Proceedings of an International Symposium organized by:

- US Department of Homeland Security, Science and Technology Directorate
- DHS Center of Excellence for Emerging and Zoonotic Animal Diseases (CEEZAD) at Kansas State University
- Center for Food Security and Public Health/Institute for International Cooperation in Animal Biologies at Iowa State University
- World Organisation for Animal Health (OIE)
- International Alliance for Biological Standardization (IABS)

14 figures and 16 tables, 2013

KARGER

### Contents

**Preface** ................................................................. IX
J.A. Roth, J.A. Richt, I.A. Morozov

**Session I**

**Roles and responsibilities; facilitation and cooperation** ................. 1

The Role of the Department of Homeland Security, Science and Technology Directorate in the Development of Vaccines and Diagnostics for Transboundary Animal Diseases ... 3
M. Colby, M. Coals, D. Brake, J. Fine

The Perspective of USDA APHIS Veterinary Services Emergency Management and Diagnostics in Preparing and Responding to Foreign Animal Diseases – Plans, Strategies, and Countermeasures. 15
J.R. Diez, D.K. Styles

Agricultural Research Service: Biodefense Research ............................. 23
C.G. Gay

Biologies Industry Challenges for Developing Diagnostic Tests for the National Veterinary Stockpile
J.M. Hardham, C.M. Lamichhane

Translating Research into Licensed Vaccines and Validated and Licensed Diagnostic Tests. 53
R.E. Hill, Jr., P.L. Foley, N.E. Clough, L.R. Ludemann, D.C. Murtle

**Session II**

**State of the art, progress and gaps in development of vaccines and diagnostics for high priority transboundary diseases for the NVS** ................. 59

Vaccination for the Control of Rift Valley Fever in Enzootic and Epizootic Situations ......... 61
B. Dungu, M. Donadeu, M. Bouloy

Diagnostic Approaches for Rift Valley Fever ..................................... 73

Current Status and Future Needs in Diagnostics and Vaccines for High Pathogenicity Avian Influenza 79
D.E. Swayne, E. Spackman

Newcastle Disease: Progress and Gaps in the Development of Vaccines and Diagnostic Tools 95
C.L. Afonso, P.J. Miller

Novel Approaches to Foot-and-Mouth Disease Vaccine Development .......... 107
A. Ludi, L. Rodrigues

Diagnosis of Foot-and-Mouth Disease .............................................. 117
D.J. Paton, D.P. King

Passive Immunization and Active Vaccination against Hendra and Nipah Viruses. .......... 125
C.C. Broder
Current Status of Diagnostic Methods for Henipavirus .......................... 139
A. Tamin, P.A. Rota

Prospects for Development of African Swine Fever Virus Vaccines ..................... 147

African Swine Fever Diagnosis Update .................................................. 159
J.M. Sánchez-Vizcaino, L. Mur

Classical Swine Fever ................................................................. 167
V. Moennig, P. Becher, M. Beer

Schmallenberg Virus ................................................................. 175
K. Wernike, B. Hoffmann, M. Beer

Q Fever Diagnosis and Control in Domestic Ruminants ............................... 183
H.I.J. Roest, A. Bossers, J.M.J. Rebel

Opportunities in Diagnostic and Vaccine Approaches to Mitigate Potential Heartwater Spreading and Impact on the American Mainland ......................... 191
N. Vachiery, I. Marcelino, D. Martinez, T. Lefrançois

Ebola: Facing a New Transboundary Animal Disease? ................................ 201
F. Feldmann, H. Feldmann

Review of Ebola Virus Infections in Domestic Animals ............................... 211
H.M. Weingartl, C. Nfon, G. Kobinger
