteristics on the Transpiration Rate of Carrots during Storage

Effect of Pre- and Postharvest Factors on Splitting in Radish (Raphanus sativus)
J.M. Monaghan, T. Chiramba and L.M. Mogren
