| 2 Variability in normal and defective colour vision: consequences for occupational environments | 24   |
| J. L. Barbur and M. Rodriguez-Carmona, City University London, UK      |      |
| 2.1 Introduction                                                       | 24   |
| 2.2 Vision information channels                                        | 25   |
| 2.3 The concept of the luminous efficiency function                   | 27   |
| 2.4 Photoreceptor contrasts and the CIE (x,y) chromaticity chart       | 31   |
| 2.5 Individual differences in colour vision                           | 33   |
| 2.6 Methods of assessing colour vision loss                           | 40   |
| 2.7 Anomaloscope variability in the parameters of the yellow match    | 46   |
| 2.8 Colour assessment and diagnostics (CAD) test                      | 49   |
| 2.9 Colour in occupational environments                                | 62   |
| 2.10 Colour in healthcare                                              | 70   |
| 2.11 Conclusions                                                       | 76   |
| 2.12 Sources of further information and advice                         | 77   |
| 2.13 Acknowledgements                                                 | 77   |
| 2.14 References                                                        | 77   |
Contents

3 Colour illusions and the human visual system 83
A. RIZZI and C. BONANOMI, Università degli Studi di Milano, Italy
3.1 Introduction 83
3.2 Illusions in the context of the human visual system 84
3.3 From isolated colour to colour in context: some experiments 90
3.4 Examples of the different groups of colour illusions 95
3.5 Conclusions 103
3.6 References 103

4 Colour psychology: the emotional effects of colour perception 105
B. MIKELLIDES, Oxford Brookes University, UK
4.1 Introduction 105
4.3 Colour and psycho-physiological arousal 112
4.4 Colour and subjective time estimation 122
4.5 Colour and the subjective feeling of warmth 123
4.6 Conclusions and further reading 125
4.7 Sources of further information and advice 126
4.8 References 126

5 Understanding colour perception and preference 129
A. HURLBERT and Y. LING, Newcastle University, UK
5.1 Introduction 129
5.2 The origins and uses of colour vision 130
5.3 Colour preference in humans 134
5.4 Colour preference in animals 147
5.5 Physiological effects of background and illumination colours: ‘warm’ vs ‘cool’ colours 149
5.6 Conclusions 151
5.7 References 152

6 Predicting responses to colour 158
A. WRIGHT, Colour Affects, UK
6.1 Introduction 158
6.2 A different approach 159
6.3 The Wright Theory 160
6.4 The process of colour specifying 172
6.5 Conclusions 173
6.6 Bibliography 173

# Part II Measuring and describing colour

## 7 International standards for colour

T. M. Goodman, National Physical Laboratory, UK

1. Introduction 177
2. CIE standard colorimetric observers 182
3. CIE illuminants and sources 185
4. Standards for measuring reflecting and transmitting materials 187
5. Expressing colour in terms of chromaticity coordinates 189
6. Other descriptors of chromaticity 195
7. Colour difference evaluation 199
8. Colour appearance 207
9. Calibration, traceability and measurement uncertainty 209
10. Future trends 215
11. Conclusions 216
12. Sources of further information and advice 216
13. References 217

## 8 Colour description and communication

J. S. Setchell, Jr, formerly of Pantone, Inc. (retired), USA

1. Introduction 219
2. Colour order systems 223
3. Named colour systems 225
4. Colour naming 229
5. Instrumental measurement of colour 230
6. Digital imaging systems 235
7. Colour constancy 242
8. Metamerism 243
9. Colour standards 243
10. Colour difference 244
11. Computation of colour co-ordinates 244
12. Derivation of the CIE 1931 standard observer 247
13. Future trends 249
14. Sources of further information and advice 250
15. References 252

## 9 Colour naming for colour communication

D. Mylonas and L. MacDonald, University College London, UK

1. Introduction 254
2. Mapping the terrain 255

© Woodhead Publishing Limited, 2012
## Contents

### 9.3 Previous colour naming studies
- 256

### 9.4 Conducting a colour naming experiment over the internet
- 259

### 9.5 An online colour naming model
- 264

### 9.6 Colour naming selection guidelines
- 267

### 9.7 Conclusions and future directions
- 267

### 9.8 Sources of further information
- 268

### 9.9 Acknowledgements
- 269

### 9.10 References
- 269

### 10 Colour specification and visual approval methods for textiles
- 271

#### J. Best, Retail Colour Management Specialist (Consultant), UK

#### 10.1 Introduction
- 271

#### 10.2 Global colour supply chain
- 274

#### 10.3 Colour communication
- 275

#### 10.4 Colour specification
- 280

#### 10.5 Colour vision
- 285

#### 10.6 Tools for colour assessment
- 287

#### 10.7 Conclusions
- 293

#### 10.8 Acknowledgement
- 294

#### 10.9 Sources of further information
- 294

#### 10.10 Bibliography
- 294

### 11 Colour management and approval methods in lithographic printing
- 295

#### S. Wilkinson, Hallmark, UK

#### 11.1 Introduction
- 295

#### 11.2 Case study: typical procedures of a commercial print company
- 299

#### 11.3 International printing standards
- 302

#### 11.4 Colour management in practice
- 303

#### 11.5 Conclusions
- 304

#### 11.6 Sources of further information
- 305

### Part III Colour, design and coloration
- 307

### 12 The history of colour theory in art, design and science
- 309

#### R. M. Osborne, Micro Academy, UK

#### 12.1 Introduction
- 309

#### 12.2 The Reformation (c. 1520–c. 1550)
- 310

The history of dyes and pigments: from natural dyes to high performance pigments

16.1 Introduction
16.2 Cave paintings
16.3 Dyes from ancient Egypt
16.4 Pigments of ancient Egypt
16.5 Greco-Roman dyes and pigments
16.6 Medieval dyes and pigments
16.7 Pigments of the industrial revolution
16.8 Synthetic dyes
16.9 Organic pigments
16.10 Conclusions
16.11 References

Dye types and application methods

17.1 Introduction
17.2 Dye selection
17.3 Preparation of materials for dyeing
17.4 Dyeing of cellulosic fibres
17.5 Dyeing of protein fibres
17.6 Dyeing of polyamide fibres
17.7 Dyeing of polyester fibres
17.8 Dyeing of acrylic fibres
17.9 Fluorescent brightening agents
17.10 Dyeing of fibre blends
17.11 Dyeing machinery
17.12 Conclusions
17.13 Sources of further information and advice

Colour printing techniques

18.1 Hardcopy colour: analogue versus digital
18.2 Colour theory in relation to printing
18.3 An overview of halftoning and digital print technologies
18.4 An overview and development of inks 515
18.5 Inkjet papers and inks 519
18.6 Recent and future trends in colour, printing inks and hardware 522
18.7 Sources of further information 525
18.8 References 525
18.9 Glossary 526

Part IV Colour and design in particular applications 533

19 Colour trends and selection in fashion design 535
J. A. King, De Montfort University, UK
19.1 Introduction 535
19.2 Colour associations 537
19.3 Key issues of colour in fashion design 540
19.4 Case studies 542
19.5 Conclusions 547
19.6 Sources of further information and advice 548
19.7 References 548

20 Colour in interior design 551
K. Haller, Interior Colour Expert, Karen Haller Interiors Ltd, UK
20.1 Introduction 551
20.2 The role of an interior designer 552
20.3 Colour psychology 557
20.4 In the home: colour and its many moods 560
20.5 Colour toolkit 561
20.6 Factors that influence colour 566
20.7 Colour in the public and commercial space 572
20.8 Colour trends 579
20.9 How cultural influences affect colour 582
20.10 Conclusions 582
20.11 Sources of further information and advice 583
20.12 References 584

21 Colour in food 585
J. B. Hutchings, University of Leeds, UK
21.1 Introduction 585
21.2 Colour, evolution and health 585
## Contents

21.3 Appearance 588  
21.4 Total appearance and expectations 590  
21.5 Assessment and measurement 592  
21.6 Halo effects, commercial exploitation and ethics 594  
21.7 Conclusions 598  
21.8 References 598

22 Choosing effective colours for websites 600  
C. Sik-Lányi, University of Pannonia, Hungary

22.1 Introduction 600  
22.2 Choosing effective colours for websites 601  
22.3 HTML colours 604  
22.4 Colour harmony 606  
22.5 Users with special needs (disabled and colour-deficient users) 610  
22.6 Web content accessibility guidelines 613  
22.7 Conclusions 618  
22.8 Sources of further information 619  
22.9 References 620

23 Evolution and colour change in works of art 622  
J. H. Townsend, Tate Britain, UK

23.1 Introduction 622  
23.2 Art and collectables 623  
23.3 Domestic display: commonsense preservation 633  
23.4 Sources of further information and advice 634  
23.5 References 635
