2012 Fifth International Conference on Business Intelligence and Financial Engineering

(BIFE 2012)

Lanzhou, Gansu, China
18 – 21 August 2012

IEEE Catalog Number: CFP1221H-PRT
ISBN: 978-1-4673-2092-4
# Table of Contents

## Artificial Neural Networks

A Fuzzy Group Forecasting Model Based on BPNN for Wind Power Output .................................................. 1  
*Qian Zhang, Kin Keung Lai, Dongxiao Niu, and Qiang Wang*

Reliability Analysis of Multi-Stress Accelerated Life Test Based on BP Neural Network ........................................... 6  
*Xiaoying Wang and Jihong Shen*

A Triple Artificial Neural Network Model Based on Case Based Reasoning for Credit Risk Assessment ..................... 10  
*Qiang Wang, Kin Keung Lai, Dongxiao Niu, and Qian Zhang*

## Ensemble Learning and Hybrid Learning

Improving Financial Returns Using Neural Networks and Adaptive Particle Swarm Optimization ........................................ 15  
*Yi Xiao, Ming Xiao, and Fuzhe Zhao*

An Ensemble of Fuzzy Sets and Least Squares Support Vector Machines Approach to Consumer Credit Risk Assessment .................................................. 20  
*Jingli Liu, Jianqi Mao, and Lei Chen*

Personal Credit Assessment Based on KPCA and SVM .................................................................................... 25  
*Jing Wang, Yongsheng Zhou, Xinjian Du, and Mingke He*

Crude Oil Price Forecasting: A Transfer Learning Based Analog Complexing Model ........................................... 29  
*Jin Xiao, Changsheng He, and Shouyang Wang*
Data Mining and Text Mining

A Three-stage Data Mining Model for Reject Inference .......................................................... 34
   Weimin Chen, Youjin Liu, Guocheng Xiang, Yongqing Liu, and Kexi Wang

Case Study of Performance Management for PPP Projects .................................................. 39
   Deli Yao and Qiang Chen

A New Method of Computing Chinese Word Similarity Based on Statistics ........................... 43
   Bo Zhang, Lei Hong, Shubin Song, Liang He, and Guorong Li

E-Business and BI

Regional Logistics Information Resources Integrate and Share ........................................... 47
   Hui Wu

Envelopment-competition Pattern of E-Business Platform — Insights from the Competition among Taobao, Baidu and Tencent .................................................. 51
   Yinying Zhang and Wenqi Duan

An Empirical Study of the Influence Factor of Tourism E-Commerce Purchase ..................... 56
   Bo Jiang

Evolution Model and Critical Mass of E-business Platform Based on Complex Networks .......... 60
   Ou Huang and Wenqi Duan

Maximization of Online Display Advertising Slots ............................................................... 65
   Haiying Ou

Collaborative Filtering and Collaborative BI

Collaborative Filtering Recommendation Algorithm Based on Item Clustering and Global Similarity .......................................................... 69
   Suyun Wei, Ning Ye, Shuo Zhang, Xia Huang, and Jian Zhu

Competitive Pricing Strategy Based on Consumer Stockpiling and Consumption Acceleration Behaviors .......................................................... 73
   Zheng Cui, Yanyan Li, Yongsheng Zhou, and Haaxiong Yang

A Collaborative Filtering Algorithm Based on User Activity Level ..................................... 80
   Yongli Cui, Shubin Song, Liang He, and Guorong Li

Construction of Ontologies by Using Concept Maps: A Study Case of Business Intelligence for the Federal Property Department ........................................ 84

Simulation of the Incentive Mechanism for Knowledge Sharing between Employees Based on the Organization Design .................................................. 89
   Dabin Zhang, Ying Sun, and Zhenlei Zhong
Supply Chain Integration through BI
Design on Enterprise Knowledge Supply Chain Based on Cloud Computing ........................................93
Qian Li, Xuan Zhang, and Ming Chen
Channel Bargaining with Fairness-concerned Agents under Power-form Demand ................................98
Lijun Ma and Yingxue Zhao
Revenue Sharing Contract Based on Supply Chain Finance .................................................................103
Chaoliang Zhang and Yong Fang
New Operational Mode of R/ M Integrated Supply Chain Based on IoT ...........................................108
Gu Qiaolun and Gao Tiegang
Public or Private? An Analysis of Supply Chain Choice of E-Markets ...............................................113
Jian Li, Jie Pei, Fengmei Yang, and Yakun Wang
Replenishment Cycle Optimization of JIT Manufactory .................................................................118
Jianjun Yu
Performance and Profits Sharing between Two-level Building Supply Chain ................................122
Suxian Zhang and Xiaosong Zhang

Asset Pricing and Management
Pricing Analysis on Internet Paid Sharing of Digital Products .............................................................126
Chengxiong Zhou, Guoxin Nie, Peinan Li, and Lianshang Zhao
System Dynamic Model of Housing Price Fluctuations Based on the Impact of Real Estate Tax Institution and Trading Behavior ..............................................................130
Shao-rong Sun and Si-rong Ren
Behavioral Asset Pricing Model Based on Regret Theory ...............................................................135
Sheng Jiliang
A Copula-based Regime-switching Model for Rainbow Option Pricing ............................................140
Ping Li and Yin Libo
Asset Allocation under Regime-Switching Models .............................................................................144
Na Song, Wai-Ki Ching, Dong-Mei Zhu, and Tak-Kuen Siu
Option Sensitivity Simulation by Malliavin Calculus and Quasi-Monte Carlo Methods ......................149
Yongjia Xu, Yongzeng Lai, and Yan Zeng
A New FA-DEA Method Based on Classification and Weighting .......................................................154
Jianhuan Huang and Juanjuan Chen
A Pricing Model for Convertible Bonds in China ..............................................................................159
Huiyan Dong and Kun Guo
Research on the Pricing of Convertible Bonds Based on Completely Disassembled Method .............164
Zhang Dai-Jun, Dong Dian-Hua, Zou Qun-Si, and Shi Zhen-Hai
The Comparison of Beta Distribution Estimation and Gauss Kernel Density Estimation in the Recovery Rates of Municipal Bonds .................................................................168
   Rongda Chen and Ze Wang

An Exploration on Cross Hedging Method of Chinese Steel Enterprises for Spot Iron Ore and Enlightenments ..........................................................172
   Han Qiao, Yingming Mao, Xiang Liu, and Yingxue Zhao

Generating Profit Using Option Selling Strategies ........................................177
   Stanley Choi, Dong Gang, and Kin Keung Lai

Optimal Hedging with Quantity Uncertainty and Agency Problem ................181
   Jianfeng Liang and Weiping Yang

Financial Risk Management

EVT-based Risk Measurement of Ownership-Thematic Investment in China .................................................................186
   Xuchao Li and Chengli Zheng

Credit Risk Evaluation by Improved MCDM Models ..................................191
   Wenshuai Wu, Gang Kou, and Yi Peng

Customer Credit Risk Assessment of Pledge by Warehouse Receipts in a Chinese Logistics Enterprise ..........................................................196
   Li Cui, Yong Sheng Zhou, Mingke He, Hao Zhang, and Shu Pang

The Macro Regulation and Control of Financial Policy under the Currency Mismatch Condition .................................................................200
   Zhongzhao Wang, Dichen Guan, and Yonghao Zhang

The Strategy of the Operational Risk Management: Connotations of it in Commercial Banks of China ..........................................................205
   Shaqiang Qu and Yuzhong Zhang

Study on Cumulative Residual Entropy and Variance as Risk Measure ..........210
   Lijuan Yang

Measurement and Analysis on the Risk of China Stock Market under Different Economic Systems ..........................................................214
   Jianhui Yang and Ranxin Zhang

Comprehensive Measure and Influential Factors of Fragility of Commercial Bank System in China .................................................................219
   Xiaofeng Zhang and Lan Yao

The Time-varying Risk Premium Coefficient and the Conditional Skewness .................................................................224
   Fenghua Wen, Jinli Xiao, Zhifeng Liu, Zhifeng Dai, and Xiaoguang Yang

The Long-run IPO Performance, Frequency of Cash Dividend and Signal Effect: Evidences from China ..........................................................229
   Xiangzhong Huang

The Spillover Effects of the European Government Debt Crisis on Chinese Economy .................................................................233
   Lin Zhao and Shanying Xu

</table>
Valuation of Restricted Shares: Evidence from the Split Share Structure Reform in China ................................................................. 370
   Jinlou Zhao, Yifei Cheng, and Lanlan Liu

An Inquiry into Volatility of Stock Returns in China A-Share Market ................................................................. 374
   Jilin Zhang

Exploring the Mechanism Innovation in Investment and Financing of the Coastal Shoal Development in Jiangsu Province ........................................... 379
   Keren Zhao and Min Zhao

The Style and Structure of Chinese Stock Market in 2005~2010: Based on Symbolic Principal Component Analysis ................................. 385
   Wen Long and Dingmu Cao

The Effect of Disposition Effect on Stock Price Volatility ................................................................. 390
   Fenghua Wen, Zhifang He, Zhifeng Dai, and Xu Gong

DCC Analysis of Two Exchange Rate Market Returns Volatility with a Factor of Switzerland Exchange Rate Market: Study of Japan and Korea Markets ................................................................. 394
   Wann-Jyi Horng

CSI 300 Stock Index Futures to Launch an Empirical Research on A-Share of the Spot Market Pricing Efficiency and Operating Efficiency Influence ................................................................. 399
   Zhang Dai-Jun, Chen Wei, and Hou Meng-No

Efficiency Test in Chinese Plastic Futures Market ................................................................. 404
   Rongda Chen, Weijin Wang, and Wenlong Li

Computational Business Science / IV/IV

Supply Chain Knowledge Sharing Preference Space Model Construction and Analysis of Influencing Factors ................................................................. 408
   Xiaofeng An, Xumei Zhang, and Guangfu Zhu

The Design of Incentive Mechanisms for the Interregional Public Goods under Asymmetric Information ................................................................. 411
   Hong Su and Jing Tang

Modeling Government Role on the Innovation Diffusion of Infra-Technologies ................................................................. 416
   Ying Wu and Wen Li

Discussion on the Capitalization of Borrowing Costs ................................................................. 421
   Daosheng Wei and Kai Wei

The Relationship between Regional Intellectual Capital and Regional Innovation Competence: An Empirical Analysis Based on Chongqing City ................................................................. 425
   Panyi Li, Junfeng Li, and Jun Yin

Impact of Administrative Appointment on the Executive’s Management Capacity of Monopoly SOE ................................................................. 430
   Yong Fang and Weina Bi
Top Management Team Attention and International Market Entry Mode: Evidence from China .......................................................... 572

Jianzu Wu and Bin Guan

The Subgroup Formation in Chinese Work Groups: An Investigation of Antecedents and Consequences .......................................................... 578

Haizhen Wang

Relationship between Resource-Based Multinational Corporations and Host Country .......................................................... 583

Yuan Yao and Jingru Jiao

The Social Responsibility of Resource-Based Multinational Corporations in the Host Country .......................................................... 588

Jingru Jiao and Yuan Yao

Factors Involved and Countermeasures for Western Region to Undertake Eastern Industrial Transferring .......................................................... 593

Liang Lei and Ailing Xia

Collaborative Sharing System of Accounting Information for Stakeholders Based on XBRL .......................................................... 597

Wei Liu

The Construction of County Public Expenditure Performance Evaluation System in China .......................................................... 601

Mei Li, Jing Li, and Ling Zhang

Design and Implementation of Web Course Evaluation Based on Cloud Model .......................................................... 605

Jie Zhang, Chungui Liu, and Shaoying Zhu

Shock Models Driven by a Cluster Process with Lévy Perturbation and their Applications in Insurance Risk .......................................................... 609

Jianming Bai and Fanghui Liu

The Impact of Value Co-creation Capability on Cooperation Performance in Service Supply Chain with Trust as Mediator .......................................................... 614

Jinliang Chen

Creditors Screening on Logistics Company in Triple Inventory Pledge Loan .......................................................... 618

Ping Yu

Models of Lifetime Human Capital Accumulation for Perfect and Imperfect Credit Markets .......................................................... 622

Chun Yuan, Lingyan Cao, and Weining Fu

Top Management Team Attention and International Strategy: A Case Study .......................................................... 625

Jianzu Wu and Yusheng Bi
## Innovation Management and Knowledge Networks

The Development of Emerging Strategic Industries - A Perspective View  
of Ecological and Civilizational Economy ................................................................. 629  
* Ziming Zhu, FuLing Liao, and DongShen Luo

The Emergence of Knowledge Network in a Turbulent Problem-Solving Environment ............ 632  
* Hua Zhang and Chungang Lang

The Knowledge-transfer Risk Evaluation Model of the Execution of ERP Project  
Based on AHP ........................................................................................................... 636  
* Dewei Qi and Zongqian Zhu

Management Innovation Capabilities Evaluation of Small and Medium-sized  
High-tech Enterprises in Shanghai ........................................................................... 641  
* Yong Ma and Shougui Luo

Model for Renegotiation in Infrastructure Projects with Government Guarantee .................... 646  
* Li Gong and Jin Tian

A Study of University Students' On-line Shopping Behavior Traits and Influencing  
Factors .................................................................................................................. 649  
* Lutong Zhang, Zhiyuan Li, and Beteyev Azamat
