ITCH 2013 Steering Committee vii

ITCH 2013 Scientific Review Committee ix

Electronic Health Records

Clinician-Led Development of Electronic Health Records Systems 3
John Chelsom, Raju Ahluwalia and Naveed Dogar

Implications of the Mature Personal Health Record for the Empowered Consumer 9
Wesley Rohrer and Mowafa S. Househ

Applying the Clinical Adoption Framework to Evaluate the Impact of an Ambulatory Electronic Medical Record 15
Francis Lau, Colin Partridge, Gurprit Randhawa and Mike Bowen

Role of Healthcare Information Technology in Handoffs 21
Ross Koppel and Joel Leon Telles

Computerisation in General Practice: Lessons for Canada from the UK and Australia 28
Nicola T. Shaw and Mike Bainbridge

Challenges in Data Quality Assurance for Electronic Health Records 37
Omid Shabestari and Abdul Roudsari

A Systemic Approach to E.H.R. Implementation (Abstract) 42
Bogdan Motoc

A Scoping Review on Health Records for Child-in-Care 43
Cori Thompson and Francis Y. Lau

Application of the Technological Pedagogical Content Knowledge Framework in Integrating an Educational EMR into Health Informatics Education 49
Jesdeep Bassi, Andre W. Kushniruk and Elizabeth M. Borycki

Telecare, Telemedicine and Telelaboratory

TeMaD System: Telecare for Managing Diabetes in Saudi Arabia 57
Khulud Alkadi and Abdul Roudsari

Telecardiology on Vancouver Island: Imagination to Implementation 63
Trent Horwood, Mya Aylott, Margarita Loyola, Jill Henderson, Gary Frank and Mary Lyn Fyfe
Developing a Strategy for Studying Critical Thinking in a Nurse Telehealth Setting: A Participatory Approach

Danica Tuden, Hanne Gidora, Peter D. Quick, Nikki Ebdon, Karen Glover, Sherrill Harmer, Wendy Miller, Mary Taylor and Elizabeth M. Borycki

A “Realist Review” Approach to e-Health: The Case of Type 2 Diabetes in Youth

Marilynne A. Hebert

Designing the Community Multi-User Health Kiosk

Julie M. McMillan, Karen L. Courtney, Judith T. Matthews, Asim Smailagic and Daniel Siewiorek

Public Health Informatics

Public Reporting of Hospital Infection Rates: Ranking the States on Credibility and User Friendliness

Ava Amini, David W. Birnbaum, Bernard Black and David A. Hyman

Methodological Approaches to Comparing Information About Bicycle Accidents Internationally: A Case Study Involving Canada and Germany

Christian Juhra, Britta Wieskötter, Paule Bellwood, Ariane von Below, Murray Fyfe, Sonia Salkeld, Elizabeth Borycki and Andre Kushniruk

The Development of a Standardized Software Platform to Support Provincial Population-Based Cancer Outcomes Units for Multiple Tumour Sites: OaSIS – Outcomes and Surveillance Integration System

Jonn Wu, Cheryl Ho, Janessa Laskin, David Gavin, Paul Mak, Keith Duncan, John French, Colleen McGahan, Sherry Reid, Stephen Chia and Heidi Cheung

Clinical Decision Support Systems

Neuroanatomical Basis for Recognition Primed Decision Making

Darren Hudson

Use of Knowledge Discovery Techniques to Understand Nurse Practitioner Practice Patterns and Their Integration into a Healthcare System

Esther Sangster-Gormley, Mu-Hsing Kuo, Elizabeth M. Borycki and Rita Schreiber

Decision Support for Evidence-Based Pharmacotherapy Detects Adherence Problems but Does Not Impact Medication Use

Analysis of Continuous Oxygen Saturation Data for Accurate Representation of Retinal Exposure to Oxygen in the Preterm Infant

Josie Cirrelli, Carolyn McGregor, Brenda Graydon and Andrew James
Tailoring Decision Support to Suit User Needs: A Diagnostic Imaging Example
Janessa Griffith, Elizabeth M. Borycki and Andre W. Kushniruk

Supporting Cystic Fibrosis with ICT
Erin Roehrer, Elizabeth Cummings, Paul Turner, Jenny Hauser, Helen Cameron-Tucker, Sean A. Beggs, Nicole A. Micallef, Claire Wainwright, Joyce Cheney, Mel Jessup, Heather Saddington, Leonie Ellis, Haydn Walters and David W. Reid

Human Computer Interaction

Information Accountability and Usability: Are There Any Connections?
Tony Sahama, Andre Kushniruk and Shigeki Kuwata

A Review of Healthcare Information System Usability & Safety
Simon Minshall

Commercial Versus In-Situ Usability Testing of Healthcare Information Systems: Towards “Public” Usability Testing in Healthcare Organizations
Andre W. Kushniruk, Elizabeth M. Borycki and Joseph Kannry

Integrating Human Factors in an International Research Project: Lessons Learned from the PSIP Project
Romaric Marcilly, Marie-Catherine Beuscart-Zephir and Régis Beuscart

Usability Inspection to Improve an Electronic Provincial Medication Repository
Nicole A. Kitson, Morgan Price, Michael Bowen and Francis Lau

The Long and Twisting Path: An Efficiency Evaluation of an Electronic Whiteboard System
Rasmus Rasmussen and Andre Kushniruk

Applying Usability Methods to Identify Health Literacy Issues: An Example Using a Personal Health Record
Helen Monkman and Andre Kushniruk

Patient Safety, Medical Errors & Quality Management

Clinician Variations in Data Trust and Use
Karen L. Courtney, Yun Jiang, Scott R. Beach, Judith T. Matthews and Richard Schulz

Design and Implementation of Synoptic Operative Report Template Using Interoperable Standards
Wilfred Bonney, Sean Christie, Grace Paterson, Ginette Thibault-Halman and Areej Alsulaiman

Processing Medical Reports to Automatically Populate Ontologies
Luís Borrego and Paulo Quaresma
Health Modeling

A Complex Adaptive Systems Perspective of Health Information Technology Implementation
Karim Keshavjee, Craig Kuziemsky, Karim Vassanji and Ahmad Ghany

A Systems Theory Classification of EMR Hazards: Preliminary Results
Fieran Mason-Blakley and Jens Weber

Benefits of a Clinical Planning and Coordination Module: A Simulation Study
Sanne Jensen, Soren Vingtoft and Christian Nøhr

Mobile Technologies and Telehealth

Issues and Considerations for Healthcare Consumers Using Mobile Applications
Elizabeth Cummings, Elizabeth Marie Borycki and Erin Roehrer

The Introduction and Evaluation of Mobile Devices to Improve Access to Patient Records: A Catalyst for Innovation and Collaboration at BCCA
Jonn Wu, John Waldron, Shaina Hood, Adam Kahnamelli, Mohamed Khan, Jeff Burnett, John French, Stacey Slager, Shadi Melhem and Omid Shabestari

Moving Mobile: Using an Open-Sourced Framework to Enable a Web-Based Health Application on Touch Devices
Joseph Lindsay, J. Allen McLean, Amrita Bains, Tom Ying and M.H. Kuo

The Use of Social Media in Healthcare: Organizational, Clinical, and Patient Perspectives
Mowafa Househ

Evaluation

POND4Kids: A Global Web-Based Database for Pediatric Hematology and Oncology Outcome Evaluation and Collaboration
Yuri Quintana, Aman N. Patel, Magada Arreola, Federico G. Antillon, Raul C. Ribeiro and Scott C. Howard

Knowledge Translation in eHealth: Building a Virtual Community
Jesdeep Bassi, Francis Lau, Simon Hagens, Chad Leaver and Morgan Price

Complex Interventions in Healthcare and Health Informatics: A Scoping Review
Julie Kim

Consumer Informatics

Forumclinic: The Shaping of Virtual Communities to Assist Patients with Chronic Diseases
Immaculada Grau, Francisco J. Grajales III, Joan Gene-Badia, Antoni Siso and Marc de Semir

The PLU Problem: Are We Designing Personal eHealth for People Like Us?
Chris Showell and Paul Turner
Islamic E-Health: Definitions, Applications, and Challenges
Mowafa Househ
281

A User-Centred Methodology for Designing an Online Social Network to Motivate Health Behaviour Change
Noreen Kamal and Sidney Fels
286

Social Media and Patient Self-Management: Not All Sites Are Created Equal
Leonie Ellis, Chris Showell and Paul Turner
291

Empowering Saudi Patients: How Do Saudi Health Websites Compare to International Health Websites?
Mowafa Househ, Abdulrahman Alsughayar and Maha Al-Mutairi
296

Taming Mental-Health-Focused Popular Literature: A Crazy Idea?
Robert T. Zozus Jr., Audrey Bricker, Rob Lunblad, Dennis Elias and Meredith Nahm
302

Considerations for Personal Health Record Procurement
Helen Monkman and Andre Kushniruk
308

An Initial, Qualitative Investigation of Patient-Centered Education in Dentistry
Marc Clayton, Chuck Borromeo, Sherry Hess, Harry Hochheiser and Titus Schleyer
314

Tailored Care Management with Patient-Centered Web-Based Portal in Primary Health Care: Sustaining a Relational Context
James P. Ronan
319

Ontologies, Trust and Standards

The Social Act of Electronic Medication Prescribing
Jos Aarts
327

Improving Decision Quality in Healthcare with an Error Prevention Model (EPM)
David T.S. Chio, Andre Kushniruk and Elizabeth Borycki
332

Software as a Medical Device: Regulatory Critical Issues
Sylvia Pelayo, Sabrina Bras Da Costa, Nicolas Leroy, Séverine Loiseau and Marie-Catherine Beuscart-Zephir
337

Nursing Informatics

Developing National Level Informatics Competencies for Undergraduate Nurses: Methodological Approaches from Australia and Canada
Elizabeth M. Borycki, Joanne Foster, Tony Sahama, Noreen Frisch and Andre W. Kushniruk
345

What Nurses Are Talking About: Content and Community Within a Nursing Online Forum
Kathleen Abrahamson, Rebekah Fox and James G. Anderson
350
A Framework for Leveling Informatics Content Across Four Years of a Bachelor of Science in Nursing (BSN) Curriculum

Noreen Frisch and Elizabeth Borycki

Patient Safety Perspectives: The Impact of CPOE on Nursing Workflow

Mowafa Househ, Anwar Ahmad, Anwar Alshaikh and Fatimah Alsuweed

Healthcare Modeling and Simulation

Developing a Multivariate Electronic Medical Record Integration Model for Primary Health Care

Francis Lau, Morgan Price and Mary Lesperance

Towards Assessing the Socio-Economic Impact of VPH Models (Abstract)

Rainer Thiel, Karl A. Stroetmann and Marco Viceconti

The Use of Discrete-Event Simulation Modeling to Compare Handwritten and Electronic Prescribing Systems

Ahmad Ghany, Karim Vassanji, Craig Kuziemsky and Karim Keshavjee

A Model of Collaborative Agency and Common Ground

Craig E. Kuziemsky and Janet Alexandra Cornett
