COST Action TU0905
Mid-term Conference on Structural Glass

Editors

Jan Belis
Laboratory for Research on Structural Models, Department of Structural Engineering, Ghent University, Ghent, Belgium

Christian Louter
Steel Structures Laboratory, School of Architecture, Civil and Environmental Engineering, EPFL, École Polytechnique Fédérale de Lausanne, Lausanne, Switzerland

Danijel Mocibob
RI ISA, Permasteelisa Group, Rijeka, Croatia

</table>
FACADES

Assessment of Eurocode 8 limited damage criteria for frame glazed stick walls
B. Bozso & L.G. Vigh

Development of interactive double skin glass facade with external structural envelope
M. Bugarin & Z. Domazet

Evaluation of damping properties of structural glass panes under impact loading
A. Ramos, F. Pelayo, M.J. Lamela, A. Fernandez Canteli, M.C. Huerta & A. Pacios

Structural design of blast enhanced cable net facades
F. Wellershoff, G. Lori, M. Zobec & K. Osterland

Architectural geometry of timber-glass buildings and its impact on energy flows through building skin
V. Zegarac Leskovar, M. Premrov & K. Vidovic

Innovative design tool to optimize blast enhanced facade systems
M. Zobec, G. Lori, T. Ngo, C. Nguyen & R. Lumantarna

GLASS FAILURE ANALYSIS

The breakage of glass -- Thermal shock and nickel sulfide inclusion
E. Mognato & A. Barbieri

Post-fracture behaviour of laminated plates after human impact test
A. Pacios-Alvarez, M.C. Huerta, J. Sanchez & A. Calle

Usage of elastic strain energy for the higher residual strength
S. Reich, B. Weller, N. Dietrich & S. Pfefferkorn

GLASS STRENGTH & AGEING OF GLASS

General technical approval for curved annealed and curved tempered glass in Germany
P. Hof & M. Oechsner

Improving with FEM the glass fracture stress obtained from coaxial double ring test
M.C. Huerta, A. Pacios, A. German, M.J. Lamela, A. Fernandez Canteli & F. Capel

Ongoing model development analyzing glass fracture
G. Molnar, I. Bojtar & J.H. Nielsen

Structural glass lifetime prediction model based on environmental variables
C. Ronchetti & G. Salerno

Characterization of the scratch visibility of annealed and tempered soda-lime-silicate glass
S. Schula & J. Schneider

Fracture strength of glass, engineering testing methods and estimation of characteristic values
S. Schula, J. Schneider, M. Vandebroek & J. Belis

Ratio of mirror zone depth to flaw depth after failure of glass beams
M. Vandebroek, J. Belis, C. Louter & G. Molnar
HYBRID GLASS COMPONENTS

Simulation of earthquake load imposed on timber-glass composite shear wall panel
D. Antolinc, R. Žarnić, M. Stepenc, V. Rajčić, L. Krstevska & L. Tashkov

Experimental study of timber-glass composite wall elements
B. Ber, M. Premrov, A. Strukelj & M. Kuhta

Experimental analysis on steel reinforced glass beams at different temperatures
P.J.S. Cruz, I. Valente, P.L. Carvalho, B. Marinho & S. Ribeiro

Load bearing timber glass composites – A WoodWisdom-Net project for innovative building system
J. Eriksson, M. Ludvigsson, M. Dorn, B. Enquist & E. Serrano

Post-tensioned structural glass beams – Experimental investigations
C. Louter, A. Pérez, T. Jordan & J.-P. Lebet

Post-cracking behaviour of reinforced glass beams
E. Speranzini & S. Agnetti

INSULATING GLASS UNITS

Thermal-mechanical behaviour of insulating glass units
N. Penkova, V. Iliev & J. Neugebauer

LAMINATED GLASS & INTERLAYER PROPERTIES

Experimental determination and numerical description of viscoelastic properties of glass interlayer
S. Briccoli Bati, M. Fagone & G. Ranocchiae

Meeting the challenges of the modern world with liquid composite laminated glass
C. Davis

Experimental assessment of polymers in glass constructions
D. Delincé & J. Belis

Strain rate effects on bending capacity of laminated glass panes
K. Éreth, L.G. Vigh & L. Horváth

Characterization of interlayer properties – TG06 Status Report
G.F. Savineau, C. Butchart, D. Delincé & R. Speelman

TEC facade – Glass as functional facade element
A. Tomasi, D. Mocibob, B. van de Linde, F. Wellershoff & K. Koldtoft

A new experimental test set-up for investigating impact resistance of laminated glass
S. Van Dam, J. Pelfrene, W. Van Paepegem, J. Degrieck, D. Lecompte & J. Vantomme

Snow load collectives and design shear moduli for laminated safety glass
F. Wellershoff & M. Pohl

A material law for shear load and creep behaviour of glass laminates
W. Wittwer & T. Schwarz
NUMERICAL MODELING & EXPERIMENTAL VALIDATION

Analysis of the debonding risks and the failure of laminated glass thanks to a coupled analytical-numerical investigation
F. Bernard, B. Krour, S. Benyoucef & B. Fahsi

Numerical analyses of the effect of SG-interlayer shear stiffness on the structural performance of reinforced glass beams
C. Louter & J.H. Nielsen

Numerical simulation of elastic, fracture and post-failure response of monolithic and laminated glass under impact loading
J. Pelfrene, S. Van Dam, W. Van Paepegem & J. Degrieck

Experimental and numerical investigations of metal-to-glass embedded connections with thin stainless steel plate
M. Santarsiero, C. Louter, P.L. Carvalho & P.J.S. Cruz

Numerical analysis of hot deformed corrugated glass plates
E.H.J. ten Brincke

Numerical investigation of insulation glass units with undercut point fittings
M. Tibolt, O. Hechler & C. Odenbreit

STABILITY OF GLASS COMPONENTS

Buckling analysis of monolithic and laminated glass elements eccentrically compressed
C. Bedon & C. Amadio

Analytical, numerical and experimental prediction of lateral torsional buckling of PVB and SG laminated glass beams
C. Bedon & J. Belis

STRUCTURAL GLASS CONNECTIONS

From design to reality – fabricating and assembling two pleated double-curved glass shell structures
R. Brugues, S. Pierce, S. Plana, C. Teixidor & J. Torres

Connecting through reinforcement – Experimental analysis of the temperature dependent behaviour
P.L. Carvalho, P.J.S. Cruz & F.A. Veer

Determination of the material properties of an epoxy and MS-polymer for adhesive point-fixings
J. Dispersyn, J. Belis, V. Dias & C. Odenbreit

Stainless steel fabric as a connection system for bomb blast glass
J. Neugebauer

Numerical investigation of a novel connection in tempered glass using holes drilled after tempering
J.H. Nielsen
Parametric numerical investigation of adhesive laminated point connections

M. Santarsiero, C. Louter & J.-P. Lebet

STRUCTURAL GLASS DESIGN PHILOSOPHY

Philosophical questions of designing glass – The need for a structural glass standard
R. R. Green

Glass structures – Learning from experts
D. Honfi & M. Overend

Reevaluating architecture with glass
S. Lefaki

Structural glass – Review of design philosophies & analysis methods
P. Lenk & N. Jendželovský

Design and construction of the feature glass stair for the new Mariinsky Theatre, St Petersburg, Russia
G. Vasilchenko-Malishev & P. Wilson

THERMAL FRACTURE OF GLASS

Thermal breakage of glass
M. Vandebroek, J. Belis & C. Louter

THERMAL TEMPERING OF GLASS

Heat transfer phenomena and theories governing residual stress formation in glass tempering
R. Karvinen
