Risk Management in Video Game Development Projects ................................................................. 4325
  Marc Schmlaz, Aimee Finn, and Hazel Taylor

IT Governance and Its Mechanisms—Chair: Wim Van Grembergen

Introduction to IT Governance and Its Mechanisms Minitrack .................................................... 4335
  Wim Van Grembergen

A Nomological Network Analysis of Research on Information Security Management Systems .................................................. 4336
  Fernando Parra and Laura L. Hall

Does Inclusion of CIO in Top Management Team Impact Firm Performance? Evidence from a Long-Term Event Analysis ..................................................................................................................... 4346
  Qing Hu, Ali Alper Yayla, and Yu Lei
E-Business IT Governance Revisited: An Attempt towards Outlining a Novel Bi-directional Business/IT Alignment in COBIT5 ................................................................. 4356
Yannick Bartens, Frederik Schulte, and Stefan Voß

Evolvement of Business-IT Alignment over Time: A Situated Change Perspective ........................................ 4366
Heinz-Theo Wagner

IT Governance Effectiveness and Its Antecedents: An Empirical Examination in Brazilian Firms ..................... 4376
Guilherme Lerch Lunardi, Antonio Carlos G. Maçada, and João Luiz Becker

IT Governance Patterns in the Portuguese Financial Industry ................................................................. 4386
Ruben Pereira, Rafael Almeida, and Miguel Mira da Silva

Middle Management and Information Systems Strategy: The Role of Awareness and Involvement .................... 4396
Dorothy E. Leidner and Michael Milovich Jr.

On the Need for Evolvability Assessment in Value Management ............................................................. 4406
Kim Maes, Peter De Bruyn, Gilles Oorts, and Philip Huysmans

On the Relevance of the Modularity Concept for Understanding Outsourcing Risk Factors ............................... 4416
Philip Huysmans, Peter De Bruyn, Shazdada Benazeer, Alain De Beuckelaer, Steven De Haes, and Jan Verelst

The Board and CIO: The IT Alignment Challenge .......................................................................................... 4426
Jacques Coertze and Rossouw Von Solms

The Influence of Culture on IT Governance: A Literature Review ............................................................... 4436
Parisa Aasi, Lazar Rusu, and Shengnan Han

Towards an Application Life-Cycle Approach for Selective Outsourcing ...................................................... 4446
Saskia Zelt, Alexander Andreas Neff, Jochen Wulf, Falk Uebenickel, and Walter Brenner

Organizational and Social Dynamics in Information Technology—Co-Chairs: Michael Knight, Dawn Medlin, and Dragos Vieru

Introduction to Organizational and Social Dynamics in Information Technology Minitrack ............................. 4456
Michael B. Knight and B. Dawn Medlin

A Nexus Analysis of Participation in Building an Information Infrastructure for the “Future School” ............... 4457
Halkola Eija, Iivari Netta, Kinnula Marianne, Kuure Leena, and Molin-Juustila Tonja

Accelerating Economic Inequality and the Moral Responsibilities of Corporate-Employed Technologists ............ 4467
Alan E. Singer

How Coaligned Stakeholder Support Enhances End User’s Perceived ERP Performance? The Pivotal Role of ERP Identity .............................................................................. 4474
Jeffrey C.F. Tai, Kai Wang, and Hsin-Lu Chang

Managing the Achievement of Strategic Organizational Goals through Projects: Understanding the Role of Management Practices ......................................................... 4484
Kunal Mohan and Frederik Ahlemann

When Too Much Usage is Too Much: Exploring the Process of IT Addiction ................................................. 4494
Isaac Vaghefi and Liette Lapointe
Young People and Smart Phones: An Empirical Study on Information Security ................................................................. 4504

Balbir S. Barn, Ravinder Barn, and Jo-Pei Tan

Tensions, Emergence, and Generative Mechanisms in Complex Sociotechnical Systems—Co-Chairs: Sirkka Jarvenpaa and Holly Lanham

Introduction to Tensions, Emergence, and Generative Mechanisms in Complex Sociotechnical Systems Minitrack ................................................................. 4515

Sirkka L. Jarvenpaa and Holly J. Lanham

Digital Visions vs. Product Practices: Understanding Tensions in Incumbent Manufacturing Firms ................................................................. 4516

Asif Akram, Magnus Bergquist, and Maria Åkesson

How Did It Happen? A Memetic Theory of Interorganizational Information Systems Emergence and Evolution ................................................................. 4526

Thayanan Phuaphanthong and Tung Bui

Learning at the Boundaries: An Action Agenda for Business Analysts ................................................................. 4536

Rajiv Vashist, Judith McKay, and Peter Marshall

Reimagining the Higher Education Experience as a Socially-Enabled Complex Adaptive System ................................................................. 4546

Munir Mandviwalla and David Schuff

Solving the Puzzle of Crowdfunding: Where Technology Affordances and Institutional Entrepreneurship Collide ................................................................. 4556

Claire Ingram, Robin Teigland, and Emmanuelle Vaast

Theorizing Modes of Open Source Software Development ................................................................. 4568

A. Lindberg, Xuan Xiao, and Kalle Lyytinen

Trust in Network Organizations—A Literature Review on Emergent and Evolving Behavior in Network Organizations ................................................................. 4578

Marcel Morisse, Bettina Horlach, Wiebke Kappenberg, Jurate Petrikina, Florian Robel, and Florian Steffens

Theories in IS Research—Co-Chairs: Scott Schneberger, Dirk Hovorka, and Kai Larsen

Introduction to Theories in IS Research Minitrack ................................................................. 4588

Scott L. Schneberger, Dirk S. Hovorka, and Kai R. Larsen

Applications of the Viable Systems Model in IS Research—A Comprehensive Overview and Analysis ................................................................. 4589

Janek Richter and Dirk Basten

Crafting Theory to Satisfy the Requirements of Explanation ................................................................. 4599

Allen S. Lee, Robert (Bob) Briggs, and Alan R. Dennis

Arash Saghafi and Yair Wand

Identifying IT User Mindsets: Acceptance, Resistance and Ambivalence ................................................................. 4619

Liette Lapointe and Anne Beaudry
The Intellectual Core of the IS Field: A Systematic Exploration of Theories in Our Top Journals .............................................4629  
Daniel S. Soper, Ofir Turel, and Nitza Geri

Theory Identity: A Machine-Learning Approach .................................................................4639
Kai R. Larsen, Dirk Hovorka, Jevin West, James Birt, James R. Pfaff, Trevor W. Chambers, 
Zehula R. Sampedro, Nick Zager, and Bruce Vanstone

Topics in Organizational Systems and Technology—Co-Chairs: Mark Frolick, Kelly Rainer, and Jim Ryan
Introduction to Topics in Organizational Systems and Technology Minitrack .................................4649
Mark N. Frolick, Kelly Rainer, and Jim Ryan
Antecedents of IT Outsourcing—A Longitudinal Approach .........................................................4650
Ralph Pfaller, Marina Fiedler, Arnold Picot, and Anja Tuschke
Does IT Reputation Matter? Role of Senior Executives ............................................................4660
Jee-Hae Lim, Theophanis C. Stratopoulos, and Tony Wirjanto
One Country, Three Types of CIOs: The Emergence of Technology Executives in China ...................4670
Mark W.S. Chun, Kai Sung, Charla Griffy-Brown, and Harvey Koeppel
Paving the Way to a Productive RFID System: A Novel Action Research Based Study from Fashion Retail .........................................................4680
Thomas Buckel and Frédéric Thiesse
Perceptual Differences and Conflict in Packaged Software Acquisition: Results from a Multi-perspective Framing Analysis .........................................................4690
Stefan Harnisch, Jasmin Kaiser, and Peter Buxmann
Process-Driven Data Quality Management—An Application of the Combined Conceptual Life Cycle Model ........................................................................4700
Paul Glowalla, Patryk Balazy, Dirk Basten, and Ali Sunyaev

Software Technology Track—Co-Chairs: Gul Agha and Rick Kazman
Introduction to Software Technology Track ..................................................................................4710
Rick Kazman and Gul Agha

Agile and Lean Organizations: Management, Metrics, and Products—Chair: Dan Greening
Introduction to Agile and Lean Organizations: Management, Metrics, and Products Minitrack .............4711
Daniel R. Greening
State-of-the-Art: A Systematic Literature Review on Agile Information Systems Development ...............4712
Markus Hummel
Teams That Finish Early Accelerate Faster: A Pattern Language for High Performing Scrum Teams ................................................................................4722
Jeff Sutherland, Neil Harrison, and Joel Riddle
The Influence of Organizational Factors on Inter-team Knowledge Sharing Effectiveness in Agile Environments ........................................................................4729
Viviane Santos, Alfredo Goldman, Hernesto Filho, Débora Martins, and Mariela Cortés
Theme-Based Product Release Planning: An Analytical Approach ..................................................4739
Nishant Agarwal, Reza Karimpour, and Guenther Ruhe

xlv
Toward an Understanding of Preference for Agile Software Development Methods from a Personality Theory Perspective

David Bishop and Amit Deokar

Agile and Lean Software Engineering—Co-Chairs: Ashley Aitken and Jay Trimble

Introduction to Agile and Lean Software Engineering Minitrack

Ashley Aitken and Jay Trimble

Building Evolvable Software Using Normalized Systems Theory: A Case Study

Gilles Oorts, Philip Huysmans, Peter De Bruyn, Herwig Mannaert, Jan Verelst, and Arco Oost

Pilar Rodriguez, Jari Partanen, Pasi Kuvaja, and Markku Oivo

Coordination in Large-Scale Agile Software Development: A Multiteam Systems Perspective

Alexander Scheerer, Tobias Hildenbrand, and Thomas Kude

Dual Application Model for Agile Software Engineering

Ashley Aitken

Exploring the Relationship between Organizational Adoption Motives and the Tailoring of Agile Methods

John F. Tripp and Deborah J. Armstrong

Guiding Flexibility Investment in Agile Architecting

Carlos Fernández-Sánchez, Jessica Díaz, Jennifer Pérez, and Juan Garbajosa

Towards the Model Driven Organization

Tony Clark, Vinay Kulkarni, Balbir Barn, Robert France, Ulrich Frank, and Dan Turk

Digital Forensics: Education, Research, and Practice—Co-Chairs: Kara Nance and Matt Bishop

Introduction to Digital Forensics: Education, Research, and Practice Minitrack

Kara Nance and Matt Bishop

Android Anti-forensics: Modifying CyanogenMod

Karl-Johan Karlsson and William Bradley Glisson

iOS Anti-forensics: How Can We Securely Conceal, Delete and Insert Data?

Christian D’Orazio, Aswami Ariffin, and Kim-Kwang Raymond Choo

Teaching Digital Forensics Techniques within Linux Environments

Lucas McDaniel and Brian Hay

Enlightened Cybersecurity and Software Assurance—Co-Chairs: Luanne Burns Goldrich, Richard Linger, and Richard George

Introduction to Enlightened Cybersecurity and Software Assurance Minitrack

Luanne Burns Goldrich, Richard Linger, and Richard George

A Study of Ten Popular Android Mobile VoIP Applications: Are the Communications Encrypted?

Abdullah Azfar, Kim-Kwang Raymond Choo, and Lin Liu
Evolving Secure Information Systems through Attack Simulation ........................................... 4868
Elmar Kiesling, Andreas Ekelhart, Bernhard Grill, Christian Stummer, and Christine Strauss

Patcher: An Online Service for Detecting, Viewing and Patching Web Application Vulnerabilities ................................................................. 4878
Fang Yu and Yi-Yang Tung

REQcollect: Requirements Collection, Project Matching and Technology Transition .................. 4887
Luannne Goldrich, Stephen Hamer, Martha McNeil, Thomas Longstaff, Robert Gatlin, and Emmanuel Bello-Ogunu

Signature Based Intrusion Detection for Zero-Day Attacks: (Not) A Closed Chapter? .................. 4895
Hannes Holm

Towards a Holistic Understanding of Security Process: Formal Controls and Informal Relationships ................................................................. 4905
Max Soyref and Philip Seltsikas

Utilizing Attack Graphs to Measure the Efficacy of Security Frameworks across Multiple Applications ................................................................. 4915
Francis J. Manning III and Frank J. Mitropoulos

IS Education and Training—Co-Chairs: Dan Port and Gary Kessler

Introduction to IS Education and Training Minitrack ............................................................... 4921
Daniel Port and Gary C. Kessler

(Un)Bundled Services: A Stakeholder’s Framework for Understanding the Impact of MOOC-Like, Third-Party Online Courses ........................................ 4922
James H. Melton, Robert E. Miller, and Anil Kumar

A Proposed Curriculum in Cybersecurity Education Targeting Homeland Security Students ........ 4932
Gary C. Kessler and James D. Ramsay

Developing Faculty Expertise in Information Assurance through Case Studies and Hands-On Experiences ................................................................. 4938
Xiaohong Yuan, Kenneth Williams, Huiming Yu, Bei-Tseng Chu, Audrey Rorrer, Li Yang, Kathy Winters, and Joseph Kizza

Exploring the Feasibility of Conducting Software Training in a Peer Learning Context with the Aid of Student-Produced Screencasts ............................................ 4946
Tai-Yin Chi, Lorne Olfman, and Frank Lin

Investigating User Acceptance of a Screenshot-Based Interaction System in the Context of Advanced Computer Software Learning .................................. 4956
Travis K. Huang

Learning and Law Enforcement: How Community-Based Teaching Facilitates Improved Information Systems ............................................................... 4966
Kaethe Bect, Scott Beamon, Edward Delp, and David Ebert

Teaching Theories Underlying Agile Methods in a Systems Development Course .................. 4970
Adarsh Kumar Kakar

The Hidden Job Requirements for a Software Engineer .......................................................... 4979
Cristina Marinovici, Harold Kirkham, and Kevin Glass

xlvii
Secure Cloud Computing—Co-Chairs: Bill Yeager and Jean-Henry Morin

Introduction to Secure Cloud Computing Minitrack ................................................................. 4985
William J. Yeager and Jean-Henry Morin

A Policy-Based Security Framework for Storage and Computation on Enterprise Data in the Cloud ................................................................. 4986
Sourya Joyee De and Asim K. Pal

A Taxonomic Perspective on Certification Schemes: Development of a Taxonomy for Cloud Service Certification Criteria ........................................ 4998
Stephan Schneider, Jens Lansing, Fangjian Gao, and Ali Sunyaev

Analysis of Monolithic and Microkernel Architectures: Towards Secure Hypervisor Design ................................................................. 5008
Jordan Shropshire

Cloud Computing Data Protection—A Literature Review and Analysis ....................................................... 5018
Florian Pfarr, Thomas Buckel, and Axel Winkelmann

Securing KVM-Based Cloud Systems via Virtualization Introspection ....................................................... 5028
Sheng-Wei Lee and Fang Yu

SLA Information Management through Dependency Digraphs: The Case of Cloud Data Services ................................................................. 5038
Katerina Stamou, Verena Kantere, Jean-Henry Morin, and Michael Georgiou

Software Product Lines: Engineering, Services, and Management—Co-Chairs: Timo Käkölä and Andrea Leitner

Introduction to Software Product Lines: Engineering, Services, and Management Minitrack ................................................................. 5048
Timo Käkölä and Andrea Leitner

Analyzing Software Product Innovation Assessment by Using a Systematic Literature Review ................................................................. 5049
Agustin Yagiie, Juan Garbajosa, Jennifer Pérez, and Jessica Díaz

Which Factors Affect Software-as-a-Service Selection the Most? A Study from the Customer’s and the Vendor’s Perspective ................................................................. 5059
Ariana Polyviou, Nancy Pouloudi, and Stamatia Rizou

Software Security for Mobile Platforms—Co-Chairs: Daniel Plakosh and Robert Seacord

Introduction to Software Security for Mobile Platforms Minitrack ................................................................. 5069
Daniel Plakosh and Robert Seacord

Enhancing User Privacy on Android Mobile Devices via Permissions Removal ................................................................. 5070
Quang Do, Ben Martini, and Kim-Kwang Raymond Choo

Malware Dynamic Recompilation ................................................................. 5080
Sébastien Josse

Pointer Ownership Model ................................................................. 5090
David Svoboda and Lutz Wragge
