HEALTHINF

2013

Proceedings of the
International Conference on
Health Informatics

Barcelona, Spain

11 - 14 February, 2013

Sponsored by
INSTICC – Institute for Systems and Technologies of Information, Control and Communication

Technical Co-sponsorship by
BMES – Biomedical Engineering Society
ESEM – European Society for Engineering and Medicine

In Cooperation with
AAAI – Association for the Advancement of Artificial Intelligence

In Collaboration with
UVIC – Universitat de Vic
CONTENTS

INVITED SPEAKERS

KEYNOTE SPEAKERS

Voice as a Vehicular Tool to Organic and Neurological Disease Tracking - How Far we May Go?
Pedro Gómez Vilda

Source Separation for Biomedical Signals - Blind or not Blind?
Christian Jutten

The Present and Future of Devices for Neural Recording
Adam Kampff

All a Matter of Timing - Neuroscience and Neural Engineering of Abnormal Human Movement
Richard Reilly

Multimodal Interfaces - Capture, Tracking and Recognition
Vladimir Devyatkov

Methodologies for Systems Medicine - Time to Join the Forces of Bioengineering and Bioinformatics
Pietro Liò

PAPERS

FULL PAPERS

A New Method for Assessing the Exploratory Field of View (EFOV)
Enkelejda Tafaj, Sebastian Hempel, Martin Heister, Kathrin Aehling, Janko Dietzsch, Frank Schaeffel, Wolfgang Rosenstiel and Ulrich Schiefer

TEBRA: An Automatic Prompting System for Persons with Cognitive Disabilities in Brushing Teeth
Christian Peters, Thomas Hermann and Sven Wachsmuth

Immersive Sonification for Displaying Brain Scan Data
Agnieszka Roginska, Hariharan Mohanraj, Mark Ballora and Kent Friedman

Semantic Interoperability Solution for Multicentric Breast Cancer Trials at the Integrate EU Project
Sergio Paraiso-Medina, David Perez-Rey, Raúl Alonso-Calvo, Brecht Claerhout, Kristof de Schepper, Philippe Hennebert, Jérôme Lhaut, Jasper Van Leeuwen and Anca Bucur

Inclusion of Data from the Domestic Domain in the Process of Clinical Decision Making using the Example of a Comprehensive Ambient Energy Expenditure Determination for COPD Patients
Axel Helmer, Frerk Müller, Okko Lohmann, Andreas Thiel, Marco Eichelberg and Andreas Hein

Contextualisation of ABAC Attributes through a Generic XACML Functionality Extension Mechanism
Brecht Claerhout, Kristof De Schepper, David Pérez del Rey and Anca Bucur

Collaborative Filtering for Identifying Prescription Omissions in an ICU
Anima Singh and John Guttag

StorageBIT - A Metadata-aware, Extensible, Semantic and Hierarchical Database for Biosignals
Carlos Carreiras, Hugo Silva, André Lourenço and Ana Fred
Towards Adapting Scientific Workflow Systems to Healthcare Planning
Bruno S. C. M. Vilar, Claudia Bauzer Medeiros and André Santanche

Supporting Strategic Planning with Interactive Visualization - A Case Study of Patient Flow through a Large Hospital
Dominique Brodbeck, Markus Degen and Andreas Walter

Better Choice? Combining Speech and Touch in Multimodal Interaction for Elderly Persons
Cui Jian, Hui Shi, Nadine Sasse, Carsten Rachuy, Frank Schafmeister, Holger Schmidt and Nicole von Steinbüchel

Electronic Health Records Research in a Health Sector Environment with Multiple Provider Types
Samantha S. R. Crossfield and Susan E. Clamp

The ParoPen in Training and Clinical Use - Two Preliminary Studies in Kenya
Heather Underwood, S. Revi Sterling and John K. Bennett

Computational Modeling of Sleep Stage Dynamics using Weibull Semi-Markov Chains
Chiyung Wang, Sergio A. Alvarez, Carolina Ruiz and Majaz Moonis

SHORT PAPERS

A Roadmap to Implement a Quality Management System
Derek Flood, Fergal Mc Caffery and Valentine Casey

Doctor, Nurse or Apomediary? - What Role should Healthcare Professionals Play in Assisting Patients with Long Term Conditions to Access, and Make Sense of, Information from the Internet
Jaqui Hewitt-Taylor and Carol S. Bond

Making the Case for Business Process Re-engineering in Health Informatics - Focusing on MDRTB in South Africa
Harsha Desai and Rosemary Quilling

ePULab - An Adaptive e-Learning Tool for Pressure Ulcer Evaluation
Laura Morente and Francisco J. Veredas

Identifying Most Relevant Concepts to Describe Clinical Trial Eligibility Criteria
Krystyna Millian, Anca Bucur, Frank van Harmelen and Annette ten Teije

Policy-based Emergency Bio-data Transmission Architecture for Smart Healthcare Service
Jae-Wook Nah, Seung-Man Chun and Jong-Tae Park

A Purpose Model and Policy Enforcement Engine for Usage Control in Distributed Healthcare Information System
Annanda Thavymony Rath and Jean-Noël Colin

Managing Data and Knowledge for the InmunoFlu Research Project
G. Lopez Campos, Enrique de Andres, R. Almansa, I. Martin-Loeches, V. Lopez-Alonso, J. F. Bermejo-Martin and F. Martin-Sanchez

Health Information Systems - Investigating Greek Hospital Employees' Intention to Use Electronic Health Records
Prodromos D. Chatzoglou, Leonidas L. Fragidis, Argiro Nestoridou and Vassilios P. Aggelidis

Action Sequencing and Error Production in Stroke Patients with Apraxia - Behavioral Modeling using Bayesian Logic Networks
Charmayne Mary Lee Hughes, Moritz Tenorth, Marta Bienkiewicz and Joachim Hermsdörfer
eXtCDSS: A Framework for a Workflow-based CBR for Interventional CDSS - Application to Transcatheter Aortic Valve Implantation (TAVI)
Andres El-Fakdi, Francisco Gamero, Joaquim Meléndez and Roberto Petite

Diagnosing Chronic Obstructive Pulmonary Disease with Artificial Neural Networks using Health Expert Guidelines
Maria Angélica de Oliveira Camargo-Brunetto and André R. Gonçalves

Mobile Healthcare Systems: Generating Dynamic Smartphone Apps to Serve Multiple Medical Specializations - Assisting Monitoring Patient@Home and Health Record Follow-up
Mersini Paschou, Nikolaos Nodarakis, Athanasios Tsakalidis and Evangelos Sakkopoulos

Use of Biological Motion based Cues and Ecological Sounds in the Neurorehabilitation of Apraxia
Marta Bienkiewicz, Georg Goldenberg, José M. Cogollor, Manuel Ferre, Charmayne Hughes and Joachim Hermsdörfer

Towards Medication Management in Smart Homes
Andrej Grguric, Sasa Dešić, Miran Mošmondor and Mario Kušek

Automatic Wheeze and Respiratory Phase Detectors to Evaluate Respiratory Physiotherapy in LRTI - A Preliminary Study
João Dinis, Ana Oliveira, Cátia Pinho, Guilherme Campos, João Rodrigues and Alda Marques

Multi-algorithm Respiratory Crackle Detection
João Quintas, Guilherme Campos and Alda Marques

A Comparison of Multivariate SARIMA and SVM Models for Emergency Department Admission Prediction
Alexander Zlotnik, Juan Manuel Montero Martínez and Ascención Gallardo-Antolín

Development of a Process Assessment Model for Assessing Security of IT Networks Incorporating Medical Devices against ISO/IEC 15026-4
Anita Finnegan, Fergal Mc Caffery and Gerry Coleman

Paradigm Shifts in Health Informatics
Luca Dan Serbanati and Serban Radu

On a Formal and User-friendly Linguistic Approach to Access Control of Electronic Health Data
Andrea Margheri, Massimiliano Masi, Rosario Pugliese and Francesco Tiezzi

Towards Distributed Sociotechnical System for Reporting Critical Laboratory Results
Msury Mahunnah, Annike Koorts and Kuldar Taveter

A New Approach to the Transition from Paper to Electronic Medical Records
Ghadah Khojah

Enterprise Architecture based Assessment of Healthcare Information System Strategic Alignment
Nabil Alrajeh, Kazutaro Elhari and Bouchaib Bounabat

POSTERS

Integrating CCD Documents - A Way towards Effective Analysis of Patients' Health Documentation
Juha Puustjärvi and Leena Puustjärvi

Towards a Process Assessment Model for IEC 80001-1
Silvana Togneri MacMahon, Fergal McCaffery and Frank Keenan
Assessing Against IEC 80001-1
Silvana Togneri MacMahon, Fergal Mc Caffery, Sherman Eagles, Frank Keenan, Marion Lepmets and Alain Renault

Clustering of Gabor Atoms Describing Event-Related Potentials - Solution for ERP Detection Algorithm based on Matching Pursuit when ERP Waveform is Approximated by Two or More Gabor Atoms
Tomas Rondik and Pavel Mautner

An Efficient Application of Gesture Recognition from a 2D Camera for Rehabilitation of Patients with Impaired Dexterity
G. Ushaw, E. Ziogas, J. Eyre and G. Morgan

Leveraging an Electronic Medical Record to Improve Compliance with Pediatric Asthma Care Documentation
James A. Menke and Jeffery Hoffman

Automatic Wheeze Detection and Lung Function Evaluation - A Preliminary Study
Ana Oliveira, Cátia Pinho, João Dinis, Daniela Oliveira and Alda Marques

Evaluation of a Web-based Mentor Functional System for Employment Support Training of Nurses who Have Not been Employed
Yumiko Nakamura, Yukie Majima, Yasuko Maekawa, Kaori Fukayama and Kazumi Hoshi

Access and Usage Control Requirements for Patient Controlled Record Type of Healthcare Information System
Annanda Thavymony Rath and Jean-Noël Colin

Classifying Heart Sounds - Approaches to the PASCAL Challenge
Elisa F. Gomes, Peter J. Bentley, Miguel Coimbra, Emanuel Pereira and Yiqi Deng

Assistive Technology Divide - A Developing Country Perspective
Allen Nnanwuba Adum, Uche Patricia Ekwugha and Mercy Aguocha

TICE-Healthy - A Dynamic Extensible Personal Health Record
Pedro Catre, Alcides Marques, João Quintas and Jorge Dias

Model of Software and Hardware Infrastructure for Electrophysiology
Petr Ježek, Jan Štěbeták, Petr Bráha and Roman Mouček

Electroencephalography Data Processor - Framework for Running Signal Processing Methods
Petr Ježek and Roman Mouček

Towards a Better Understanding of EHR Systems using Architectural Views
Liliana Dobrica, Cernian Alexandra and Traian C. Ionescu

MobileBIT - A Framework for Mobile Interaction Recording and Display
Michel Cdnovas, Hugo Silva, André Lourenço and Ana Fred

Savecare - EHR HIV/AIDS System - Development of a Prototype for Data Analisis and Collection
Nuno Rocha, Carla Esteves, Emanuel Catumbela, Tiago Silva-Costa and Alberto Freitas

Managing the Process Conglomeration in Health and Social Care
Monica Winge, Paul Johannesson, Erik Perjons and Benkt Wangler

Combining Syntactic and Semantic Vector Space Models in the Health Domain by using a Clustering Ensemble
Flora Amato, Francesco Gargiulo, Antonino Mazzeo, Sara Romano and Carlo Sansone
SOA and Cloud based Architecture for Non-invasive Health Monitoring
Mohamed Adel Serhani, Elarbi Badidi and Abdelghani Benharref

Development and Implementation of an openEHR Archetype for HIV, AIDS Diagnosis
Carla Esteves, Nuno Rocha, Emanuel Catumbela, Tiago Silva-Costa, Gustavo Bacelar-Silva and Alberto Freitas

Medical and Nursing Staff Perspectives on an Electronic Health Record Implementation in Hospital Outpatient Departments - A Qualitative Study in Four English Hospital Trusts
Kate Marsden, Tony Avery, Sarah P. Slight and Nicholas Barber

Management of Multiple Data Streams in Sensor Networks for Medicine
Jan Sliwa and Emmanuel Benoist

AAL Information based Services and Care Integration
Alexandra Queirós, Sandro Carvalho, João Pavão and Nelson Pacheco da Rocha

Towards an Integrated Approach to Monitor and Analyse Health Care Data using Relational Databases
Philip Schmiegelt, Jingquan Xie, Gereon Schüller and Andreas Behrend

Investigation of the Sensorimotor Training using Wireless Sensor Networks - Analyzing Three Different Exerciser
A. Thiers, L. Meffofok, K. Orlowski, K. Schrader, B. Titze, A. l’Orteye and T. Schrader

Improving Usability of EHR Software through Design for Progressive Enhancement - With a Case Study of Anfani Open Source EHR Software
Timi Ogunjobi

AUTHOR INDEX
