Table of Contents

C&C 2011 Conference Organization .............................................................................xiii

C&C 2011 Sponsor & Supporters ..............................................................................xviii

Session 1: Creativity and Learning
- Creative-Mindedness: When Technology Helps and When It Hinders .........................1
  Guy Claxton (University of Winchester)

Session 2: Learning
- Studying Medium Effects on Children’s Creative Processes .....................................3
  Sharon Lynn Chu Yew Yee, Francis Quek, Lin Xiao (Virginia Tech)
- Combining Concept Maps to Catalyze Creativity ......................................................13
  Lixiu Yu, Jeffrey V. Nickerson (Stevens Institute of Technology)
- Kinesthetic Pathways: A Tabletop Visualization to Support Discovery in Systems Biology ........................................ 21
  Andy Wu, Jung-Bin Yim, Eric Caspary, Ali Mazalek, Sanjay Chandrasekharan, Nancy J. Nersessian (Georgia Institute of Technology)
- An Artistic Dialogue with the Artificial ..................................................................31
  David Norton, Derrall Heath, Dan Ventura (Brigham Young University)

Session 3: Creativity & Technology – 1: Fiction
- Creative Gadget Design in Fictions: Generalized Planning in Analogical Spaces ........41
  Boyang Li, Mark O. Riedl (Georgia Institute of Technology)

Session 3B: Public Art
- Performing Places ...............................................................................................51
  Colombine Gardair, Patrick G. T. Healey, Martin Welton (Queen Mary University of London)
- Post-it Note Art: Evaluating Public Creativity at a User Generated Art Installation ..........61
  Anijo Mathew (IIT Institute of Technology), Yvonne Rogers, Peter Lloyd (The Open University)

Session 4: Design – 1
- An Information-Processing Account of Creative Analogies in Biologically Inspired Design ........................................ 71
  Ashok K. Goel, Swaroop Vattam, Michael Helms, Bryan Wiltgen (Georgia Institute of Technology)
- Understanding Repair as a Creative Process of Everyday Design ..........................81
  Leah Maestri, Ron Wakkary (Simon Fraser University)
- Traces in Creative Spaces ....................................................................................91
  Jelle van Dijk (Utrecht University of Applied Sciences), Gerrit Willem Vos (Eindhoven University of Technology)

Session 5: Creativity and Music
- Enduring Interaction: An Approach to Analysis and Design of Animated Gestural Interfaces in Creative Computing Systems ........................................ 95
  Kenny K. N. Chow (The Hong Kong Polytechnic University), D. Fox Harrell (Massachusetts Institute of Technology)
- Music One Participates In .................................................................................105
  Atau Tanaka (Newcastle University)
Session 6: Affect

- Temporal Integration of Interactive Technology in Dance: Creative Process Impacts
  Celine Latulipe, David Wilson, Berto Gonzalez, Sybil Huskey, Melissa Word
  (University of North Carolina at Charlotte)

- A Scale Model of Mixed Reality
  Evan Barba, Blair Machtyne (Georgia Institute of Technology)

- Audience Empathy: A Phenomenological Method for Mediated Performance
  Greg Comess, Kristin Carlson, Thecla Schiphorst (Simon Fraser University)

- Tech Break Up: A Research Method for Understanding People's Attachment to Their Technology
  Elizabeth Gerber (Northwestern University)

Session 7: Creativity & Technology – 2: Physical Presence

- Formally Modeling Pretend Object Play
  Alexander Zook, Brian Magerko, Mark Riedl (Georgia Institute of Technology)

Session 7B: Collaboration

- NOOT: A Tool for Sharing Moments of Reflection During Creative Meetings
  Jelle van Dijl, Jirka van der Roest, Remko van der Lugt (Utrecht University of Applied Sciences),
  Keet Overbeeke (Eindhoven University of Technology)

- Designing Reality-Based Interfaces for Creative Group Work
  Florian Geyer, Ulrike Pfefi, Anita Höchtl, Jochen Buzdinski, Harald Reiterer (University of Konstanz)

- Creative Personal Projects of the Elderly as Active Engagements with Interactive Media Technology
  Anu Kankainen, Vilma Lehtinen (Aalto University)

Session 8: Creativity and Art

- Computing Harmony with PerLogicArt: Perceptual Logic Inspired Collaborative Art
  Nicholas Davis, Ellen Yi-Luen Do, Pramocl Gupta, Shruti Gupta (Georgia Institute of Technology)

- Artists & Designers: An Experiment in Data Visualization
  Sara Diamond (Ontario College of Art & Design University)

Session 9: Perception

- The Choreographer's Notebook – A Video Annotation System for Dancers and Choreographers
  Vikash Singh, Celine Latulipe, Erin Carroll (University of North Carolina at Charlotte),
  Danielle Lottridge (Stanford University)

- Distributed Creative Cognition in Digital Filmmaking
  Nicholas Davis, Boyang Li, Brian O’Neill, Mark Riedl, Michael Nitsche (Georgia Institute of Technology)

- Using Semantic Similarity to Predict Angle and Distance of Objects in Images
  Sterling Sonnen (Carleton University), Jonathan Gagné (University of Waterloo),
  Cesar Astudillo (Universidad de Talca), Jim Davies (Carleton University)

- Understanding Exploratory Creativity in a Visual Domain
  Kyle E. Jennings (University of California, Berkeley & University of California, Davis),
  Dean Keith Simonton (University of California, Davis), Stephen E. Palmer (University of California, Berkeley)

Session 10: Design - 2

- The HCI Researcher as Artist and Designer: Approaches to Creativity and Distance
  Viveka Weiley, Ernest Edmonds (University of Technology)
• Design and Evaluation of Creative and Emotional Motion ................................................................. 239
  Kaori Yamada, Toshiharu Taura (Kobe University),
  Yukari Nagai (Japan Advanced Institute of Science and Technology)

• Design Space Exploration in Parametric Systems: Analyzing Effects
  of Goal Specificity and Method Specificity on Design Solutions ...................................................... 249
  Naghm Shireen, Halli I. Erhan, Rodolfo Sánchez, Jelena Popovic, Robert Woodbury, Bernhard E. Riecke
  (Simon Fraser University)

• Exploring the Sensitivity to Representation of an Evolutionary Algorithm
  for the Design of Shapes ................................................................. 259
  Andrés Gómez de Silva Gaita (Instituto Tecnológico Autónomo de México)

Session 11: Creativity & Technology – 3: Control/Improvisation
• Shared Mental Models in Improvisational Theatre ................................................................. 269
  Daniel Fuller, Brian Magerko (Georgia Institute of Technology)

Session 11B: New Frontiers
• The Rise of Personal Fabrication .................................................................................. 279
  Catarina Mota (Universidade Nova de Lisboa & New York University)

• Finding the Odd One Out: A Fractal Analogical Approach .................. 289
  Keith McGreggor, Ashok Goel (Georgia Institute of Technology)

• An Agent-based Model of the Cognitive Mechanisms Underlying the Origins
  of Creative Cultural Evolution ................................................................. 299
  Liane Gabora (University of British Columbia), Maryam Saberi (Simon Fraser University)

Session 12: Social Creativity
• Social Discovery Framework: Building Capacity and Seeking Solutions ............. 307
  Ben Shneiderman (University of Maryland)

Poster Session
• Creative Ecologies in Action: Technology and the Workshop-as-artwork .................. 309
  Jamie Allen, Rachel Clarke, Areti Galani (Newcastle University), Kamilla Wajda (University of Bremen)

• Toward a Dynamic Dramaturgy: An Art of Presentation in Interactive Storytelling ...................................................... 311
  Jason B. Alonso, Angela Chang, David Robert, Cynthia Breazeal (Massachusetts Institute of Technology)

• Embroidered Confessions: An Interactive Quilt of the Secrets of Strangers .................. 313
  Julynn Benedetti (Parsons The New School for Design)

• Towards Supporting Creative Design:
  Analysis of the Use of the TRENDS System According to Designers' Expertise .................. 315
  Nathalie Bonnardel (Aix-Marseille University & University Institute of France),
  Carole Bouchard (Arts et Métiers ParisTech)

• Social User Generated Content's Effect on Creativity in Educational Games 317
  Acey Boyce, Katie Doran, Antoine Campbell, Shaun Pickford, Dustin Culler, Tiffany Barnes
  (University of North Carolina at Charlotte)

• Creativity and Conducting: Handle in the CAIRA Project ...................................................... 319
  Selmer Bringsjord, Colin Kuebler, Joshua Taylor, Griffin Milsap, Sean Austin, Jonas Braasch, Pauline Oliveros,
  Doug Van Nort, Adam Rosenkrantz, Kasia Hayden (Rensselaer Polytechnic Institute)

• Capturing 'In The Moment' Creativity Through Data Triangulation .................. 321
  Erin A. Carroll, Celine Latulipe (University of North Carolina at Charlotte)

• A Computer System Aiming to Stimulate Creativity for Narrative ............. 323
  Yun-Tai Chang, Sheng-Chih Chen, Tsai-Yen Li (National Chengchi University)

• MusEEGk: Design of a BCMI ................................................................. 325
  Yee Chieh (Denise) Chew, Eric Caspary (Georgia Institute of Technology)
- Influence of Design Tools on Conceptually Driven Processes .................................................. 327
  Amod Danile, Trudi Miller (University of Wisconsin, Stevens Point)

- Correlation between Coherent Heart Rate Variability and Divergent Thinking .......................... 329
  Gina Deiningcr, Gareth Loudon (University of Wales Institute, Cardiff)

- Phenomenologies of Practice: The Artist in Virtual Worlds .................................................... 331
  Denise Doyle (University of Wolverhampton)

- Creative Strategies in Artists’ and Engineers’ Approaches to Technology Development: First Results of a Case Study ................................................................. 333
  Jill Fantauzzacoffin, Juan D. Rogers, Jay David Bolter (Georgia Institute of Technology)

- Beyond Participation: Empowerment, Control and Ownership in Youth-Led Collaborative Design .................................................................................................................. 335
  Lalya Gaye, Atau Tanaka (Newcastle University)

- The Taste of Criticism: Enhancing Feedback for Creativity ......................................................... 337
  Georgi V. Georgiev, Yukari Nagai (Japan Advanced Institute of Science and Technology)

- Do HCI Researchers Use Computers? ......................................................................................... 339
  Gunnar Harboe (University of Zurich)

- Measuring Creative Impact with Web-Based Data ......................................................................... 343
  Richard W. Hass (University of Delaware)

- Creativity Barometer: An Approach for Continuing Micro Surveys to Explore the Dynamics of Organization’s Creativity Climates ................................................................. 345
  Angela Carell, Thomas Herrmann, Jan Nierhoff (Universitiit of Bochum)

- Improvisational Theater for Computing Scientists ....................................................................... 347
  Raquell Holmes (University of Connecticut Health Center)

- User Roles in Asynchronous Distributed Collaborative Idea Generation ..................................... 349
  Sara Jones, Ami Poulsen, Neil Maiden, Konstantinos Zachos (City University London)

- Study of Affective Communication Method in Tactile Hand Gesture Feedback .......................... 351
  He Yooung Joong, Ellen Yi-Luen Do (Georgia Institute of Technology)

- Everyday Creativity in Novice E-Textile Designs: Remixing as Interpretive Flexibility ............... 353
  Yasmin B. Kafai, Deborah A. Fields, Kristin A. Searle (University of Pennsylvania)

- Interpretation as Driver for Psychological Creativity ...................................................................... 355
  Nick Kelly (The University of Sydney), John S. Gero (George Mason University)

- Computing Indicators of Creativity .............................................................................................. 357
  Kyu Han Koh, Vicki Bennett, Alexander Repenning (University of Colorado)

- Dance in Augmented Reality: Calibration and Applications ......................................................... 359
  Michael Korostelev, Kathryn Knauth, Li Bai (Temple University)

- Collaborative Musical Improvisation in a Laptop Ensemble with LOLC ....................................... 361
  Sang Won Lee, Jason Freeman, Andrew Colella, Shannon Yao (Georgia Institute of Technology), Akito Van Troyer (Massachusetts Institute of Technology)

- A Top-Down Design Methodology Based on Causality and Chronology for Developing Assisted Story Generation Systems ................................................................. 363
  Carlos León, Pablo Gervas (Universidad Complutense de Madrid)

- LilyPond: An Online Community for Sharing E-Textile Projects ............................................... 365
  Emily Lovell, Leah Buechley (Massachusetts Institute of Technology)

- mediPuppet: An Interactive Comforting Companion for Children While Visiting a Doctor ........ 367
  Szu-Chia Lu, Andy Wu, Ellen Yi-Luen Do (Georgia Institute of Technology)

- Image Schemata in Animated Metaphors for Insight Problem Solving ........................................ 369
  Eric Luchian, Corina Sas (Lancaster University)

- Innovation Is Built on the Obscure: Innovation-Enhancing Software for Uncovering the Obscure .................................................................................................................. 371
  Tony McCaffrey (University of Massachusetts, Amherst), Lee Spector (Hampshire College)
• Scaffolding Creativity with Open-Source Hardware ................................................................. 373
  David A. Mellis, Leah Buechley (Massachusetts Institute of Technology)

• The Impact of Design Media on Cognitive Load During Architectural Ideation Process ................................................................. 375
  Ashraf Mohamed Ahmed (Laval University), Nathalie Bonnardel (Aix-Marseille University & University Institute of France), Pierre Côté (Laval University)

• Mapping Seduction: Traditional Narrative Abstractions as Parameterized Story Systems ................................................................. 377
  Janet H. Murray (Georgia Institute of Technology)

• Roles of Miniature Space in Hybrid Prototyping ................................................................. 379
  Yasuto Nakanishi (Keio University JST Presso), Koji Sekiguchi, Takuro Ohmori, Soh Kitahara, Daisuke Akatsuka (Keio University)

• Beyond Eco-feedback – Using Art and Emotional Attachment to Express Energy Consumption ................................................................. 381
  Valentina Nisi (University of Madeira), Diego Nicolletti, Raffaella Nisi (Independent artist), Nuno Jardim Nunes (University of Madeira)

• RE: Designing a Digital Sketchbook .................................................................................... 383
  Shaleph O’Neill (University of Dundee)

• Articulating Creativity in a New Domain: Expert Insights from the Field of E-Textiles ................................................................. 385
  Kylie Peppier (Indiana University), Diane Glosson (Indiana University), Yasmin Kafai, Deborah Fields, Kristin Searle (University of Pennsylvania)

• Spielraum: Play, Chance and Creativity Across Disciplines ................................................................. 387
  Diane Rosen (Columbia University)

• “I Reflect to Improve My Design” – Investigating the Role and Process of Reflection in Creative Design ................................................................. 389
  Moushumi Sharmin, Brian P. Bailey (University of Illinois at Urbana-Champaign)

• The Role of Iteration in the Design Processes of Middle School Students ................................................................. 391
  Mark Sherman, Fred Martin, Michelle Scribner-MacLean (University of Massachusetts, Lowell)

• Creative Feelings: The Effect of Mood on Creative Ideation and Evaluation ................................................................. 393
  Paul T. Sawden, Leah Dawson (University of Surrey)

• An Exploration of Creativity in School Children’s Music Composition: Study, Software and Framework ................................................................. 395
  Sylvia M. Truman (Regent’s College)

• Beyond Fixing Bugs: Case Studies of Creative Collaboration in Open Source Software Bug Fixing Processes ................................................................. 397
  Jing Wang, John M. Carroll (The Pennsylvania State University)

• Creative Storytelling Enhanced Through Social Media and Intelligent Recommendation ................................................................. 399
  Yin-Li Wong (Multimedia University), Chien-Sing Lee (National Central University)

• Creativity in Software Development in an Academic Research Lab .................................................................................... 401
  Andy Wu, Sam Mendenhall Jayraj Jog, Ali Mazalek (Georgia Institute of Technology)

• Perception, Insight, and Creativity in Paradigm, a Game of Pattern Exploration .................................................................................... 403
  William W. York, David C. Bender (Indiana University)

• Introducing Creativity Techniques and Software Apps to the Care of People with Dementia .................................................................................... 405
  Konstantinos Zachos, Neil Maiden, Kristine Karlsen, Sam Jones (City University London), Ian Turner, Malcolm Rose, Kevin Pudney (Registered Nursing Home Association), Julie MacManus (MediaTel Ltd)
• **Silent Barrage: Interactive Neurobiological Art** ................................................. 407
  Riley Zeller-Townson (Georgia Institute of Technology),
  Guy Ben-Ary, Philip Gambien (University of Western Australia), Peter Ge (Telstra Corporation),
  Stephen Bobic (Delta Airlines), Douglas Swehla, Steve M. Potter (Georgia Institute of Technology)

• **Towards a Computational Model of Character Status in Interactive Storytelling** .......... 409
  Jichen Zhu (University of Central Florida), Kenneth Ingraham (Interactor Simulation Systems, LLC),
  J. Michael Moshell (University of Central Florida), Santiago Ontañón (III-CSIC)

**Demo Session**

• **cartographs: The Trans-sensory Metaphor** ...................................................... 411
  Brian Evans (University of Alabama)

• **The Zajal Programming Language** ................................................................. 413
  Ramsey Nasser (Parsons The New School for Design)

• **RhythmSynthesis** .............................................................................................. 415
  Ryan Raffa (Parsons The New School for Design)

• **Conversing with a Computer – The Body Language of the Box** ......................... 417
  James Sheridan (Australian National University)

• **A Morphing Robotic Environment Shaped by and Shaping Kindergarteners, Reaching for the Stars** ................................................................. 419
  Anthony L. Threatt, Keith Evan Green, Jessica Merino, Ian D. Walker, Michelle V. Buckley, M. S. Ellison (Clemson University)

**Art Exhibits**

• **The Wheatstone Stereoscopic Random Line Pair Generator with Fitness Function for Non-objective Art** ................................................................. 421
  Gregory Patrick Garvey (Quinnipiac University)

• **Please Smile** ..................................................................................................... 423
  Hye Yoon Nam, Changhyun Choi, Sam Mendenhall (Georgia Institute of Technology)

• **Fitness Function: Turning the Loop Inside Out** ............................................. 425
  David Norton, Derrall Heath, Dan Ventura (Brigham Young University)

• **Creating “Maybe Make Some Change”** ........................................................... 427
  Aaron A. Reed (University of California, Santa Cruz)

• **Sympathy for Pacman** ....................................................................................... 429
  Matt Ruby (Parsons the New School for Design)

• **Open House: Interaction as Critical Reflection** .............................................. 431
  Jack Stenner (University of Florida), Patrick LeMieux (Duke University)

**Art Performances**

• **LOLC for Laptop Music Ensemble** ................................................................. 433
  Jason Freeman, Sang Won Lee, Shannon Yao, Aaron Albin (Georgia Institute of Technology)

• **A Reading of Skeleton Seas of Mare Incognitum: An Interactive Fiction Expedition in Curveship** ................................................................. 435
  D. Fox Harrell, Nick Montfort (Massachusetts Institute of Technology)

• **Moori: Interactive Audience Participatory Audio-Visual Performance** ............ 437
  Haeyoung Kim (Parsons the New School for Design)

• **SoundPainter** ................................................................................................. 439
  Celine Latulipe, David Wilson, Berto Gonzalez, Adam Harris, Erin Carroll, Sybil Huskey, Melissa Word, Robert Beasley (University of North Carolina at Charlotte), Nathan Nifong (Portland State University)

• **Pictures at an Exhibition: A Physical/Digital Puppetry Performance Piece** .......... 441
  Ali Mazalek, Michael Nitsche, Claudia Rêbola, Andy Wu, Paul Clifton, Firaz Peer, Matthew Drake (Georgia Institute of Technology)
Workshops

- **Being There, Doing It: The Challenge of Embodied Cognition for Design** ........................................443
  Jelle van Dijk (Utrecht University of Applied Sciences), Joep Frens (Eindhoven University of Technology)

- **Beyond the Binding: Exploring the Future Book** .................................................................445
  Natalie Freed, Jie Qi (Massachusetts Institute of Technology), Cristina Sylla, Pedro Branco (University of Minho)

- **Semi-Automated Creativity: Software as a Creative Collaborator** .............................................447
  Jimmy Secretan (Korrelate)

Graduate Student Symposium

- **The Intersection of Poetry and Design** .................................................................449
  Erin L. Beatty (Lancaster University)

- **Investigating the Effects of Bimanual Multitouch Interaction on Creativity** ..........................451
  Allen Bevans (Simon Fraser University Surrey)

- **Getting a Picture of Your Thoughts: Interactive Visualization for Creative Work** ...............453
  Marius Brade (Technische Universität Dresden)

- **Convergence of Self-Report and Physiological Responses for Evaluating Creativity Support Tools** ..................................................................................................................455
  Erin A. Carroll (University of North Carolina at Charlotte)

- **Gesture Modeling – Improving Spatial Recognition in Architectural Design Process** ..........457
  Chih-Pin Hsiao (Georgia Institute of Technology)

- **Haptic Interaction Study and Application to Haptic Mobile Design for Online Communication** ..........................................................................................................................459
  Hae Youn Joung (Georgia Institute of Technology)

- **Bridging the Design Time – Use Time Divide: Towards a Future of Designing in Use** .........461
  Monica G. Maceli (Drexel University)

- **Mind and Method: An Examination of Cognitive Activities in the Design Process** ...............463
  Amy Mattingly (Colorado State University)

- **Tele-Improvisation: Cross-Cultural Creativity in Networked Improvisation** .........................465
  Roger Mills (University of Technology)

- **Shifting Between Modes of Thought: A Mechanism Underlying Creative Performance?** ........467
  Andrew J. Pringle (University of Surrey)

- **Creativity Syntax: Codifying Physical Space’s Impact on Creativity in the Workplace** .......469
  Alison Williams (University of East London)

- **Crowd Creativity Through Combination** ................................................................................471
  Lixiu Yu (Stevens Institute of Technology)

Author Index .....................................................................................................................................473
