**Part I  Fundamentals of footwear anatomy**  

1. The anatomy of the human foot  
   L.K. Chan, The University of Hong Kong, P. R. China  
   1.1 Introduction  
   1.2 The bones of the human foot  
   1.3 The joints of the human foot  
   1.4 The muscles and tendons of the human foot  
   1.5 The arches of the human foot  
   1.6 The neurovasculature of the human foot  
   1.7 The surface anatomy of the human foot  
   1.8 Conclusion  
   1.9 Sources of further information  

2. Foot biomechanics and gait  
   T. Schmeltzpfenning, University of Tübingen, Germany and  
   T. Brauner, Technical University of München, Germany  
   2.1 Introduction  
   2.2 Gait  
   2.3 Kinetics  
   2.4 Kinematics  
   2.5 Dynamic morphology  
   2.6 Future trends  
   2.7 Conclusion  
   2.8 Sources of further information and advice  
   2.9 References

</table>
14.3 Importance of the environmental impact of footwear and footwear materials & 268
14.4 Assessing the environmental impact of footwear products & 268
14.5 Environmental impact studies of footwear and footwear materials & 271
14.6 Conclusion and future trends & 275
14.7 References & 276

Part IV Applications & 281

15 Footwear for cold weather conditions & 283
K. Kuklane, Lund University, Sweden
15.1 Introduction & 283
15.2 The feet in cold environments & 284
15.3 Feet and footwear-related injuries in cold environments & 287
15.4 Design requirements of footwear for cold environments & 290
15.5 Footwear insulation & 296
15.6 Footwear evaporative resistance measurements & 301
15.7 Moisture management in footwear & 302
15.8 Effect of socks on feet insulation, moisture management and comfort & 308
15.9 References & 311

16 Textiles for protective military footwear & 318
F. Wang, Swiss Federal Laboratories for Materials Science and Technology, Switzerland
16.1 Introduction & 318
16.2 Key requirements for military footwear & 319
16.3 The role of textiles in military footwear & 326
16.4 Examples of military footwear & 330
16.5 Conclusion & 334
16.6 Future trends & 335
16.7 Sources of further information & 335
16.8 References & 336

17 Textiles and other materials for orthopaedic footwear insoles & 341
K. L. Yick, The Hong Kong Polytechnic University, P. R. China and C. Y. Tse, Centre for Orthopaedic Surgery, P. R. China
17.1 Introduction & 341
17.2 Key requirements for orthopaedic footwear insoles & 342
17.3 Types of textiles and materials for orthopaedic footwear insoles & 345
