Prologue: Motivating change in consumption and behaviour 1
ROBERT CROCKER AND STEFFEN LEHMANN

PART I
Framing the problem: consumption, behaviour and sustainability 9

1 From access to excess: consumerism, ‘compulsory’ consumption and behaviour change 11
ROBERT CROCKER

2 Exploring the role of individual, context and object in sustainable urban consumption 33
PETER W. NEWTON

3 Working towards sustainability: exploring the workplace as a site for pro-environmental behavioural change 56
JANINE CHAPMAN, NATALIE SKINNER AND SHARNI SEARLE

4 The national dialogue on behaviour change in UK climate policy: some observations on responsibility, agency and political dimensions 71
SHANE FUDGE AND MICHAEL PETERS

5 Using the long lever of value change 92
CHRISNA DU PLESSIS
PART II
Communicating for change: values, behaviour, media and design 109

6 Behaviour change: a dangerous distraction
TOM CROMPTON 111

7 Leading by design: cultivating self-leadership for sustainability
PAUL MURRAY 127

8 Telling the truth about animals and environments: media and pro-environmental behaviour
CARLA LITCHFIELD 153

9 Advertising, public relations and social marketing: shaping behaviour towards sustainable consumption
GJOKO MURATOVSKI 178

10 Contemplative objects: artefacts for challenging convention and stimulating change
STUART WALKER 198

PART III
Social innovation for change: shaping behaviour through design 215

11 Sustainable qualities: powerful drivers of social change
EZIO MANZINI AND VIRGINIA TASSINARI 217

12 Amplifying innovative sustainable urban behaviours: defining a design-led approach to social innovation
LARA PENIN 233

13 Well-being, participation and young citizens shaping place
ANGELIQUE EDMONDS 254

14 System design for sustainability: the challenge of behaviour change
CARLO VEZZOLI 276

15 Ethnicity, environmental behaviour and environmental justice: initial findings from research in a London borough
GUY M. ROBINSON, STEVEN GUILBERT, TERRY TUDOR, STEWART W. BARR, ALAN METCALFE AND MARK RILEY 291
PART IV
Designing urban systems for change: towards the zero waste city 315

16 Motivating behaviour change and implementing waste management optimization to create ‘zero waste cities’
ATIQ UZ ZAMAN AND STEFFEN LEHMANN 317

17 Zero Waste 2020: sustainability in our hands
PAUL CONNETT 343

18 Food for thought: design of a food waste composting system in a temporary accommodation setting
KERRIE BELL, BARBARA KOTH AND STEFFEN LEHMANN 362

19 Wood in the city: social acceptance of prefabricated multi-storey timber buildings using low-carbon construction systems
STEFFEN LEHMANN AND GABRIELE B. FITZGERALD 385

Epilogue: The consumption dilemma: from behaviour change to zero waste
STEFFEN LEHMANN AND ROBERT CROCKER 419
