Program Committee Chair: Vesna Luzar-Stiffler

Hidding, G. J.
I. S. Research of Business Practices: Many, One or Zero Academic Disciplines? .............. 3

Holsapple, C. W.
The Knowledge of Business Intelligence ............................................................................. 9

Rindos, A.
Innovation within IBM (and WebSphere) Development through University Collaborations .......................................................... 11

Sölkner, J.
Very Many Variables and Limited Numbers of Observations; The p>>n Problem in Current Statistical Applications .................................................. 13

Valacich, J. S.
Designing Effective Web Sites: How Academic Research Influences Practice .................. 15

Special Topic/Session:
“ACADEMIC AND BUSINESS COLLABORATION: INNOVATIVE BI”
and BUSINESS INTELLIGENCE, INFORMATION SYSTEMS AND DATABASES
Program Committee Vice-Chair: Nenad Jukic

Espadinha-Cruz, P., Cabral, I., Grilo, A., Cruz-Machado, V.
Information Model for LARGE SCM Interoperable Practices .............................................. 23

Fortis, T.-F., Munteanu, V. I., Negru, V.
Steps Towards Cloud Governance. A Survey ...................................................................... 29

Habul, A., Kremic, E., Habul, M.
Petri Net Model and the E-Application Development ......................................................... 35

Hancu, L.
Acquiring Business Ecosystem’s Intelligence through Large-Scale Collaborative Systems ................................................................. 41

Kvesić, Lj., Đukić, G.
Risk Management and Business Credit Scoring .............................................................. 47
Picek, R., Grčić, M.
ERP System Database Environment Configuration Using a Web Application .................. 53

Rozehnal, P., Tvrdišova, M.
Cooperation of Academic and Commercial Sphere during the Implementation of BI by the Means of SaaS ......................................................... 59

Skersys, T., Tutkute, I., Butleris, R.
The Enrichment of BPMN Business Process Model with SBVR Business Vocabulary and Rules ................................................................. 65

Teohareva Filipova, B., Martinovska, C.
Analysing Customer Profiles Using Data Mining Techniques ........................................ 73

Tomas, B., Vuksic, B.
Peer to Peer Distributed Storage and Computing Cloud System .................................. 79

Velasco, M., Jukic, N.
Increasing Actionability of In-House Corporate Prediction Markets .............................. 85

Velić, M., Padavić, I., Lovrić, Z.
Model of the New Sales Planning Optimization and Sales Force Deployment ERP Business Intelligence Module for Direct Sales of the Products and Services with Temporal Characteristics ........................................... 91

NETWORKING, GRIDS, MIDDLEWARE AND DISTRIBUTED PLATFORMS
Program Committee Vice-Chair: George S. Nezlek

Koschel, A., Astrova, I., Schaaf, M., Ahlers, V., Gatziu Grivas, S., Kalja, A.
Asynchronous Messaging for OSGi ......................................................................... 99

Kriz, P., Maly, F.
Computer-aided OSPF Network Design Tool ........................................................... 105

Othmane, B., Hebri, R. S. A.
Cloud Computing & Multi-Agent Systems: A New Promising Approach for Distributed Data Mining. ................................................................. 111

Vilutis, G., Daugirdas, L., Kavaliūnas, R., Šutienė, K., Vaidelys, M.
Model of Load Balancing and Scheduling in Cloud Computing .................................. 117

Zahariev, P. Z., Hristov, G. V., Tsvetkova, I. D.
An Approach towards Balanced Energy Consumption in Hierarchical Cluster-based Wireless Sensor Networks ....................................................... 123

Zahariev, P. Z., Hristov, G. V., Tsvetkova, I. D
Prolonging the Lifetime of Wireless Sensor Networks by Hierarchical Organization of the System in Clusters with Unequal Sizes ........................................ 129

KNOWLEDGE MANAGEMENT AND COLLABORATION SYSTEMS
Program Committee Vice-Chair: Thurasamy Ramayah

Amaechi, A., Cousins, S.
Use Cases in Requirements Capture – Trends and Open Issues .................................. 137

Korzun, D. G., Galov, I. V., Balandin, S. I.
Proactive Personalized Mobile Multi-Blogging Service on Smart-M3 .......................... 143
Martinic, A., Fertalj, K., Kalpic, D.
Integrated Framework for Virtual Team Management ............................................. 149

Moraru, A., Mladenic, D.
A Framework for Semantic Enrichment of Sensor Data ........................................... 155

HUMAN COMPUTER INTERACTION
Program Committee Vice-Chair: Jasna Kuljis

Zhang, L., Kuljis, J., Liu, X.
Visualization of High Throughput Biological Data ................................................. 163

TECHNOLOGY ENHANCED EDUCATION
Program Committee Vice-Chair: Keiichi Kaneko

Dukic, D., Kozina, G.
The Internet as a Learning Support Tool ................................................................. 171

Dukic, G., Kozina, G.
Knowledge Management in Higher Education: ICT Equipment, Skills and
Attitudes of Croatian Polytechnic Students ............................................................. 177

Durek, V., Begiczevic Redep, N., Divjak, B.
Preconditions for the Implementation of E-learning in Primary Schools in
the Republic of Croatia - Pupils' Perspective ......................................................... 183

Fetaji, B., Ebibi, M., Fetaji, M.
Expert Based Learning (EXBL) Methodology and Performance Measurement
Quiz (PMQ) to Evaluate Learning and Develop Performance Measures ..................... 189

Golubici, K., Lastic-Lazic, J.
Analysis of On-line Survey about Need for Presence of Higher Education
Institutions on Social Networks: A Step Towards Creation of
Communication Strategy ................................................................................................ 195

Hearne, L. B.
Cardinality of Simplexes in a Delaunay Tessellation ................................................. 201

Krpan, D., Stankov, S.
Educational Data Mining for Grouping Students in E-learning System ......................... 207

Kuzic, J., Mesaric, J.
Enablers of Online Training (OT) in Australia's Recreation and
Other Services Industry ................................................................................................ 213

Marengo, A., Pagano, A., Barbone, A.
Adaptive Learning: A New Approach in Student Modeling .......................................... 217

Orehovacki, T., Radosovic, D., Konecki, M.
Acceptance of Verificator by Information Science Students ....................................... 223

Penny, K. I., Dukic, D.
E-learning Participation in Higher Education: A Study of Scottish and
Croatian Students ........................................................................................................... 231
Rizman Herga, N., Dinevski, D.
Using a Virtual Laboratory to Better Understand Chemistry – an Experimental Study on Acquiring Knowledge ................................................................. 237

Slotkiene, A.
Peculiarities of Applying the Design Method of Active Learning Object ....................... 243

Smolyaninova, O. G.
Applied Bachelor Degree Programs as Technology Enhanced Education in the Innovative Russia (Implementation Experience in Krasnoyarsk Region) .................. 249

Stojanovski, J., Pupić, A.
Quantitative Indicators of Academic Libraries’ Involvement in Educational Process .... 255

Tada, C., Wada, N., Kaneko, K.
A Learning System for Matrix Operations by Interactive Drilling .............................. 261

INFORMATION TECHNOLOGY IN BUSINESS AND GOVERNMENT
Program Committee Vice-Chair: Diana Simic

Bourret, C.

Strategies for Information Systems Integration ............................................................. 311

DATA MINING, STATISTICS AND BIOMETRICS
Program Committee Vice-Chair: Leonard B. Hearne

Ateixo, S. M., Rocha, J. L.
Generalized Models from Beta(p, 2) Densities with Strong Allee Effect: Dynamical Approach ........................................................................................................ 319
Cyganek, B.
A Framework for Data Representation, Processing, and Dimensionality Reduction with the Best-Rank Tensor Decomposition ................................................................. 325

Dali, L., Mladenic, D.
BICIKELJ: Environmental Data Mining on the Bicycle ...................................................... 331

Grd, D., Dobsa, J., Simunic-Meznaric, V., Tompic, T.
Analysis of Heavy Metals Concentration in Wastewater along Highways in Croatia .......... 337

Jakopec, T., Hoare, C., O'Riordan, A.
Web Connectivity of Higher Education Institutions within a Country:
A Comparison of Croatia and Ireland .................................................................................. 343

Koruga, P., Baca, M., Fotak, T.
Knowledge Visualization in Biometric Face Recognition on
Two-dimensional Images ................................................................................. 349

Lukić, I., Kohler, M., Slavek, N.
Improved Bisector Pruning for Uncertain Data Mining ................................................. 355

Ogul, H., Ekmecki, E.
Two-Way Collaborative Filtering on Semantically Enhanced Movie Ratings ............ 361

Papić, A., Badurina, B.
Educational Benefit Factors of Convergence of Academic Libraries’ E-services and Learning Management System .......................................................... 367

Švogor, I., Kišasondi, T.
Two Factor Authentication using EEG Augmented Passwords ........................................ 373

LANGUAGE TECHNOLOGIES
Program Committee Vice-Chair: Dunja Mladenic

Brkić, M., Bašić Mikulić, B., Matetić, M.
Can We Beat Google Translate? ...................................................................................... 381

Muhic, A., Rupnik, J., Škraba, P.
Cross-Lingual Document Similarity .............................................................................. 387

Pavlina, K.
Using Google Search Engine for Word Frequency Analysis ........................................ 393

Pohorec, S., Čeh, I., Zorman, M., Mernik, M., Kokol, P.
Natural Language Processing Resources: Using Semantic Web Technologies ........ 397

MODELING, SIMULATION AND OPTIMIZATION
Program Committee Vice-Chair: Zelimir Kurtanjek

Bojkovska, R., Mitreski, K.
Ambient Air Quality in the Republic of Macedonia from the Perspective of EU Directive .................................................................................. 405

Corbalán, L., Hasperue, W., Lanzarini, L.
GAAP: Genetic Algorithm with Auxiliary Populations Applied to Continuous Optimization Problems ...................................................................................... 411
