PROCEEDINGS OF THE 1st INTERNATIONAL WORKSHOP ON VINEYARD MECHANIZATION AND GRAPE AND WINE QUALITY

Convener

S. Poni

Piacenza, Italy

June 27-29, 2012

ISHS Section Vine and Berry Fruits
ISHS Working Groups Vineyard Mechanization

Acta Horticulturae 978
March 2013
LIST OF CONTENTS

Foreword 5
Preface 6
List of Contents 7
List of Authors 11
List of Participants 13

Precision Viticulture

Sensing Systems Embedded in Machines: Towards a Better Management of Operations in Viticulture 21
B. Tisseyre

Practical Applications of Precision Viticulture in Australia 37
D.N. Newson, A.R. Ratcliff and J.C. Freckleton

The New Architecture in the Vineyard System Management for Variable Rate Technologies and Traceability 47
M. Vieri, D. Sarri, M. Rimediotti, P. Storchi and R. Perria

“La Viarte” Project: the Knowledge of Whole Surface Variability within a Precision Viticulture Approach 55
L. Bigot, G. Bigot, G. Bragato, D. Mossetti and P. Sivilotti

Development and Application of an Autonomous and Flexible Unmanned Aerial Vehicle for Precision Viticulture 63
A. Matese, J. Primicerio, F. Di Gennaro, E. Fiorillo, F.P. Vaccari and L. Genesio

Comparative Assessment of Different Sensing Technologies for Mapping the Vineyard 71
P. Storchi, R. Perria, D. Sarri, M. Rimediotti and M. Vieri

Applications of Computer Vision Techniques in Viticulture to Assess Canopy Features, Cluster Morphology and Berry Size 77
J. Tardaguila, M.P. Diago, B. Millan, J. Blasco, S. Cubero and N. Aleixos

Is PCD a Reliable Indicator of Berry Quality Attributes in Water Stressed Vineyards? 85
J.M. Pons, L. Serrano, C. Gonzales-Flor and G. Gorchs

Quick Quality Evaluation of Chilean Grapes by a Portable vis/NIR Device 93
V. Giovenzana, R. Beghi, A. Mena, R. Civelli, R. Guidetti, S. Best and L.F. León Gutiérrez

Assessing Petiole Iron Content in Vitis vinifera ‘Chardonnay’ Using Reflectance Based Hyperspectral Indices 101
C. Gonzalez-Flor, G. Gorchs and L. Serrano

SmartVineyard: an Open Source Web-GIS Application for Precision Viticulture 107
T. De Filippis, L. Rocchi, E. Fiorillo, A. Matese, F. Di Gennaro and L. Genesio
Effect of Different Soil Management Practices on Grapevine Growth and on Berry Quality Assessed by NIR-AOTF Spectroscopy
M. Muganu, M. Paolocci, D. Gnisci, F.E. Barnaba, A. Bellincontro, F. Mencarelli and I. Grosu

Correlation of Grape Yield and Soil Properties in Two Serbian Locations: a GIS Based Support Technology
L. Životić, M. Pajić, Z. Ranković-Vasić, V. Pajić, A. Đorđević, B. Sivčev and Z. Atanacković

Validation of Vine Canopy Density Measurements by Using an Ultrasonic-Based Method
M. Vitali, T. La Iacona, C. Lovisolo and M. Tamagnone

Oenoview®: Remote Sensing in Support of Vineyard Profitability and Wine Quality
J. Rousseau, V. Lefèvre, H. Douche, H. Poilve and T. Habimana

Mechanical Harvesting and Spraying

Research and Innovation for Full Mechanization of Italian Vineyards at Bologna University
C. Intrieri

Mechanization in Australian Vineyards
P.R. Clingeleffer

Effects of Mechanical Harvesting on ‘Sauvignon Blanc’ Aroma

Effects of Mechanical Harvesting and Grape Processing on the Composition of ‘Sauvignon Blanc’ Juice and Wine
B. Tian, R. Harrison, J. Morton, M. Jaspers, C. Grose and M. Trought

A New System to Preserve Quality of Grapes Harvested by Machine
F. Pezzi, G. Balducci and L. Pari

Performance Evaluation of Recycling Sprayer in Vineyard
M. Tamagnone, P. Balsari and C. Bozzer

Drift Assessment during Chemical Weed Control
P. Balsari, C. Bozzer, M. Manzone and M. Tamagnone

Effect of Viticultural Practices and Sprayer Technology on the Level of Fungicide Residues in Grapevine Berries, Must and Wine
M. Stoll, B. Gaubatz, H.P. Schwarz, R. Keicher, M. Freund, O. Baus, B. Berkelmann-Loehnertz, M. Blum, M. Heinzler and W. Fehse

Environmental Evaluation of Some Sprayers Used in Vine Farms through the EOS Tool
P. Balsari, P. Marucco and G. Oggero

8
Development of a Combined Equipment for Sustainable Weed Control in Vineyard
M. Tamagnone, P. Balsari and P. Marucco

Characterization of the New Cultivar ‘Ervi’ as a Function of Mechanical Harvesting
M. Gatti, M. Zamboni, M.C. Merli, S. Civardi and S. Poni

Checking the Distribution Quality of Agrochemicals in the Vineyard through the Use of Field Monitoring
E. Mescalchin, B. Agabiti, D. Bertoldi, R. Larcher, M. Gobber, A. Guerra, R. Zanzotti and M. Tonni

The Influence of Training System and Vine Row Structure on Losses during Mechanized Harvest
M. Pajić, M. Urošević, V. Pajić, M. Živković and D. Mitrović

Measurement of Mechanical Stresses Transmitted by Grape Harvesters
C. Caprara, G. Balducci and F. Pezzi

The Comparison between Two Grapes Harvesting Machines with Horizontal and Vertical Shaking Systems
F. Pezzi, G. Balducci and L. Pari

Mechanical Winter and Summer Pruning

The Evolution of Mechanized Vineyard Production Systems in California
N. Dokoozlian

Mechanical Crop Thinning and Early Defoliation as Novel Tools for Yield Management in VSP Grapevines
M.P. Diago, J.A. Blanco, J. Tardaguila and S. Poni

Manual and Mechanical Leaf Removal in Bunch Zone (Vitis vinifera L. ‘Nero d’Avola’): Effects on Plant Physiology, Vegetative Parameters, Yield and Grape Quality in a Warm Area
A. Pisciotta, P. Scafidi, R. Di Lorenzo and M.G. Barbagallo

Impact of Various Leaf Area Modifications on Berry Maturation in Vitis vinifera L. ‘Riesling’
M. Stoll, M. Bischoff-Schaefer, M. Lafontaine, S. Tittmann and J. Henschke

Effects of Late Mechanized Leaf Removal above the Clusters Zone to Delay Grape Ripening in ‘Sangiovese’ Vines
A. Palliotti, R. Cini, O. Silvestroni, F. Leoni and S. Poni

Incidence of Minimal Pruning on Wine Quality
J. Rousseau, L. Pic, A. Carboneau and H. Ojeda

Mechanical Pruning, No Pruning and Manual Pruning: Effects on Grape Composition and Health Status of ‘Pinot Gris’ and ‘Cabernet Sauvignon’ Cultivars in the “Piave” AOC Area of Veneto Region
Post-Veraison Mechanical Leaf Removal Delays Berry Ripening on ‘Sangiovese’ and ‘Montepulciano’ Grapevines

V. Lanari, T. Lattanzi, L. Borghesi, O. Silvestroni and A. Palliotti

Alternatives to the Use of Gibberellins for Bunch Thinning and Bunch Compactness Reduction on Grapevine

E. Hanni, E. Lardschneider and M. Kelderer

Effects of Winter Pruning on Physical and Mechanical Properties of Grapes

F. Pezzi, G. Balducci, E. Barca and C. Caprara

**Mechanization System, Automation and Economics**

Precision Mechanization in the Australian Wine Industry for Product Quality, and Financial Sustainability

D.N. Newson and R.J. Nettelbeck

Development and Characterization Tests of a Small Hydraulic-Powered Tractor Prototype for Use in Extreme Sloped Vineyards

F. Mazzetto, R. Gallo, R. Vidoni and C. Bisaglia

A Multifunction Straddle Towed Frame for the Cultivation of Goblet Vineyards

G. Schillaci, R. Bonsignore, L. Caruso, E. Cerruto and E. Romano

Documentation of Working Time in Different Vineyard Systems

E. Vollmer and H.P. Schwarz

A Small Autonomous Electrical Vehicle as Partner for Heroic Viticulture

D. Longo, A. Pennisi, R. Bonsignore, G. Schillaci and G. Muscato

Integrated Full Line of Mechanization for Vineyard Preparation

F. Mazzetto, R. Gallo, A. Calcante, S. Landonio and M. Lazzari
