# Table of Contents

Preface .......................................................................................................................... xviii  

Acknowledgment ........................................................................................................... xxiv  

## Section 1  
Classification and Clustering  

### Chapter 1  
Clustering-Based Stability and Seasonality Analysis for Optimal Inventory Prediction ........ 1  
  Manish Joshi, North Maharashtra University, India  
  Pawan Lingras, Saint Mary's University Halifax, Canada  
  Gajendra Wani, Bhusawal Arts, Science, and Commerce College, India  
  Peng Zhang, Saint Mary's University Halifax, Canada  

### Chapter 2  
Efficient Color Image Segmentation by a Parallel Optimized (ParaOptiMUSIG) Activation Function .............................................................. 19  
  Sourav De, University Institute of Technology, University of Burdwan, India  
  Siddhartha Bhattacharyya, RCC Institute of Information Technology, India  
  Susanta Chakraborty, Bengal Engineering and Science University, India  

### Chapter 3  
Learning Using Soft Computing Techniques ........................................................................ 51  
  V. Susheela Devi, Indian Institute of Science, India  

### Chapter 4  
Chaotic Map Model-Based Interference Employed in Quantum-Inspired Genetic Algorithm to Determine the Optimum Gray Level Image Thresholding ................................................... 68  
  Sandip Dey, Camellia Institute of Technology, India  
  Siddhartha Bhattacharyya, RCC Institute of Information Technology, India  
  Ujjwal Maulik, Jadavpur University, India
Chapter 5
Feature Selection Algorithms for Classification and Clustering in Bioinformatics .......................... 111
Sujata Dash, Gandhi Institute for Technology, India
Bichitrananda Patra, KMBB College of Engineering and Technology, India

Chapter 6
Soft Subspace Clustering for Cancer Microarray Data Analysis: A Survey ................................. 131
Natthakan Iam-On, Mae Fah Luang University, Thailand
Tossapon Boongoen, Royal Thai Air Force Academy, Thailand

Section 2
Foundations of Knowledge Representation

Chapter 7
Multi-Objective Genetic and Fuzzy Approaches in Rule Mining Problem of Knowledge Discovery in Databases ................................................................. 147
Harihar Kalia, Seemanta Engineering College, India
Satchidananda Dehuri, Ajou University, Korea
Ashish Ghosh, Indian Statistical Institute, India

Chapter 8
Rough Sets and Approximate Reasoning ................................................................. 180
B. K. Tripathy, VIT University, India

Chapter 9
Case-Based Reasoning and Some Typical Applications ......................................................... 229
Durga Prasad Roy, National Institute of Technology, India
Baisakhi Chakraborty, National Institute of Technology, India

Chapter 10
Hybrid Genetic Algorithm: An Optimization Tool ....................................................... 268
Kedar Nath Das, NIT Silchar, India

Chapter 11
Knowledge Representation Using Formal Concept Analysis: A study on Concept Generation .......... 306
Ch. Aswani Kumar, VIT University – Vellore-632014, India
Prem Kumar Singh, VIT University – Vellore-632014, India

Section 3
Foundations of Computational Intelligence

Chapter 12
Heterogeneous Data Structure “r-Atrain” .............................................................................. 338
Ranjit Biswas, Jamia Hamdard University, India
Chapter 13
Comparative Analysis of Hybrid Soft Set Methods ............................................................... 360
Debadutta Mohanty, Seemanta Mohavidyalaya, India

Chapter 14
Diagram Drawing Using Braille Text: A Low Cost Learning Aid for Blind People ................ 384
Anirban Mukherjee, RCC Institute of Information Technology, India
Utpal Garain, Indian Statistical Institute, India
Arindam Biswas, Bengal Engineering and Science University, India

Chapter 15
Application of Functional Approach to Lists for Development of Relational Model Databases
and Petri Net Analysis ............................................................................................................... 407
Sasanko Sekhar Gantayat, GMR Institute of Technology, India
B. K. Tripathy, VIT University, India

Chapter 16
Soft Sets: Theory and Applications........................................................................................ 445
Pinaki Majumdar, M.U.C. Women's College, India & Visva-Bharati University, India

Section 4
Information Science and Neural Network

Chapter 17
Adaptive and Neural pH Neutralization for Strong Acid-Strong Base System ...................... 496
J. Abdul Jaleel, Al Azhar College of Engineering and Technology, India
Anish Benny, Amal Jyothi College of Engineering, India
David K. Daniel, VIT University, India

Chapter 18
A Shannon-Like Solution for the Fundamental Equation of Information Science ................ 516
Alexandre de Castro, Embrapa Agricultural Informatics, Brazilian Agricultural Research
Corporation, Brazil

Compilation of References ........................................................................................................ 525
About the Contributors ............................................................................................................. 565
Index ........................................................................................................................................ 573
