Virtual, Augmented and Mixed Reality

Designing and Developing Augmented and Virtual Environments

5th International Conference, VAMR 2013
Held as Part of HCI International 2013
Las Vegas, NV, USA, July 21-26, 2013
Proceedings, Part I

Springer
# Table of Contents – Part I

## Developing Augmented and Virtual Environments

Passive Viewpoints in a Collaborative Immersive Environment  
*Sarah Coburn, Lisa Rebenitsch, and Charles Owen*  
- 3

Virtual Reality Based Interactive Conceptual Simulations: Combining Post-processing and Linear Static Simulations  
*Holger Graf and André Stork*  
- 13

Enhancing Metric Perception with RGB-D Camera  
*Daiki Handa, Hirotake Ishii, and Hiroshi Shimoda*  
- 23

Painting Alive: Handheld Augmented Reality System for Large Targets  
*Jae-In Hwang, Min-Hyuk Sung, Ig-Jae Kim, Sang Chul Ahn, Hyoung-Gon Kim, and Heedong Ko*  
- 32

VWSocialLab: Prototype Virtual World (VW) Toolkit for Social and Behavioral Science Experimental Set-Up and Control  
*Lana Jaff, Austen Hayes, and Amy Ulinski Banic*  
- 39

Controlling and Filtering Information Density with Spatial Interaction Techniques via Handheld Augmented Reality  
*Jens Keil, Michael Zoellner, Timo Engelke, Folker Wientapper, and Michael Schmitt*  
- 49

Development of Multiview Image Generation Simulator for Depth Map Quantization  
*Minyoung Kim, Ki-Young Seo, Seokhwan Kim, Kyoung Shin Park, and Yongjoo Cho*  
- 58

Authoring System Using Panoramas of Real World  
*Hee Jae Kim and Jong Weon Lee*  
- 65

Integrated Platform for an Augmented Environment with Heterogeneous Multimodal Displays  
*Jaedong Lee, Sangyong Lee, and Gerard Jounghyun Kim*  
- 73

Optimal Design of a Haptic Device for a Particular Task in a Virtual Environment  
*Jose San Martin, Loic Corenthy, Luis Pastor, and Marcos Garcia*  
- 79

Real-Time Dynamic Lighting Control of an AR Model Based on a Data-Glove with Accelerometers and NI-DAQ  
*Alex Rodiera Clarens and Isidro Navarro*  
- 86
Ultra Low Cost Eye Gaze Tracking for Virtual Environments .......................... 94
Matthew Swarts and Jin Noh

Real-Time Stereo Rendering Technique for Virtual Reality System
Based on the Interactions with Human View and Hand Gestures ................. 103
Viet Tran Hoang, Anh Nguyen Hoang, and Dongho Kim

Information Management for Multiple Entities in a Remote Sensor Environment .............................................................. 111
Peter Venero, Allen Rowe, Thomas Carretta, and James Boyer

Interaction in Augmented and Virtual Environments

Tactile Apparent Motion Presented from Seat Pan Facilitates Racing Experience ................................................................. 121
Tomohiro Amemiya, Koichi Hirota, and Yasushi Ikei

Predicting Navigation Performance with Psychophysiological Responses to Threat in a Virtual Environment .................. 129
Christopher G. Courtney, Michael E. Dawson, Albert A. Rizzo, Brian J. Arizmendi, and Thomas D. Parsons

A Study of Navigation and Selection Techniques in Virtual Environments Using Microsoft Kinect® .............................................. 139
Peter Dam, Priscilla Braz, and Alberto Raposo

Legibility of Letters in Reality, 2D and 3D Projection ................................................. 149
Elisabeth Dittrich, Stefan Brandenburg, and Boris Beckmann-Dobrev

The Visual, the Auditory and the Haptic – A User Study on Combining Modalities in Virtual Worlds ........................................... 159
Julia Fröhlich and Ipke Wachsmuth

Spatial Augmented Reality on Person: Exploring the Most Personal Medium ................................................................. 169
Adrian S. Johnson and Yu Sun

Parameter Comparison of Assessing Visual Fatigue Induced by Stereoscopic Video Services ............................................. 175
Kimiko Kawashima, Jun Okamoto, Kazuo Ishikawa, and Kazuno Negishi

Human Adaptation, Plasticity and Learning for a New Sensory-Motor World in Virtual Reality ............................................. 184
Michiteru Kitazaki

An Asymmetric Bimanual Gestural Interface for Immersive Virtual Environments ......................................................... 192
Julien-Charles Lévesque, Denis Laurendeau, and Marielle Mokhtari

## Table of Contents – Part I

1. **Computational Mechanisms for Mental Models in Human-Robot Interaction** .................................................. 304  
   *Matthias Scheutz*

2. **Increasing Robot Autonomy Effectively Using the Science of Teams** ........ 313  
   *David Schuster and Florian Jentsch*

3. **Cybernetic Teams: Towards the Implementation of Team Heuristics in HRI** ....................................................... 321  
   *Travis J. Wiltshire, Dustin C. Smith, and Joseph R. Keebler*

### Presence and Tele-presence

1. **Embodiment and Embodied Cognition** .................................................. 333  
   *Mark R. Costa, Sung Yeun Kim, and Frank Biocca*

2. **DigiLog Space Generator for Tele-Collaboration in an Augmented Reality Environment** .................................................. 343  
   *Kyungwon Gil, Taejin Ha, and Woontack Woo*

3. **Onomatopoeia Expressions for Intuitive Understanding of Remote Office Situation** .................................................. 351  
   *Kyota Higa, Masumi Ishikawa, and Toshiyuki Nomura*

4. **Enhancing Social Presence in Augmented Reality-Based Telecommunication System** .................................................. 359  
   *Jea In Kim, Taejin Ha, Woontack Woo, and Chung-Kon Shi*

5. **How Fiction Informed the Development of Telepresence and Teleoperation** .................................................. 368  
   *Gordon M. Mair*

6. **High Presence Communication between the Earth and International Space Station** .................................................. 378  
   *Tetsuro Ogi, Yoshisuke Tateyama, and Yosuke Kubota*

7. **Effects of Visual Fidelity on Biometric Cue Detection in Virtual Combat Profiling Training** .................................................. 388  
   *Julie Salcedo, Crystal Maraj, Stephanie Lackey, Eric Ortiz, Irwin Hudson, and Joy Martinez*
