Proceedings, Symposium in Applied Coastal Geomorphology to Honor Miles O. Hayes

Guest Editors: Timothy Kana, Jacqueline Michel, and George Voulgaris

Journal of Coastal Research
Special Issue #69

An International Forum for the Littoral Sciences
Charles W. Finkl
Editor-in-Chief
CONTENTS

Introduction and Tribute ......................................................... Timothy Kana, Jacqueline Michel, and George Voulgaris iv
A New Look at Barrier-Inlet Morphodynamics ......................................................... Richard A. Davis, Jr. 1
Origin, Evolution, and Classification of Tidal Inlets ......................................................... Miles O. Hayes and Duncan M. FitzGerald 14
Unusual Barrier/Inlet Behaviour Associated with Active Coastal Progradation and River-Dominated Estuaries ......................................................... Andrew Green, J. Andrew G. Cooper, and Alain LeVieux 35
The Effect of Beach Rock Formation on the Morphological Evolution of a Beach: The Case Study of an Eastern Mediterranean Beach: Ammoudara, Greece ......................................................... G. Alexandrakis, G. Ghionis, and S. Poulos 47

The Physical Condition of South Carolina Beaches 1980–2010 ......................................................... Timothy W. Kana, Steven B. Traynum, Dan Gaudiano, Haiqing L. Kaczkowski, and Trey Hair 61
Evaluation of Beach Nourishment Evolution Models Using Data from Two South Carolina, USA Beaches: Folly Beach and Hunting Island ......................................................... Harry D. Weathers and George Voulgaris 84
The Environmental Sensitivity Index and Oil and Hazardous Materials Impact Assessments: Linking Preship Contingency Planning and Ecological Risk Assessment ......................................................... Geoffrey I. Scott, Michael H. Fulton, Marie E. DeLorenzo, Edward F. Wirth, Peter B. Key, Paul L. Pennington, David M. Kennedy, Dwayne Porter, G. Tom Chandler, C. Hart Scott, and John L. Ferry 100
Geomorphologic Factors Related to the Persistence of Subsurface Oil from the Exxon Valdez Oil Spill ......................................................... Zachary Nixon, Jacqueline Michel, Miles O. Hayes, Gail V. Irvine, and Jeffrey Short 115
Quantitatively Modeling Alluvial Strata for Reservoir Development with Examples from Krasnoleninskoie Field, Russia ......................................................... Robert S. Tye 129
Heavy-Mineral Mining in the Atlantic Coastal Plain and What Deposit Locations Tell Us about Ancient Shorelines ......................................................... Fredric L. Pirkle, William A. Pirkle, and Fredrick J. Rich 154
