SPE 166505 Defining Three Regions Of Hydraulic Fracture Connectivity, In Unconventional Reservoirs, Help Designing Completions With Improved Long-term Productivity ...................................... 5049
R. Suarez-Rivera, L.A. Behrmann, S.J. Green, J. Burghardt, S. Stanchits, E. Edelman, A. Surdi

SPE 166506 Selecting the Optimal Spacing Pilot Design for Unconventional Resource Optimization ........................................ 5063
E.M. Coopersmith, M.K. Burkholder, J. Schulze, S. Monette

SPE 166507 Prototype Test of an All-Electric Intelligent Completion System for Extreme Reservoir Contact (ERC) Wells ................................................................. 5076
B. Bouldin, C. Verma, I. Bellaci, M. Black, S.J. Dyer, J. Algeroy, T. Oliveira, Y. Pan

SPE 166508 Completion Optimization of Unconventional Shales: A Niobrara Case Study ................................................ 5089
C. Liu, T. Bratton, Y. Park

SPE 166509 Integrated Approach To Simulation Of Near-Wellbore and Wellbore Cleanup ............................................... 5100

SPE 166510 Assimilation of Microseismic Data into Coupled Flow and Geomechanical Reservoir Models with Ensemble Kalman Filter ........................................ 5128
M. Tarrahi, B. Jafarpour, A. Ghassemi

SPE 166511 Targeted Annular Hydraulic Fracturing Using CT-Enabled Frac Sleeves: A Case History From Montana’s Bakken Formation ........................................ 5144
L. Castro, C.C. Johnson, C.W. Thacker

SPE 166512 Joint Inversion of Production and Temperature Data for Identification of Permeability Distribution with Depth in Deep Reservoirs ................................................ 5154
Z. Zhang, B. Jafarpour

SPE 166513 Let’s Pump Up New Orleans - Using Oil Industry Techniques and Expertise to Solve an Environmental Problem caused by Geologic Conditions ............................... 5165
C.E. Allan, D.E. Arnold

SPE 166516 Technology as an Enabler .................................................. 5176
W. Williams, M.K. Hauser, D. Woodall, I. Ershaghi

SPE 166517 Fully Mechanical 3D Rotary Steering Technology Provides Economical Alternative To Conventional Rotary Steerable Tools ..................................................... 5185
D. Harrington, S.S. Mercer

SPE 166521 The use of a Probabilistic Methodology to Generate and Manage the Production Forecast for Accomplishing Company’s level Goals ........................................ 5192
R. Castano, C. Medina

SPE 166524 A Novel Mechanistic Approach for Modeling Low Salinity Water Injection ................................................ 5206
A. Kazemi Nia Korani, K. Sepahnoori, M. Delshad

SPE 166525 Sodium Free Processing of Oil Sands Ores: Toward Total Water Management in Mining Operations ............................... 5224
A. Mahmoudkhani, T. Fenderson, P. Watson, M. Nair, Y. Wu

SPE 166526 Modelling of Cyclic Hysterisis of Three-Phase Relative Permeability during Water-Altering-Gas (WAG) Injection .................................................. 5232
H. Shahverdi, M. Sohrabi

SPE 166527 Improved Reservoir Management Strategy via Limited Entry Multi-stage Completion Boosts Production from Massive Carbonate Reservoirs in Saudi Arabia ........................................... 5254
Z. Rahim, H.A. Al-anazi, M. Ahmed, A. Al-Kanaan, W. El-Mafy

SPE 166528 Application and Benefits of Degradable Technology in Open-hole Fracturing ................................................ 5261
I. Aviles, M. Moya, T. Reyes Hernandez, T. Dume, M. Dardis, J.D. Bahlly

SPE 166529 Successful Implementation of Engineered Fiber Based Loss Circulation Control Solution to Effectively Cure Losses While Drilling, Cementing and Work Over Operations in Oman ........................................ 5270

SPE 166531 Case History: Sand Handling and Hydrocarbon Containment During a Coiled Tubing Cleanout of a Live Deepwater Well ................................................ 5281
T. Persuaz, E. Gagen, R. Reynolds, L. Cunningham

SPE 166532 Integrated Solution for Emulsion Diagnosis in Horizontal Production Logs ................................................ 5294
H. Hajj Ahmad, N.M. Musharfi, Z. Zouali, M.A. Bawazir, H. Al-Shabibi

SPE 166533 Lower Tertiary - A Comprehensive Well Completion Design Methodology to Overcome Reservoir Challenges .................................................. 5309

SPE 167617-STU Analyze of Hydrate Formation with the use of Neural Network Technology ................................................ 5342
Alexander Kolchin
