2007 IEEE International Multitopic Conference

(INMIC 2007)

Lahore, Pakistan
28-30 December 2007
# TABLE OF CONTENTS

Organizing Committee ............................................ iii

Message from INMIC 2007 General Chair ........................ v

Technical Referees ................................................ vi

On the Dimensional Estimate of Rounding-Errors of a typical Computing Process ........................................ 1
Nasir Daniyal, Raheel Noor, Bilal A Usmani, S Jamal H Zaidi, Dadabhoy Institute of Higher Education, Kalroft Pvt Ltd

A Template Based Continuous Genetic Algorithm for Image Reconstruction ................................................. 8
Shahzad Ahmed Qureshi, Sikander M. Mirza, M. Arif, PIEAS

Speaker Verification Using Boosted Cepstral Features with Gaussian Distributions ...................................... 14
Ahmad Salman NUST (EME College) Rawalpindi, Pakistan

Internet Traffic Modeling for Pakistan Internet Exchange ............................................................................... 19
Mehreen Alam, FAST-NU, Islamabad

SCTP vs. TCP: Delay and Packet Loss .............................. 25
Muhammad Khalil Afzal, Dr. Aman-Ullah Khan, Dr. Antonio Pescape, Salvatore Loreto,
Yousaf Bin Zikria CIIT Wah, Università di Napoli “Federico II” Naples (Italy) CIIT Islamabad

Performance Evaluation of DCCP, SCTP using mpeg4 over wireless networks ........................................... 30
Sumera Nosheen, Dr. Shahzad A. Malik, Yousaf Bin Zikria, Dr. Aman-Ullah Khan, Muhammad Khalil Afzal CIIT Islamabad, CIIT Wah

Throughput Enhancement in AODV through Direction Awareness .............................................................. 36
Abdul Basit and S A Hussain, CIIT, Lahore

Comparison of speech response of normal hearing listener and cochlear implanted patient using model for chaotic system .......................................................... 42
Taha Sajjad, Dr. Zubair Ahmed Khan University of Engineering & Technology, Lahore, Pakistan

Analysis of Urdu Syllables and Proposed Algorithm Structure for Determination of Speaker’s Speaking Rate ...... 51
J.S. Mirza, Hannan bin Liaqat, S. A. Hayat, CIIT, Lahore

Measurement of Urdu Speaker’s Speaking Speed in Ordinary Conversation ................................................ 55
J.S. Mirza, Hannan bin Liaqat, S. A. Hayat, CIIT, Lahore

Statistical Based Real-Time Selective Herbicide Weed Classifier ................................................................. 60
Irshad Ahmad CIIT, Abbottabad

Effect of UV radiation on HTV-SiR insulator with moisture ........................................................................ 64
Muhammad Amin, Munir Ahmed UET, Taxila, Pakistan

Modified Nonintrusive Appliance Load Monitoring For Nonlinear Devices ................................................. 69
Mahmood Akbar, Dr. Zubair Ahmad Khan, UET, Lahore

Cryptanalysis and Security Enhancement of Two Password Authentication Schemes with Smart Cards ........ 74
Muhammad Khurram Khan, MIEEE, Mohammad Munir Hasan Department of Computer Science & Engineering,
Bahria University, Karachi, Pakistan

An Accessible Formal Specification of the UML and OCL Meta-Model in Isabelle/HOL .................................. 78
Mohammad Nauman, Masoom Alam, Tameek Ali City University of Science and Information Technology, Peshawar, Pakistan

Spectral Solution for Detecting Isomorphic Graphs with Nondegenerate Eigenvalues ................................... 84
Usman A Zahidi, Embedded Software Engineer, Denmark

Using Support Vector Machines for Numerical Prediction ........................................................................... 88
Shahid Hussain, College of Computer and Information Sciences PAF-Karachi Institute of Economics and Technology

Korangi Creek, Karachi

Simulation & Optimization of a Dual Mode Four Cavity Elliptic Waveguide Filter ...................................... 93
Sohaib Akram, Dr.Inam Elahi Rana Bismillah Electronics Wahdat Road Lahore

New Error Functions associated with Multimodulus Algorithm for Blind Channel Equalization .................. 97
Shahzad Amin Sheikh, Pingzhi Fan, Institute of Mobile Communications, Southwest Jiaotong University, China

Steganography in MMS ...................................................................................................................... 102
Mohammad Shirali-Shahreza Computer Science Department Sharif University of Technology Tehran, Iran

Integration of Model-Checking Tools : from Discrete to Hybrid Models ....................................................... 106
Waseem A Mufli, Dimitri C.Tcherukine, NUCES-FAST Karachi

Semantic Preserving RTL Transformation for Control-Data Slicing in Virtual IPs ..................................... 110
Waseem Muhammad, SOC laboratory, ENST, Institute Eurecom Sophia/antipolis Cedex, France

Intelligent Reconfigurable Instruction Set Processor (IRISP) Design ............................................................ 116
Aziz-Ur-Rehman, Dr. Aqeel A. Syed Quaid-i-Azam University Islamabad Pakistan

viii
