2012 IEEE 10th International Conference on Emerging eLearning Technologies and Applications

(ICETA 2012)

Stara Lesna, Slovakia
8 – 9 November 2012
# Table of Contents

**Chairmen Welcome**

**Committees**

**Support Patients through E-Services Solutions** ................................................................. 15  
F. Babič, J. Wagner and G. Tutoky  
*Technical University of Košice, Košice, Slovakia*

**Computer as a Tool for Changing Attitudes Towards Mathematics** ........................................... 21  
K. Bachratá* and H. Bachratý**  
*Department of InfoComm Networks, University of Žilina, Slovakia,  
**Department of Software Technologies, University of Žilina, Slovakia*

**Forensic Analysis of Compromised Systems** ........................................................................... 27  
A. Baláž, R. Hlinka  
*Department of Computers and Informatics, Technical University of Košice, Košice, Slovakia*

**Motivation - Networking - Cooperation The Cisco Networking Academy Program from Hungary** ................................................................. 31  
Peter Beleznay*, Tamás Bertalan**, Ákos Dávid***  
*Fast Lane Ltd., Budapest, Hungary,  
**Observans Ltd, Budapest, Hungary,  
***Pannon University, ITC, Veszprém, Hungary*

**HP Programs for Education and Innovation Support** ................................................................. 37  
Igor Belousov  
*HP Programs for Education and Innovation Support*

**Interactive eBook as a Supporting Tool for Education Process** ............................................... 39  
M. Biňas, P. Štancel, M. Novák and M. Michalko  
*Technical University of Košice/Department of Computers and Informatics, Košice, Slovakia*

**Management of the Quality of Teaching at Universities – a Course for Teachers**  
*at the Technical University of Košice developed within the Operational Programme “Education”* ........................................................................................................... 45  
Michal Blaško, Pavel Raschman  
*Technical University of Košice, Slovakia*

**“The School as a base of life” with digital technologies. Without digital technologies**  
**“The School without life”** ........................................................................................................ 49  
B. Brestenská  
*Comenius University/The Faculty of Natural Sciences, Bratislava, Slovakia*

**Mobile Learning: New forms of education** ............................................................................... 51  
P. Campanella  
*Department of Computer Science University of Bari “Aldo Moro”*

**Implementation of LogicSim in LMS Moodle** ........................................................................... 57  
Martin Magdin, Martin Cápay, and Martin Halmček  
*Department of Informatics, Faculty of Natural Sciences, Constantine the Philosopher University in Nitra, Slovakia*

**Successful model of learning system in a multinational corporation** ......................................... 61  
Carmen Čapkovič  
*IBM, Global Business Services Learning & Knowledge Centre*
Interaction Support in Presentation System. P. Čičák, M. Dúcky, K. Jelemenská
Institute of Computer Systems and Networks, Faculty of Informatics and Information Technologies;
Slovak University of Technology in Bratislava, Slovakia

Advanced solution for delivering educational multimedia content based on content management system. D. Cymbalák, F. Jakab and M. Michaiko
Technical University of Košice, Košice, Slovakia

Arithmetic-logic unit of multicore chip for image processing. L. Vokorokos*, E. Dankova*, M. Chovanec**
* Department of computers and informatics, Technical University, Košice, Slovakia,
** Institute of computer technology, Technical University of Košice, Slovakia

Building Network Appliances with NanoBSD Operating System on Single Board Computers. Ivan Dohnáč
Faculty of Electrical Engineering, University of Žilina, Žilina, Slovak Republic

Change of Paradigm for Development of Software Support for eLearning. Matilda Drozdová, Michal Mokryš, Martin Kardoš, Zuzana Kurílová, Jozef Papán
University of Žilina, FRI, Žilina, Slovakia

Modern and interactive education at Pavol Jozef Šafárik University in Košice Activities of the Centre for innovative learning. E. Durňáč, K. Kimaková**, L. Romanová*, J. Sekerák* and D. Šveda***
* PF UPJŠ in Košice/Centre for lifelong learning, Košice, Slovakia,
** PF UPJŠ in Košice/Institute of biology and ecology, Košice, Slovakia,
*** PF UPJŠ in Košice/Institute of mathematics, Košice, Slovakia

Technical University of Košice, Faculty of Electrical Engineering and Informatics, Košice, Slovakia

How Information Technology Helps to Mitigate Difficulties Occurred in Teaching Intercultural Groups. Krisztina Erdélyi
Óbuda University/John von Neumann Faculty of Information Technology, Budapest, Hungary

Tool for Desktop Sharing and Remote Teaching – ForceB. Martin Prokeš, Radoslav Fasuga
Katedra informatiky, Fakulta Elektrotechniky a Informatiky, VŠB Technická Univerzita Ostrava, Ostrava–Poruba

Virtual laboratory environment based on Dynamips platform. Peter Fecíťák, Katarína Kleinová
Technical University of Košice/Department of Computers and Informatics,
Faculty of Electrical Engineering and Informatics, Košice, Slovakia

* Technical University of Košice / Dept. of Electrical Engineering and Mechatronics, Košice, Slovak Republic,
** SIEMENS s.r.o., Industry Sector, Business Unit Metal Technologies, Košice, Slovak Republic

Possibilities to Solve Some of the Slovak Higher Education Problems Using Information Technologies. Ján Genči
Department of Computers and Informatics Technical University of Košice
Discover Learning in Later Life in Europe ................................................................. 121
Anna Grabowska
PRO-MED sp. z o.o., Gdańsk, Poland

Blended Learning in Arithmetic Teaching .............................................................. 127
P. Hic
Trnava University, Faculty of Education, Trnava, Slovak Republic

Optical Infrastructure for Schools in Slovakia – History of Development ............... 131
Pavol Horváth
Slovak Academic Network Association

Software Testing in Introductory Programming Courses ....................................... 133
R. Horváth
Faculty of Education of Trnava university in Trnava, Trnava, Slovakia

The potential implementation of 3D technology in science education .................... 135
M. Hostovecký*, J. Štubňa**, J. Stankovský***
*Faculty of Education at Trnava University/Department of Mathematics and Computer Science, Trnava, Slovakia,
**Faculty of Natural Sciences at Constantine the Philosopher University/Institute of Gemmology, Nitra, Slovakia

Development of digital literacy in technical subjects at primary schools ................ 139
M. Hostovecký*, J. Štubňa**
*Faculty of Education at Trnava University/Department of Mathematics and Computer Science, Trnava, Slovakia,
**Faculty of Natural Sciences at Constantine the Philosopher University/Institute of Gemmology, Nitra, Slovakia

Dynamic study support with connected external systems ...................................... 143
J. Hrbacek, M. Kucera
Masaryk University, Faculty of education/Department of Technical Education and Information Science, Brno, Czech Republic

Supporting new control paradigm by new technologies ....................................... 149
M. Huba, P. Tapak, P. Bistak
URPI FEI, Slovak University of Technology in Bratislava, Slovakia

The Development of the Slovak System of Higher Education: From 1990 to Foreseeable Future .............................................................. 157
J. Hvorecký
Vysoká škola manažmentu/City University of Seattle, Bratislava, Slovakia

Networking Academy - Innovation in Education ..................................................... 163
K. Kleinová*, P. Fecilák*, F. Jakab**
*Technical University of Košice / Košice Slovakia,
**Cisco Systems Slovakia / Bratislava, Slovakia

Enabling Long Distance Education with Realtime Video ...................................... 167
J. Janitor*, P. Fecilák*, F. Jakab**,***
*Computer Networks Laboratory, Technical University of Košice;
**Cisco Systems Slovakia

Integration of ICT and Unconventional Teaching Approaches into the Digital Systems Design Education towards its Efficiency Enhancement .............................. 173
Katarina Jelemenská
Institute of Computer Systems and Networks, Faculty of Informatics and Information Technologies, Slovak University of Technology in Bratislava, Slovakia

The On-line Support for Mathematics Teaching based on Hejný Pedagogical Approach .... 179
Dagmar Motovská*, Peter Borovanský** and Barbora Kamrlová*
*Department of Algebra, Geometry and Mathematics Education,
**Department of Applied Informatics, Faculty of Mathematics, Physics and Informatics, Comenius University, Bratislava, Slovakia
The role of ICT in university – business knowledge transfer ............................................................ 183
P. Kess
University of Oulu / Department of Industrial Engineering and Management,
Oulu, Finland

Using of video technology for organizing e-learning ........................................................................ 189
S. S. Khapaeva
Sholokhov Moscow State University for the Humanities Institute
for Informatization of Education, Moscow, Russia Federation

Scientific Literacy for the Information Society ................................................................................. 193
M. Kireš*, D. Šveda**
*Institute of Physics, Faculty of Science, University of P.J. Šafárik, Košice, Slovakia,
**Institute of Mathematics, Faculty of Science, University of P.J. Šafárik, Košice, Slovakia

Course web site as an integrated solution for e-learning, collaboration
and publicly available knowledge base ............................................................................................ 197
P. Koncz, A. Lukáčová, J. Paralič
Technical University of Kosice/Faculty of Electrical Engineering and Informatics/
Department of Cybernetics and Artificial Intelligence, Košice, Slovakia

Collaborative Tools for Efficient Instructor Cooperation .................................................................. 203
P. Kortiš* and K. Grondzák**
* Department of Telecommunications and Multimedia, Faculty of Electrical
Engineering, University of Zilina, Zilina, Slovak Republic,
** Department of Informatics, Faculty of Management Science and Informatics,
University of Zilina, Zilina, Slovak Republic

HBB Platform for E-learning Improvement ....................................................................................... 207
Tomas Kovacik, Roman Bronis and Ivan Kotuliak
Faculty of Informatics and Information Technologies Slovak University of Technology in Bratislava,
Bratislava, Slovakia

Electronic Communications Competence Centre and the Development of Standardization ........... 213
C. Francisci*, M. Kováčik**, V. Murín***, and J. Tuška****
* Vyskumný ústav spojov /Standardization department, Banská Bystrica, Slovakia,
** Vyskumný ústav spojov /Telecommunications equipment department, Banská Bystrica, Slovakia,
*** Vyskumný ústav spojov /Telecommunications and posts division, Banská Bystrica, Slovakia,
**** Vyskumný ústav spojov / Telecommunications networks and services department,
Banská Bystrica, Slovakia

The development of study results when implementing e-learning .................................................. 219
K. Kovařová*, M. Navrátilová*, L. Kučírková**
* The Czech University of Life Sciences Prague / Department of Trade and Accounting,
Prague, The Czech Republic,
** The Czech University of Life Sciences Prague / Department of Languages, Prague,
The Czech Republic

eSkills IT Fitness Test 2012 in Slovakia .............................................................................................. 223
Zuzana Kubinčová *, Martin Homola*, Pavol Kubinec**, Mário Varga***, Andrea Hruščeká*,
Andrej Blaňo*, František Jakab****, and Beáta Brestenská*****
*Comenius University, Faculty of Mathematics, Physics and Informatics, Bratislava, Slovakia,
**The First Independent Secondary Grammar School, Bratislava, Slovakia,
***MICROCOMP - Computersystém s r.o., Bratislava, Slovakia,
****Cisco Systems Slovakia, Bratislava, Slovakia / Technical University in Košice,
Faculty of Electrical Engineering and Informatics, Košice, Slovakia,
*****Comenius University, Faculty of Natural Sciences, Slovakia

Modeling Parallel Web Browsing Behavior for Web-based Educational Systems ....................... 229
Martin Labaj and Mária Bieliková
Slovak University of Technology in Bratislava, Faculty of Informatics and Information Technologies,
Bratislava, Slovakia
Enriching traditional education by evaluation driven tool for mLearning .......................... 235
J. Lang, P. Palat
Institute of Informatics and Software Engineering Faculty of Informatics
and Information Technologies Slovak University of Technology, Bratislava, Slovakia

Towards the robotic teleoperation systems in education ...................................................... 241
Martin Pala, Daniel Lorencik and Peter Sincak
Technical University of Kosice, Slovakia, Dept. of cybernetics and artificial intelligence

Application of modern technical tools for sound visualization in the teaching process .......... 247
Ervin Lumnitzer, Marcel Behun, Monika Bilcová, Zuzana Farkasovská
Technical University of Kosice, Slovak Republic

ICT in Changes of Learning Theories .................................................................................. 253
E. Mechlova*, M. Malcik**
* University of Ostrava/Department of Physics, Ostrava, Czech Republic,
** University of Ostrava/Department of Pedagogy and, Ostrava, Czech Republic

Adaptive E-learning – a Tool to Overcome Disadvantages of E-learning ......................... 263
Zuzana Melicheriková, Alena Bušiková
School of Management, Bratislava, Slovakia

Teaching with heart in digispace ......................................................................................... 267
Dušan Meško
Jessenius School of Medicine, Comenius University, Martin, Slovakia

Access to CNL Video server educational content using mobile device ............................. 269
M. Michalko, F. Ceperko, D. Cymbalák and M. Biňas
Computer Networks Laboratory, Technical University of Košice, Slovakia

School that has a vision ........................................................................................................ 275
V. Mitický
Tatranská akadémia, Poprad

Student’s Progress Tracking on Programming Assignments ................................................ 279
M. Novák, M. Biňas, M. Michalko and F. Jakab
Department of Computers and Informatics, Technical University of Košice, Slovakia

Do Not Hesitate to Go Deep: Enhancing the Networking Academy Experience by Being Bold .......................................................... 283
P. Paluch, M. Kubina, P. Segeč, J. Uramová
University of Žilina, Faculty of Management Science and Informatics, Žilina, Slovakia

Support for Management of Programming Assignments – Automated Grading .............. 285
M. Paralič and J. Martončík
Department of Computers and Informatics, Technical University of Košice, Slovakia

SLA meter – the Evaluator of Network Traffic Parameters .................................................. 291
Adrián Pekár, Peter Flečiak, Miroslav Michalko, Juraj Giertl and Martin Révés
Technical University of Košice, Faculty of Electrical Engineering and Informatics,
Department of Computers and Informatics, Letná 9, 042 00 Košice, Slovak Republic

Open Education .................................................................................................................... 297
K. Pisutova
Comenius University, Bratislava, Slovakia, ** Empire State College, Saratoga Springs, NY, USA

Efficiency of Blended Learning in Teaching Logic, Sets and Binary Relations .................. 301
M. Pokorný
Trnava University, Faculty of Education, Trnava, Slovak Republic

Certified non-academic study with Cisco Learning Partner ................................................ 307
Petra Pribelová
ALEF Distribution SK, s.r.o./Training center, Bratislava, Slovakia
E-learning versus face-to-face learning in project oriented education
K. Pribilová, M. Mišút
Faculty of Education at Trnava University/Department of Mathematics and Computer Science, Trnava, Slovakia

Course Content of Computer Security for Nonprofessionals
I. Pšenáková*, J. Genčí**, T. Szabó*, and H. Telepovská**
* Constantine the Philosopher University/Institute for Teacher Training, Nitra, Slovakia,
** Technical University of Košice/Faculty of Electrical Engineering and Informatics, Košice, Slovakia

Study Program using Cisco Networking Academy Curriculum in Transport and Telecommunication Institute: Analysis of Work Accomplished and New Challenges
Jelena Revzina
Transport and Telecommunication Institute/Department of Telecommunications, Riga, Latvia

Cloud Computing in Education
Imre J. Rudas
Obuda University, Budapest, Hungary

Will Windows change the shape of the industry and the education, again? How?
Roman Russev
Microsoft Slovakia

Intelligent Methodologies and Technologies for e-Learning
Abdel-Badeeh M. Salem
Computer Science Department, Faculty of Computer & Information Sciences, Ain Shams University, Abbassia, Cairo, Egypt

ViRo – the Online Support Tool for IP Network Oriented Courses
J. Uramová, M. Kubina, P. Segeč, P. Palúch
University of Žilina, Faculty of Management Science and Informatics, Žilina, Slovakia

Data Collection and Processing for Mentor Teachers
Istvan Simonics
Obuda University Trefort Agoston Centre for Engineering Education, Budapest, Hungary

Virtual Reality and its Technologies in Education – Our Experiences
B. Sobota, F. Hrozek, Š. Korečko, P. Ivančák, M. Varga and Z. Dudláková
Dept. of Computers and Informatics, Faculty of Electrical Engineering and Informatics, Technical University of Košice, Košice, Slovakia

Internet Economy – Unique opportunity for Slovakia
Ondrej Sočuvič
Google Slovakia

From Bologna to Stara Lesná
M. Šorm
IS4U, s.r.o., Brno, Czech Republic

Quo Vadis, e-learning?
L’ Stuchliková and J. Benkovská
Slovak University of Technology, Faculty of Electrical Engineering and Information Technology, Institute of Electronics and Photonics, Bratislava, Slovakia

First outcomes of Designing the future classroom
*elfa s.r.o., Košice, Slovakia,
** TUKE/Cisco Systems Slovakia
Implementation the Assessment Rubrics to Evaluate the Outcomes of PBL and ABL Process ................................................................. 377
K. Szarka* and B. Brestenská**
* Stredná priemyselná škola – Ipari Szakközépiskola, Petőfiho 2, 945 01 Komárno, Slovakia,
** Comenius University, The Faculty of Natural Sciences, Mlynská dolina Ch-2, 842 15 Bratislava,
Slovakia

Improvement of Academic and Research Standards of Higher Engineering Education in Light of Bologna Process ........................................................................ 381
L. Szentirmai and L. Radács
University of Miskolc, Department of Electrical and Electronic Engineering,
Miskolc, Hungary

Architecture of Multi-Agent System .................................................................................. 387
M. Tomášek
Technical University of Košice, Košice, Slovakia

An E-Commerce Applications Based on the Multi-Agent System ........................................... 391
M. Tomášek and J. Trelová
Technical University of Košice, Košice, Slovakia

Innovative education with e-learning support in European project ........................................ 395
M. Vozár, P. Kuna
Constantine the Philosopher University/Department of Informatics, Nitra, Slovakia
