Using Technology Tools to Innovate Assessment, Reporting, and Teaching Practices in Engineering Education

Firoz Alam
RMIT University, Australia
# Table of Contents

Preface ............................................................................................................. xviii
Acknowledgment ............................................................................................. xxv

## Section 1
Curriculum Issues within the E-Learning Environment

### Chapter 1
Implementing Educational Technologies: Capacity Building ........................................... 1

*Greg Plumb, RMIT University, Australia*

### Chapter 2
Teaching of Fluid Mechanics in Engineering Course: A Student-Centered Blended Learning Approach................................................................. 12

*Ataur Rahman, University of Western Sydney, Australia*

*Md Al-Amin, Monash University, Australia*

### Chapter 3
Blending Conventional Methods with Emerging Flight Simulation Technology as Tools for Effective Teaching and Learning Experiences in Aerospace Engineering ................................................................. 21

*Noor A. Ahmed, University of New South Wales, Australia*

### Chapter 4
Enhancement of Student Learning for Effective Capstone Project Outcomes .................. 40

*Aaron S. Blicblau, Swinburne University of Technology, Australia*

*Jamal Naser, Swinburne University of Technology, Australia*

### Chapter 5
Module-Based Teaching of Mechanical Design ................................................................ 60

*Alokesh Pramanik, Curtin University, Australia*

*M. Nazrul Islam, Curtin University, Australia*
Chapter 6
Using Real World Applications as Technological Tools in Engineering Education ............................ 69
Sidney S. H. Ho, Hong Kong Institute of Vocational Education, China

Chapter 7
Undergraduate and Postgraduate Education in Renewable Energy ......................................................... 85
Richard Corkish, University of New South Wales, Australia

Chapter 8
Control Systems: The Overarching Discipline ......................................................................................... 96
Roger La Brooy, RMIT University, Australia

Chapter 9
Automotive Engineering Education at the National University of Singapore ............................................ 108
Shirish P. Patil, The National University of Singapore, Singapore

Chapter 10
Online Postgraduate Program Development .............................................................................................. 118
Johh P. T. Mo, RMIT University, Australia

Section 2
Discipline-Specific Electronic and Online Tools for Learning

Chapter 11
Innovative Teaching Practice and Assessment with Technology Applications in International Biomedical Engineering Education .............................................................................................................. 132
Jaakko Malmivuo, Aalto University, Finland
Asta Kybartaitė, Lithuanian University of Health Sciences, Lithuania

Chapter 12
The Tablet PC: A Complete Teaching Studio ............................................................................................. 149
Matthew Joordens, Deakin University, Australia

Chapter 13
Strategies to Remove Barriers and Increase Motivation to Use the Tablet PC in Formative Assessment ................................................................. 164
Antony Dekkers, Central Queensland University, Australia
Prue Howard, Central Queensland University, Australia
Nadine Adams, Central Queensland University, Australia
Fae Martin, Central Queensland University, Australia
Chapter 14
Use of the Finite Element Method and Computational Fluid Dynamics in Motion Analysis of Complex Shapes, With Examples from Sports

Takeshi Asai, Tsukuba University, Japan

Chapter 15
The BIM Concept: The Role of the Engineering School

Alcínia Zita Sampaio, Technical University of Lisbon, Portugal

Section 3
Using Technology Tools to Enhance Student Learning and Student Engagement

Chapter 16
eLearning: Challenges and Opportunities

Firoz Alam, RMIT University, Australia
Roger G. Hadgraft, RMIT University, Australia
Quamrul Alam, Monash University, Australia

Chapter 17
Understanding Students’ Use of Online Learning Tools through Online Learning Readiness Assessment

Kriengsak Panuwatwanich, Griffith University, Australia
Rodney A. Stewart, Griffith University, Australia

Chapter 18
Evolving Use of Educational Technologies: Enhancing Lectures

Eliathamby Ambikairajah, University of New South Wales, Australia
Vidhyasaharan Sethu, University of New South Wales, Australia
Ray Eaton, University of New South Wales, Australia
Ming Sheng, University of New South Wales, Australia

Chapter 19
Assessment Practices using Online Tools in Undergraduate Programs

Alexandra Kootsookos, RMIT University, Australia

Chapter 20
The Importance of a Collaboratory: Using Collaboration Software to Engage and Assess Students in Computer-Screen-Based Tutorials

George P. Banky, Swinburne University of Technology, Australia
