2013 International Symposium on Environmental Science and Technology

(2013 ISEST)

Procedia Environmental Sciences Volume 18

Dalian, Liaoning Province, China
4-7 June 2013

Editors:

Xie Quan

ISBN: 978-1-62748-541-8
ISSN: 1878-0296
## Contents

### Editorial
- X. Quan .................................................. 1

### Environmental Toxicology

- Arsenic in Foodchain and Community Health Risk: A Study in Gangetic West Bengal

- Toxicity on Anabas Testudineus: A Case Study of Sanitary Landfill Leachate
  - S.H. Fauziah, M.N. Izzati, P. Agamuthu ......................................................................................................................... 14

- Growth Behavior and Physiological Characteristics of Chlorella Vulgaris in the Presence of Deicing Salt
  - F. Li, G. Wu, S. Hu, Z. Fan, Q. Gao ............................................................................................................................... 26

- Adsorption and Desorption Characteristics of Arsenic on Soils: Kinetics, Equilibrium, and Effect of Fe(OH)₃ Colloid, H₂SiO₃ Colloid and Phosphate
  - Q. Feng, Z. Zhang, Y. Chen, L. Liu, Z. Zhang, C. Chen ................................................................................................. 28

- DNA Methylation Changes in Response to Sulfur Dioxide Stress in Arabidopsis Plants
  - H. Yi, L. Li ......................................................................................................................................................... 37

- Effects of Sulfur Dioxide and its Derivatives on the Functions of Rat Hearts and their Mechanisms
  - Z. Zhang, J. Tian, Y. Bai, Z. Yang, H. Zhang, Z. Meng .......................................................................................... 43

- A Study on the Effects of Alexandrium Minutum and Gymnodinium on the Embryonic Development of Sporus Macrocephalus
  - L. Li, X. Shen, Y. Wang, H. Jiang, M. Jiang .............................................................................................................. 51

- Silicon Mediated the Detoxification of Cr on Pakchoi (Brassica Chinensis L.) in Cr-contaminated Soil
  - X. Ding, S. Zhang, S. Li, X. Liao, R. Wang .............................................................................................................. 58

- Spraying Silicon and/or Cerium Solns Favorably Mediated Enhancement of Cd/Pb Tolerance in Lettuce Grown in Combined Cd/Pb Contaminated Soil
  - S. Li, S. Zhang, X. Ding, X. Liao, R. Wang .............................................................................................................. 68

- Effects of the Combined Pollution of Lead and Cadmium on Soil Urease Activity and Nitrification
  - L. Yan, G. Quan, C. Ding .................................................................................................................................. 78

- Effect of Chloride Salts and Bicarbonate on Solubility of CaSO₄ in Aqueous Solutions at 37°C
  - Y. Zhang, Z. Yang, D. Guo, H. Geng, C. Dong .......................................................................................................... 84

- Effect of HCl on Spectral Properties of Sulfur Dioxide and its Derivatives Dissolved in Water
  - Z. Yang, Y. Zhang, Q. Zhang, T. Pei, Z. Meng .............................................................................................................. 92

- Single and Combined Cytotoxicity Research of Propiconazole and Nano-zinc Oxide on the NIH/3T3 Cell
  - S. Li, W. Song, M. Gao .................................................................................................................................. 100

### Environmental Chemistry

- Adsorption Behavior of Perfluorochemicals (PFCs) on Boehmite: Influence of Solution Chemistry
  - K. Shih, P. Wang ................................................................................................................................ 106

- Spectro-chemical Analysis of the Speciation of Cadmium on Montmorillonite in the Presence of Soil Microbial Biomass
  - A. Spence, C. Robinson ........................................................................................................................................ 114

- Adsorption and Removal of Acid Red 3R from Aqueous Solution Using Floculent Humic Acid Isolated from Lignite
  - D. Xu, C. Gu, X. Chen ............................................................................................................................................ 127

- Effects of Flooding and Ferrhydrite on Copper Fractionation in Paddy Soil
  - B. Liu, D. Qu, X. Chen, Q. Li, L. Peng .................................................................................................................. 135

- Influence of Cosolvents on Low Water-solubility Chemicals to Photobacterium phosphoreum in Acute Toxicity Test
  - Y. Dong, J. Wang, L. Ding, Y. Liu ......................................................................................................................... 143

- Limitation and Challenge Faced to the Researches on Environmental Risk of Nanotechnology
  - D. Yao, Z. Chen, K. Zhao, Q. Yang, W. Zhang ....................................................................................................... 149

### Environmental Monitoring and Assessment

- Indoor Radon Levels and Lung Cancer Incidence on Guam
  - G.R.W. Denton, S. Namazi .................................................................................................................................. 157

- Dispersion and Remobilisation of Heavy Metals in the River Severn System, UK
  - Y. Zhao, S.B. Marriott .................................................................................................................................. 167

- Acoustic Equipment and ROV Investigations of Mercury Diffusion in Minamata Bay, Yatsushiro Sea, Japan

- Computation of Societal Risk Abatement Cost and Long Run Marginal Financial Cost with Regard to Dioxin and Furin Emission Standards for Common Hazardous Waste Incinerator of India
  - S.D. Gouda, S.P. Kumar .................................................................................................................................. 182

- Laser Wavelength and Pressure Dependence of Laser Breakdown Time-of-flight Mass Spectrometry
  - Y. Deguchi, Z.Z. Wang, J.J. Yan, J.P. Liu .................................................................................................................. 192

Water Pollution and Water Quality Control

The Role of Ferrate(VI) in the Remediation of Emerging Micro Pollutants | J.-Q. Jiang | 418 |
**Contents**

Effects of Operation Conditions on the Performance of the ASBR Methane Fermentation of Syrup Wastewater
S.H. Kwon, K. Nakasaki .......................................................... 427

Anaerobic Acidogenesis Biodegradation of Palm Oil Mill Effluent Using Suspended Closed Anaerobic Bioreactor (SCABR) at Mesophilic Temperature
Y.-S. Wong, T.T. Teng, S.-A. Ong, M. Norhashimah, M. Rafatullah, H.-C. Lee ......................................................... 433

Start-up Operation of Anaerobic Degradation Process for Palm Oil Mill Effluent in Anaerobic Bench Scale Reactor (ABSBR)
T.T. Teng, Y.-S. Wong, S.-A. Ong, M. Norhashimah, M. Rafatullah ................................................................. 442

Time Varying Toxicity of Effluents from the Electrochemical Oxidation of Phenol
G.L. Saylor, L. Chen, M. Kupferle .................................................. 451

Influence on Sorption Property of Pb by Pracatal and Site Energy Distribution about Sediment of Yellow River
H. Shi, Y. Sun, X. Zhao, B. Qu ..................................................... 464

Sorption of Perfluorooctane Sulfonate (PFOS) on Electrospun Fiber Membranes
J. Xu, J. Liu, S. Zhang ................................................................. 472

Photocatalytic Degradation of Methyl Orange with Commercial Organic Pigment Sensitized TiO\(_2\)
X. Shang, B. Li, T. Zhang, C. Li, X. Wang ........................................ 478

Experimental Studies on Application of Potassium Ferrate for 3-methylphenol Removal from Solution in Laboratory
G. Wang, L. Peng ................................................................. 486

Ozonation and Carbon-assisted Ozonation of Methylene Blue as Model Compound: Effect of Solution pH
S. Zhang, D. Wang, S. Zhang, X. Zhang, P. Fan ............................................ 493

Disinfection of E. Coli Using Visible-light-driven Photocatalyst
Z. Fang, J. Yang, Y. Cao, L. Zhu, Q. Zhang, D. Shu, C. He ..................... 503

Photocatalysis and Rotating Dynamic Membrane Hybrid System with Fe-2lnS, Efficiently Removes 2,4,6-Tribromophenol in Water: Effect of Dynamic Membrane
G. Wang, L. Liu, F. Liu, F. Yang .................................................. 509

Degradation of Extracellular Polymeric Substances (EPS) in Anaerobic Digestion of Dewatered Sludge
X. Dai, F. Luo, L. Dai, B. Dong ..................................................... 515

A Study on the Reduction Behaviors of Cr(VI) on Fe\(_2O\_3\)/PANI
R. Li, L. Liu, F. Yang ................................................................. 522

Oleophilic Polyurethane Foams for Oil Spill Cleanup
H. Li, L. Liu, F. Yang ................................................................. 528

Mineralization of Phenol and Analysis of Bacteria and Community in Microbial Fuel Cells
L. Huang, Y. Sun, Y. Liu, N. Wang .................................................. 534

Effect of Different Plants on Azo-dye Wastewater Bio-Decolorization
X. Zhou, X. Xiang ................................................................. 540

Bi\(_2\)Ti\(_3\)O\(_9\), Synthesized by High Temperature Solid Phase Method and it’s Visible Catalytic Activity
Z. Wang, W. Ma, Y. Fang, Y. Zhang, M. Jia, R. Li, Y. Huang ..................... 547

Variation of Dissolved Oxygen in the Experiments of Occurrence & Disappearance for Microcystis Bloom
Y. Huang, M. Chen ................................................................. 559

Effect of Decaying Salts on Ion Concentrations in Urban Stormwater Runoff
Y. Zhang, T. Sun, F. Li, J. Wang, K. Oh ........................................... 567

Synthesis and Photocatalysis of AL Doped CdS Templated by Non-surfactant Hypocrellins
X. Yang, Z. Yan, L. Jiang, X. Wang, K. Zheng, Y. Wang, Q. Li, J. Wang ....... 572

A Study of the Determination of Dimensionless Number and its Influence on the Performance of a Combination Wastewater Reactor
S. Ding, L. Liu, J. Xu ................................................................. 579

Influence of pH and Dissolved Organic Matter on Photolysis of Mesityluron-Methyl
N. Song, D. Wang, Z. Shan, L. Shi .................................................. 585

Removal Characteristics of Pollutants in Airlift Intermittent Circulation Membrane Bioreactor
J. Lin, H. Guo, J. Chen, Y. Li ..................................................... 592

Trichloromethane Formation Potential in Killing Algae with Chlorine Dioxide
S. Li, D. Zhao, S. Hu, Z. Wang, D. Li, X. Yuan, B. Xie ......................... 597

Removal of Red Tide Organism by a Novel Cationic Polymeric Flocculant
Y. Pang, Y. Ding, B. Sun ............................................................. 602

Carboxylesterase from Spodoptera Litura: Immobilization and use for the Degradation of Pesticides
J. Diao, G. Zhao, Y. Li, J. Huang, Y. Sun ......................................... 610

Enhancement of Catalytic Degradation of Rhodamine B Under Sunlight with Au Loading TiO\(_2\) Nanotube Arrays
S. Sun, C. Chen, J. Sun, Q. Peng, K. Liu, K. Deng .................................. 620

Effect of Additives on Photocatalysis of Cr(VI)-Methyl Orange
Y. Wang, L. Jiang, C. Peng ............................................................. 625

Status and Development of DDNP Wastewater Treatment
J. Zhai, Y. Wang ................................................................. 632

**Soil Pollution and Remediation**

Microscopic and Macroscopic Properties of Soils Used as Means for the Interpretation of the Efficiency of Soil Remediation Technologies
C.D. Tsakiroglou, C.A. Aggelopoulos ........................................ 638

Ex Situ Soil Remediation by Cold Atmospheric Plasma Discharge
C.A. Aggelopoulos, C.D. Tsakiroglou, S. Ogner, S. Cavadas ................. 649

Immobilization of Pb and Cd in Contaminated Sediment
M. He, H. Shi, X. Zhao, Y. Yu, B. Qu ............................................. 657

Health Risk Assessment on PAHs Contaminated Site—A Case Study in a Relocated Coke and Chemical Plant in Beijing
M. Zhong, L. Jiang, X. Jia, J. Liang, T. Xia, J. Yao ................................. 666
Contents

Extraction of Heavy Metals from Water-stable Soil Aggregates Using EDTA
Z. Ding, Q. Wang, X. Hu .................................................. 679

Application of Ultrasonic and Fenton’s Reaction Process for the Treatment of Oily Sludge
J. Zhang, J. Li, R. Thring, L. Liu ........................................... 686

Waste Solid Pollution and Remediation
Bioremediation of Hydrocarbon Contaminated Soil Using Selected Organic Wastes
P. Agamuthu, Y.S. Tan, S.H. Fauziah ...................................... 694

Steady State Model of Solid-State Anaerobic Digestion of Dewatered Sludge Under Mesophilic Conditions
X. Dai, N. Duan, B. Dong, L. Dai .......................................... 703

Theoretical Calculation of Heat Transfer Coefficient When Sludge Drying in a Nara-type Paddle Dryer Using Different Heat Carriers
W. Deng, Y. Su, W. Yu ...................................................... 709

Effect of Combined Pretreatment of Waste Activated Sludge for Anaerobic Digestion Process
H. Yi, Y. Han, Y. Zhuo ..................................................... 716

Waste Disposal and Comprehensive Utilization
Synthesis and Characterization of Coal Fly Ash-based Foamed Geopolymer
S.M. Nyale, O.O. Babajide, G.D. Birch, N. Böke, L.F. Petrik .................................................. 722

Reuse of Paper Industry Wastes as Additives in Phytoremediation of Metals Polluted Substrates from the Spoil Banks of the Kremikovtsi Region, Bulgaria
V. Dzhinova, E. Velizarova ................................................. 731

Possible Recycling of Industrial Wastes and By-products in Agriculture

Spent Oil Management and its Recycling Potential in India Inventory and Issues
P.K. Selvi, M. Sharma, J.S. Kamyotra ..................................... 742

Gas-liquid Jet Pump Crystallizer in Phosphorus Recycling Technology—Neural Network Model
K. Pietrowski, A. Matynia, N. Hutnik .................................... 756

Separation of Struvite from Mineral Fertilizer Industry Wastewater
A. Matynia, B. Wierzbowska, N. Hutnik, A. Mazienczuk, A. Kozik, K. Pietrowski ........................................ 766

Combustion and Pyrolysis of Electronic Waste: Thermogravimetric Analysis and Kinetic Model
C. Quan, A. Li, N. Gao ..................................................... 776

Hexavalent Chromium Leaching Influenced Factors in the Weathering Chrome Slag
S. Liu, L. Chen, Y. Gao ................................................... 783

Effect of Crystallization Time on Behaviors of Glass-ceramic Produced from Sludge Incineration Ash
Z. Zhang, A. Li, Y. Yin, L. Zhao .......................................... 788

Untreated Chinese Ephedra Residue as Biosorbents for the Removal of Pb2+ Ions from Aqueous Solutions
N. Feng, F. Zhang ............................................................ 794

Removal of Mercury from Aqueous Solution Using Sheep Bone Charcoal
A. Dawlet, D. Talip, H.Y. Mi, MaLiKeZhaTi .................................... 800

Miscellaneous
Formation of Zero-valent Iron Nanoparticles Mediated by Amino Acids
K. Haba, J. Straska, M. Krizek, T. Tucek, L. Mischula, R. Zboril .................................................. 809

Biophysical Linkage with Simulation Modelling for Sustainable Land Use and Agricultural Productivity: A Case Study in Western Uttar Pradesh, India

The Use of Urban Wastewater for the Colorado River Delta Restoration

Introduction of Marine Macroalgae in the Port of Ensenada, Baja California, Mexico: Biological Contamination
L.E. Aguilar-Rosas, F. Núñez-Cebredo, C.V. Aguilar-Rosas ...................................................... 836

Catalytic Gasification of Algae Mannochlorella sp. in Sub/Supercritical Water
Q. Guan, C. Wei, P. Ning, S. Tian, J. Gu ...................................... 844

Research on the Contribution of Structure Adjustment on SO2 Emissions Reduction—Case Study Shijingshan District, Beijing
L. Wu, W. Zeng .............................................................. 849

Evaluation of Several DNA Extraction Methods for Obtaining Total Community DNA from Anaerobic Digestion Sludge
B. Dong, J. Yi, L. Dai, X. Dai .............................................. 856

An Analysis of Decoupling Relationships of Water Uses and Economic Development in the Two Provinces of Yunnan and Guizhou During the First Ten Years of Implementing the Great Western Development Strategy
H. Zhu, W. Li, J. Yu, W. Sun, X. Yao .................................... 864

Development and Utilization of Integral Thin Film Capacitors
F. Wang, Y. Wang ............................................................ 871

Extraction of PCDD/Fs and PCBs in Fish using SpeedExtractor E-914
R. Hartmann ................................................................. 875

Occurrence and Aquatic Ecological Risk Assessment of Typical Organic Pollutants in Water of Yangtze River Estuary
X. Du, X. Li, T. Luo, N. Matsuur, K. Kadokami, J. Chen .............................................................. 882

Adsorption of Methyl Orange Dye onto Multiwalled Carbon Nanotubes
D. Zhao, W. Zhang, C. Chen, X. Wang .................................... 890
