Digital Literacy: Concepts, Methodologies, Tools and Applications

Information Resources Management Association
USA

Volume II
Section 4
Utilization and Application

This section discusses a variety of applications and opportunities available that can be considered by practitioners in developing viable and effective Digital Literacy programs and processes. This section includes 12 chapters that review topics from case studies in Africa to best practices in Asia and ongoing research in the United States. Further chapters discuss Digital Literacy in a variety of settings (government, research, health care, etc.). Contributions included in this section provide excellent coverage of today's IT community and how research into Digital Literacy is impacting the social fabric of our present-day global village.

Chapter 35
The Dynamics of Video Gaming: Influences Affecting Game Play and Learning.......................... 684
    Sandra Schamroth Abrams, St. John's University, USA

Chapter 36
Digital Divide and Rural Communities: Practical Solutions and Policies........................................ 698
    John Garofalakis, Research Academic Computer Technology Institute, Greece
    Andreas Koskeris, Research Academic Computer Technology Institute, Greece

Chapter 37
Digital Divide in Turkey: A General Assessment .............................................................................. 721
    Mete Yildiz, Hacettepe University, Turkey
Chapter 38
Swedish Students Online: An Inquiry into Differing Cultures on the Internet
Håkan Selg, Uppsala University, Sweden

Chapter 39
An Analysis of Prospective Teachers' Digital Citizenship Behaviour Norms
Mehmet Sincar, University of Gaziantep, Turkey

Chapter 40
Bridging the Digital Divide in Australia: The Potential Implications for the Mental Health of Young People Experiencing Marginalisation
Jane Burns, University of Melbourne, Australia
Michelle Blanchard, University of Melbourne, Australia
Atari Metcalf, Inspire Foundation, Australia

Chapter 41
The Changing World of ICT and Health: Crossing the Digital Divide
Prajesh Chhanabhai, University of Otago, New Zealand
Alec Holt, University of Otago, New Zealand

Chapter 42
Gender Digital Divide and National ICT Policies in Africa
Violet E. Ikolo, Delta State University, Nigeria

Chapter 43
M. Selcan Kaynak, Boğaziçi University, Turkey

Chapter 44
India's Dalits Search for a Democratic Opening in the Digital Divide
P. Thirumal, University of Hyderabad, India
Gary Michael Tartakov, Iowa State University, USA

Chapter 45
An Ecological Approach to Instructional Design: The Learning Synergy of Interaction and Context
Paul Resta, The University of Texas at Austin, USA
Debby Kalk, The University of Texas at Austin, USA

Chapter 46
A Case Study of Social Interaction on ANGEL and Student Authoring Skills
Ruth Xiaoqing Guo, Buffalo State College, State University of New York, USA
Section 5
Organizational and Social Implications

This section includes a wide range of research pertaining to the social and behavioral impact of Digital Literacy around the world. Chapters introducing this section critically analyze and discuss trends in Digital Literacy, such as participation, attitudes, and organizational change. Additional chapters included in this section look at ICT policies and the internal digital divide within organizations. Also investigating a concern within the field of Digital Literacy is research which discusses the effect of trust on Digital Literacy. With 12 chapters, the discussions presented in this section offer research into the integration of global Digital Literacy as well as implementation of ethical and workflow considerations for all organizations.

Chapter 47
Citizens and E-Government Service Delivery: Techniques to Increase Citizen Participation .......... 910
Jennifer A. Kurtz, Conundrum Creek Consulting, USA
Roland J. Cole, Sagamore Institute for Policy Research, USA
Isabel A. Cole, Independent Librarian, USA

Chapter 48
American Digital Divides: Generation, Education, Gender, and Ethnicity in American Digital Divides .................................................................................................................. 932
Susan Carol Losh, Florida State University, USA

Chapter 49
School in the Knowledge Society: A Local Global School ................................................................. 959
Birgitte Holm Sørensen, Aarhus University, Denmark
Karin Levinsen, Aarhus University, Denmark

Chapter 50
Caste, Class, and IT in India .................................................................................................................. 976
Elizabeth Langran, Fairfield University, USA

Chapter 51
Digital Divide and Disadvantaged Populations in E-Tourism .......................................................... 995
Billy Yfantis, University of the West of Scotland, UK
Abel Usoro, University of the West of Scotland, UK
Dimitris Tseles, Technological Education Institute of Piraeus, Greece

Chapter 52
E-Learning Challenges for Polytechnic Institutions: Bringing E-Mobility to Hands-on Learning .............................................................................................................................. 1008
Martha Burkle, SAIT Polytechnic, Canada
Chapter 53
Collaborative Information Behavior in Completely Online Groups .................................................. 1026
  Sean Goggins, Drexel University, USA
  Sanda Erdelez, University of Missouri, USA

Chapter 54
Public Participation in E-Government: Some Questions about Social Inclusion in the Singapore Model .......................................................... 1044
  Scott Baum, Griffith University, Australia
  Arun Mahizhnan, National University of Singapore, Singapore

Chapter 55
Gender Evaluation of Rural E-Governance in India: A Case Study of E-Gram Suraj (E-Rural Good Governance) Scheme .......................................................... 1059
  Saxena Anupama, Guru Ghasidas University, India

Chapter 56
ICT Use in Universities: An Educational Model for Digital Natives ............................................. 1075
  Ana Jimenez-Zarco, Universitat Oberta de Catalunya, Spain
  María Pilar Martínez-Ruiz, University of Castilla-La Mancha, Spain
  Virginia Barba-Sánchez, University of Castilla-La Mancha, Spain
  Alicia Izquierdo-Yusta, Universidad de Burgos, Spain

Chapter 57
Learning Applications for Disabled People .......................................................................................... 1090
  Athanasios Drigas, N.C.S.R. Demokritos, Greece
  Dimitris Kouremenos, N.C.S.R. Demokritos, Greece
  John Vrettaros, N.C.S.R. Demokritos, Greece

Chapter 58
Internal Digital Divide in Organizations ............................................................................................ 1104
  Kerstin Grundén, University West, Sweden

Section 6
Managerial Impact

This section presents contemporary coverage of the social implications of Digital Literacy, more specifically related to the corporate and managerial utilization of information sharing technologies and applications, and how these technologies can be extrapolated to be used in Digital Literacy. Core ideas such as service delivery, gender evaluation, public participation, and other determinants that affect the intention to adopt technological innovations in Digital Literacy are discussed. Equally as crucial, chapters within this section discuss how leaders can utilize Digital Literacy applications to get the best outcomes from their governors and their citizens.
Chapter 59
Diffusion of Technology in Higher Education Classrooms: The Case of the Laptop......................... 1119
   Jill Harrison, Brown University, USA
   John Ryan, Virginia Tech, USA

Chapter 60
Catering to the Needs of the “Digital Natives” or Educating the “Net Generation”? ..................... 1134
   Thomas Ryberg, Aalborg University, Denmark
   Lone Dirckinck-Holmfeld, Aalborg University, Denmark
   Chris Jones, The Open University, UK

Chapter 61
Innovation in Financing Mechanism of Information and Communication Technology (ICT).......................... 1152
   Kunal, Indian Institute of Technology, Kanpur, India

Chapter 62
   Helena Pereira da Silva, Federal University of Bahi, Brazil
   Lidia de Jesus Oliveira Loureiro da Silva, University of Aveir, Portugal
