ADVANCED LOCATION-BASED TECHNOLOGIES AND SERVICES

Edited by
Hassan A. Karimi
Contents

Preface ................................................................................................................... vii
Editor ..................................................................................................................... xi

SECTION 1 Techniques and Technologies

Chapter 1 Positioning and Tracking Approaches and Technologies ................. 3
    Dorota Grejner-Brzezinska and Allison Kealy

Chapter 2 WiFi Location Fingerprinting ............................................................. 55
    Prashant Krishnamurthy

Chapter 3 Geocoding Techniques and Technologies for Location-Based Services ......................................................... 75
    Daniel W. Goldberg

Chapter 4 Multimodal Route Planning: Its Modeling and Computational Concerns ................................................................. 107
    Lu Liu and Liqiu Meng

SECTION 2 New Trends

Chapter 5 Location-Based Social Networks ....................................................... 127
    Prashant Krishnamurthy and Konstantinos Pelechrinis

Chapter 6 Geo-Crowdsourcing ......................................................................... 145
    Jessica G. Benner and Hassan A. Karimi

Chapter 7 Pedestrian Path Generation through GPS Traces ............................. 165
    Piyawan Kasemsuppakorn and Hassan A. Karimi

Chapter 8 A CyberGIS Environment for Analysis of Location-Based Social Media Data ......................................................... 187
    Shaowen Wang, Guofeng Cao, Zhenhua Zhang, Yanli Zhao,
    Anand Padmanabhan, and Kaichao Wu
SECTION 3 Services

Chapter 9  Multisensor Map Matching for Pedestrian and Wheelchair Navigation .............................................. 209

  Ming Ren and Hassan A. Karimi

Chapter 10  Security and Privacy in Location-Based Services .................. 235

  Mohd Anwar, Amirreza Masoumzadeh, and James Joshi

Chapter 11  How Using Location-Based Services Affects Our Understanding of Our Environment ........................................ 265

  Kai-Florian Richter

Chapter 12  The Open Geospatial Consortium and Location Service Standards .......................................................... 283

  Carl Reed

Index .................................................................................................................................................. 303
