Preface	Gold Nanoparticles for Physics, Chemistry and Biology	vii
Chapter 1.	Gold Nanoparticles in the Past: Before the Nanotechnology Era <i>Catherine Louis</i>	1
Chapter 2.	Introduction to the Physical and Chemical Properties of Gold <i>Geoffrey C. Bond</i>	29
Chapter 3.	Optical Properties of Gold Nanoparticles <i>Olivier Pluchery</i>	43
Chapter 4.	Photothermal Properties of Gold Nanoparticles <i>Bruno Palpant</i>	75
Chapter 5.	Synthesis of Gold Nanoparticles in Liquid Phase <i>Daeha Seo and Hyunjoon Song</i>	103
Chapter 6.	Chemical Preparation of Gold Nanoparticles on Surfaces <i>Catherine Louis</i>	139

*Contents*

Chapter 7.	Catalytic Properties of Gold Nanoparticles <i>Geoffrey C. Bond</i>	171
Chapter 8.	Surface Structures of Gold Nanoparticles <i>Shamil Shaikhutdinov</i>	199
Chapter 9.	Theoretical Studies of Gold Nanoclusters in Various Chemical Environments: When the Size Matters <i>Hannu Häkkinen</i>	233
Chapter 10.	Optical and Thermal Properties of Gold Nanoparticles for Biology and Medicine <i>Romain Quidant</i>	273
Chapter 11.	Gold Nanoparticles for Sensors and Drug Delivery <i>Christian Villiers</i>	299
Chapter 12.	What About Toxicity and Ecotoxicity of Gold Nanoparticles? <i>Marie Carrière</i>	333
Chapter 13.	Technological Applications of Gold Nanoparticles <i>Michael Cortie</i>	355
	Biographies of the Authors	379
	Index	389
