Contributor contact details ix
Woodhead Publishing in Textiles xi

1 Carpet types and requirements 1
   D Whitefoot, CText, FTI, UK
   1.1 The role of textiles in floor coverings 1
   1.2 Types of textile used as floor coverings 5
   1.3 Methods of carpet construction 11
   1.4 Future trends 17
   1.5 Sources of further information and advice 18

2 Structure and properties of carpet fibres and yarns 19
   S K Chaudhuri and S Bandyopadhyay, Australian Wool Innovation, India
   2.1 Introduction 19
   2.2 Structure and properties of carpet fibres 20
   2.3 Carpet yarn manufacturing 27
   2.4 Carpet yarn engineering 33
   2.5 Yarn finishing 38
   2.6 Carpet yarn testing and quality control 42
   2.7 Future trends 43
   2.8 Sources of further information and advice 43
   2.9 References 43

3 Advances in carpet weaving 44
   S Demey, N V Michel Van de Wiele, Belgium
   3.1 Introduction 44
   3.2 Face-to-face carpet weaving 45
   3.3 Axminster weaving 58
vi  Contents

3.4  Wire Wilton and loop pile weaving  61
3.5  Automation in carpet-weaving mills  64
3.6  Management of carpet-weaving factory  68
3.7  Conclusions  75

4  Developments in wool carpet manufacture  77
   E J WOOD, AgResearch Ltd, New Zealand

   4.1  Introduction  77
   4.2  Wool supply and early stage processing  79
   4.3  Processing routes for wool  82
   4.4  Technologies for wool carpet yarns  83
   4.5  Manufacturing techniques for wool carpets  87
   4.6  Technologies for tufting wool carpets  87
   4.7  Wool carpet performance  93
   4.8  Selecting the most appropriate wool carpet  96
   4.9  Future trends  96
   4.10  Sources of further information and advice  99
   4.11  References  100

5  Developments in textile sports surfaces  102
   G SCHOUKENS, Ghent University, Belgium

   5.1  Introduction  102
   5.2  Key requirements of sports surfaces  104
   5.3  Types of textiles used in relation to the sports surfaces  104
   5.4  Role of textiles in meeting performance requirements  106
   5.5  Sliding and temperature, related to the used textiles  119
   5.6  Future trends  128
   5.7  Applications and examples of artificial turf fields  130
   5.8  Acknowledgements  135
   5.9  References  135

6  Developments in handmade carpets: introduction  138
   K K GOSWAMI, Indian Institute of Carpet Technology, India

   6.1  Introduction  138
   6.2  The history of handmade carpets  139
   6.3  Modern handmade carpet production  143
   6.4  Carpet production in India  144
   6.5  Carpet production in Iran  148
   6.6  Carpet production in China  150
   6.7  Carpet production in Pakistan  151
   6.8  Carpet production in Nepal  152
   6.9  Carpet production in Turkey  152
7 Developments in handmade carpets: design and manufacture
K K Goswami, Indian Institute of Carpet Technology, India

7.1 Introduction: key issues in design 182
7.2 Traditional carpet designs 183
7.3 Key stages in design 198
7.4 Carpet materials 200
7.5 Sheep wool 200
7.6 Silk 206
7.7 Cotton 208
7.8 Other natural fibres 208
7.9 Synthetic fibres 210
7.10 Backing materials 211
7.11 Manufacturing techniques 212
7.12 Key terms in manufacturing 229
7.13 Weaving of handmade carpets 230
7.14 Carpet knots 237
7.15 Dyeing 240
7.16 Dyeing of wool 240
7.17 Chemical processing and dyeing of silk 252
7.18 Natural colours for wool and silk carpets 255
7.19 Eco-friendly and organic carpet manufacture 259
7.20 Colour matching 260
7.21 Quality issues 261
7.22 Customer attitudes to quality 264
7.23 Acknowledgements 267
7.24 References 268

8 Reducing static electricity in carpets
J Smallwood, Electrostatic Solutions Ltd, UK

8.1 Introduction 269
8.2 Principles of static electricity in carpeted environments 270
8.3 Methods of reducing static electricity in carpet materials 280
8.4 Test methods and standards 281
8.5 Applications 286
8.6 Future trends 288
8.7 Sources of further information and advice 288
8.8 Acknowledgement 289
8.9 References and further reading 289

9 Developments in the thermal processing of carpets 291
W CARR and H DONG, Georgia Institute of Technology, USA
and H S LEE, Cerro Flow Products, Inc., USA

9.1 Introduction 291
9.2 Carpet yarn twist setting 293
9.3 Carpet dyeing and finishing 297
9.4 Carpet drying after dyeing and finishing 301
9.5 Latex curing 305
9.6 Energy consumption and management 307
9.7 Future trends 309
9.8 References 309
