Applied Science, Materials Science and Information Technologies in Industry

PART 1

Selected, peer reviewed papers from the 2014 International Conference on Advances in Materials Science and Information Technologies in Industry (AMSITI 2014), January 11-12, 2014, Xi’an, China

Edited by

D.L. Liu, X.B. Zhu, K.L. Xu and D.M. Fang
Table of Contents

Preface v

PART I

Chapter 1: Materials Science and Processing Technologies

Experimental Study of Temper Embrittlement of 2.25Cr-1Mo-0.25V Steel Weld Metals
L.P. Song and R.L. Sun 3

The XRD Patterns Analysis of Diamond/Porous Composite Membrane Deposited by Bias Voltage Assisted HFCVD
C.C. Zhao, X.W. Li, X.M. Chen and M. Chang 7

Influence on the Microstructure of Pinion Steel with Different Cooling Rates after Normalizing
Z.J. He, J. Li and J.X. Liu 12

Study on Beam-End Carrying Capacity of Waste Fiber Recycled Concrete Beam-Column Joints
J.H. Zhou, S.J. Bai and C. Bian 16

The Comparison of Self-Compacting Rock-Filled Concrete with Large-Size Natural and Recycled Aggregate
H.C. Wang, X.H. Wang and X.H. An 20

Study on Properties of Al2O3-CaO-SiO2-CaF2-MgO Slag System
J.M. Guo, K.W. Peng, L. Yi, H.L. Ma and R. Chen 24

Helicon Plasma Discharge for Processing Wall Material
T.Y. Huang, C.G. Jin, M.Z. Wu, L.J. Zhuge and X.M. Wu 28

W-Doped TiO2 Preparation and Photocatalytic Degradation of Guaiacol
Z.C. Xie, Y. Wang, P. Wang and L. Zhang 33

The Application of PE/Thermochromic Composite Film to Sliced Fresh Pork Tenderloin
H.G. Zhang, F.X. Yang and Y. Lu 37

Study on the Fluidic Parameters of Supercritical CO2
X.Y. Gao, G.Q. Liu and W.P. Chang 41

Study on the Stability of a New Propellant
F. Cao, L. Meng, Z.T. An and W.P. Chang 45

The Effect of Dy-Additive on Phase Transformation and Magnetic Properties of Fe-Pt Alloy Films
G. Cheng, Y.Z. Sun, K. Pan, L. Li, L. Ma and Z.F. Gu 48

Influence of Oxygen Plasma Modification Carbon Fiber on the Hydrothermal Property of CF/PES-C Composite
X. Cui, G.L. Liu, C. Lu and S. Wang 51

Measurement of Growth Kinetics of Deeply Undercooled Zr50Cu50 Melt by Electromagnetic Levitation Technique
L.X. Li, J.L. Zhao and X.M. Guan 56

Experimental Research on Performance of Road Base with Cement Stabilized Iron Tailings Sand
H.B. Li 60

A New Approach to Fluorescent Chemosensor of Cu2+ Ion
X.J. Hu, X.Y. Hu and Z. Zhang 65

</table>
A Novel Method for Preparing Biomimetic Oleophobic Surface on X70 Pipeline Steel
H. Li and S.R. Yu .......................................................... 165

Experimental Studies on the Influence of Gradation of Recycled Coarse Aggregates to the
Strength of Self-Compacting Concrete
H.Q. Liu, Y.L. Liu and L. Gao ............................................. 169

Effect of K2Cr2O7 on Anti-Biofouling Properties of MAO Coating on Titanium Alloy Surface
Q. Yao, S.R. Yu and H.C. Chu ............................................. 173

Liquid Corrosion Property of Al-12Si-10Cu Energy Storage Alloy
X.H. Zhang and S.R. Yu .................................................. 177

In Situ Adjustment in Photoelectric Function from the Novel Reactive Polymer Containing
Phenanthrenequinone Group
X.J. Zhang, Y. Feng, L.L. Ma and Z.M. Wang .................................................. 181

Properties of Heterojunction Solar Cells Based on Organic Phosphorescent Material: PPQF
J.Y. Wang, J.P. Du, X.J. Zhang and Z.M. Wang .................................................. 185

Corrosion Behavior of Duplex Stainless Steels (2205) in Seawater in the Presence of
Deep Sea Bacteria
J.G. Odhiambo, L. Zhang, T. Liu, L.H. Dong and Y.S. Yin ............................................. 189

Preparation and Characterization of Starch Acetate/Polyvinyl Alcohol Foams
X.Z. Mo, J.B. Jiang, X.M. Huang, F.N. Yu, J.Y. Wu and S.F. Huang ............................................. 193

Bimetallic Gold-Palladium Supported on 5A Zeolite and their Catalytic Activity for Vinyl
Acetate Synthesis
X.Z. Mo, H.L. Hu, D.F. Tan and T. Guo .................................................. 197

Research on Low Velocity Impact Damage of Laminated Composite
S.C. Long, Z.L. Li, G. Kuang, Y.B. He and X.H. Yao .................................................. 201

The Effects of High Temperature Deformation on Bainite Transformation
G. Xu, T. Xiong, Y.L. Zhang, M.X. Zhou and Y. Zhang .................................................. 206

Pseudo-Dynamic Test Analysis of Plane Steel Frame with Semi-Rigid Connection
X.W. Wang and C.J. Hu .................................................. 210

Preparation and Properties of Anaerobic Adhesive Containing 2,3-Glycidyloxypropyl-POSS-
Acrylate/Epoxy Acrylate

Studied for Mechanism of that Abrasive Water Jet Cutting Metal Materials
Z.L. Zou, X. Duan and C.W. Guo .................................................. 218

Magnetization and Hole Doping Effects in Double Perovskite Compound Sr3FeMoO6
Q. Zhang .......................................................... 223

The Conjecture of Obtain CsHgO* Fragments by Cycloheptanone Ion Excited State
H.B. Chen, Y. Zhu and J. Wu .................................................. 227

Finite Element Modal Analysis of Station of the Main Building Steel Structure Concrete
Batch Plant
X.X. Zhou, X.L. Lei and D.M. Han .................................................. 231

Prediction of Impact Damage of Composite Laminates Using a Mixed Damage Model
S.Y. Zhao and P. Xue .................................................. 235

Modelling and Measurements of Ultrasonic Fields in Composites
H.B. Wang and C.G. Xu .................................................. 238

Research on the Numerical Simulation of Cooling Process for Plastic Profile in Calibrator
L. Duan and Y. Zhang .................................................. 242

Synthesis of the Carboxyl and Pyridine Functional Ionic Liquids
Y. Xiong and M. Yang .................................................. 246

Synthesis and Characterization of a Novel Waterborne Polyurethane Modified by Tung Oil
Optimization of the Metal Finger of a Silicon Concentrator Solar Cell
S.S. Lou, P.D. Han, P. Liang, Y.P. Xing, S.X. Hu and H.S. Zhu .............................................. 255

Electrosprayed Microparticulate Solid Dispersions Composed of Multiple Components
W. Qian, D.G. Yu, L. Wang, S.L. Li, Y.F. Wang, C.L. Wu and X. Wang ........................................... 259

Effects of Standoff Distance and Particle Size on Quality of NiCoCrAlY Coating by Cold Spraying
S.Q. Feng, B. Ma, X.L. Wang, G. Liu, Z.Y. Zheng and L.P. Pan ...................................................... 265

A Change of Undrain Shear Strength of Soft Ground during Consolidation Process
Y.M. Park, I.J. Um, N. Miura and S.C. Baek ................................................................................. 269

Study on Raman Spectra of the Polyacrylonitrile Iron Complex Nanofibers
L. Dong, X.D. Liu, X.T. Zhao, Y.C. Dong, B.W. Cheng, X.P. Zhuang and D.D. Meng ......................... 273

Growth Mechanism and Morphology Control of Porous Hexagonal Plates of Hydrohausmannite Prepared by Hydrothermal Method
D. Yan, Y.H. Li, Y. Liu, R.F. Zhuo, Z.G. Wu and J. Wang ................................................................. 277

Identification of Electrical Fire Melted Marks of Copper Wires by Electron Backscattered Diffraction (EBSD)
C. Sun, M.J. Ding, Y.F. Zhang, X. Tan, P. Wang, W. Wu and Y. Zeng ............................................. 281

Temperature-Induced Structure and Morphological Transformation in SnS Prepared by a Chemical Vapor Deposition Method
R.F. Zhuo, Y.N. Wang, D. Yan, X.Y. Xu and Z.G. Wu ................................................................. 286

Computational Studies on O(3P) + CHF2 Reaction Mechanism
L. Guo and Y.L. Xu ................................................................................................................................. 291

Amorphous State and Solubility Simulation of Poly(N-arylenebenzimidazole ketone)
X.W. Cui and L. Zhang ....................................................................................................................... 295

Recalculation Yielded the Small Molecule Fragments of C$_3$H$_4$ from Low Excited States of C$_3$H$_2$O$^+$
Y. Zhu, H.B. Chen and J. Wu ........................................................................................................... 299

Combined Effects of Guard Rings and Buried n$^+$ Layer on Mitigating Charge Collection and Charge Sharing in 90 nm CMOS Process

The Research of the Oil Base Drilling Fluid Hard Brittle Shale Sidewall Instability Mechanism
G.F. Zhen, G.L. Jing, W.J. Hu and B.S. Liao ................................................................................... 309

Mechanic Model of Push-Out Test of Over-Thick CFST
J.H. Gao, Y.B. Huang and S.L. Zhang .............................................................................................. 314

Discrete Wavelet Transform on Near-Infrared Spectra Analysis for Moisture Determination in Lignitic Coal Samples
X.L. Yang, N.B. Hou, J.Y. Shi and Y.F. Li ........................................................................................ 319

New Method for Assessment Ageing Condition of Oil Impregnated Insulation Pressboard Based on Frequency Domain Spectroscopy
J. Hao, J. Fu, P. Guo, G.L. Wu, Q. Wang and Y. Shuai ................................................................. 323

Breakdown Characteristics of Oil Impregnated Insulation Paper with Different Ageing Condition under the Composite Electric Field
Q. Wang, J. Hao, T. Liu, J. Fu and G.L. Wu ....................................................................................... 328

Study on the Ultrasonic Extraction of Polysaccharides of Barley Rice
Y.G. Bi and Y.M. Li .............................................................................................................................. 332

Study on High Temperature Stability Index of Asphalt Mixture
F.M. Liu .............................................................................................................................................. 336

Integrated Processing Effects on Ink Wastewater of 500t/Day
J.S. Yang and L. He ............................................................................................................................ 340

The Influence of Cetane Additive on Diesel Oil Performance
C. Liang, Y.X. Chu and J. Zhang ......................................................................................................... 343
DFT Investigation of Substitution Effects on the Electronic Properties of Perylene Bisimides Derivatives
B.W. Chen, Y.W. Xu and L. Zhang .......................................................... 347

Based on Grey Relational Analysis Research on Fabrication Parameters of Polypropylene Part by Selective Laser Sintering
Q. Xu and J. Zhang .......................................................... 351

The Study on Main Nutrients Uptake Kinetics by Three Species of Algae
C.Y. Yuan, X. Han and Q.M. Cui .......................................................... 355

The Theory Investigation for the Antioxidant Activity of Phloretin: A Comparation with Naringenin
M.X. Yan, J.D. Gong, P. Shen and C.Y. Yang .......................................................... 359

Research on Infrared Antireflective Characteristics of Two-Dimensional Sub-Wavelength Structures
Q.Y. Xu, Z.Z. Zhao, Y.P. Li, Z.T. Liu, Y.J. Xu and Y.F. Zhu .......................................................... 363

Chapter 2: Information Technologies and Information Processing Algorithms

Research of Information Security Quantitative Evaluation Method
W.L. Zang .......................................................... 369

Vehicle Identification and Classification System Based on Decision Tree
H.S. Wan, S.M. Jiang, Y.Y. Zhang and G.F. Zou .......................................................... 373

Comparison of LLE and PCA Algorithms for Gene Expression Data Analysis
X.Z. Chen, F. Yang, H.M. Li and J.H. Chen .......................................................... 378

An Iterative Method for Equilibrium Problems and Fixed Point Problems
C. Min and Q.H. Jiang .......................................................... 382

A Survey of Intelligence Optimization Algorithm with Thermodynamics
X. Xu, N. Hu and W.Q. Ying .......................................................... 386

Cloud Task and Virtual Machine Allocation Strategy Based on Simulated Annealing-Genetic Algorithm
X. Xu, N. Hu and W.Q. Ying .......................................................... 391

Research on Inland Vessels Remote Monitoring System Based on 3G Network
L. Zhou, N.Y. Cao and W.Y. Xia .......................................................... 395

IaaS Architecture Based on Trusted Computing
W.B. Zhang, Z.S. Bao, J. Li and L.J. Duan .......................................................... 399

Research and Design on SOA-Based Equipment ATS Architecture
G.M. Tang, F.J. Liu and X.B. Sun .......................................................... 403

Process Monitoring System Based on Anomaly Detection Statistics Algorithm
L.J. Zhang .......................................................... 408

An SSVEP-Based BCI System for SMS in a Mobile Phone
J.S. Lin, M. Wang, P.Y. Lia and Z.J. Li .......................................................... 412

Multi-Field-Oriented Personalized Recommendation
J.J. Li, Z.D. Zhao and G.G. Peng .......................................................... 416

The Application of Crime Network Conspirator Finding Model
Y. Zhou and X.Z. Lu .......................................................... 420

Hybrid Key Management Scheme for WSN
N.N. Zhao and J.B. Yao .......................................................... 424

A Homotopic Algorithm of NN and its Application for the End-Point Prediction Model of BOF Process
M.X. Feng, R. Chen and Q. Li .......................................................... 431
Design of Paper Defect Extraction IP Core Based on FPGA
H.S. Dang and L. Wang ................................................................. 435

An Optimization Algorithm of Phase Angle Calculation Based on the FPGA Implementation
Q.Q. Li and Y.H. Zhang ................................................................ 439

Things in Intelligent Agriculture Applications
D.W. Xu, S. Ren and L.P. Yang ......................................................... 444

Adaptive Tracking Algorithm of Multi-Target Based on Fuzzy Clustering
X.H. Hu, L. Guo and H.H. Li ........................................................... 448

Research on the Application of Web 2.0 Technologies in the University Libraries
D. Li ......................................................................................... 453

An Adaptive Threshold Segmentation Algorithm for Gesture Segmentation
M. Wang, J.S. Lin, Z.X. Fu and G.Q. Meng ...................................... 457

Research on BSP Algorithm of Construction of Large-Scale 3D Point Model
S. Liu and X.Y. Xie .................................................................... 461

GoogleMap Application Development in Android Platform
S.F. Lin, Y. Zhou, R.Y. Wang and J.J. Zhang ................................. 466

Composition Oriented Semantic Relationships Mining Framework Research
Z.D. Zhao, Y.H. Cui and J.J. Li ....................................................... 470

Reverse Logistics Network Design of Waste Electrical Appliances
Y. Liu, Y.F. Zhang and Y.X. Jin ...................................................... 474

K-Means Optimization Algorithms of Initial Clustering Center Based on Regional Density
Y.X. He, R. Cai, L.B. Wu and F. Li .................................................. 478

A Parallel Subgraph Isomorphism Algorithm on Multi-Core Platform
L. Yuan and W.X. Tian ................................................................. 483

Development of Equipment Management and Monitoring Software for EAST NBI

Traditional Culture Protection System Based on the Virtual Augmented Reality Technology

Design and Implementation of School Hospital Information Analysis and Mining System
X.S. Wang, Q. Guo, S.S. Li and R.F. Cao ....................................... 498

A Policy Configuration Approach for BPEL Exception Handling Based on CPN
H. Guan, S. Ying, X.Y. Jia and C.Q. Jiang .................................... 502

An Empirical Evaluation of Boosting-BAN and Boosting-MultiTAN
X.W. Sun and H.B. Zhou ............................................................ 506

Building Distance Education System Based on Cloud Computing
H.Y. Zhao, P. Zhang, H. Zhang and X.Y. Zhang ......................... 510

Multi-Modality Video Scene Segmentation Algorithm with Shot Force Competition
Y.Z. Xiang ................................................................................. 514

Remote Management Software Design for Urban Road Traffic Equipment Based on Android Mobile Terminal
J.J. Zhang, J. Zhang, B.X. Liu and J.M. Li ..................................... 518

Detecting DDoS Attacks Using Conditional Random Fields
Y. Liu, S.Y. Jiang and X.J. Yuan .................................................. 522

Research on the Digital City Geospatial Framework Construction
R. Liu, Y. Liu and Z. Huang ......................................................... 527

The Research on Network Communication Complex System Based on Logistic Equation
L.Y. Ren and X.L. Deng ............................................................... 530

Analysis of River Regime Data Based on the Improved Apriori Algorithm

A Fine-Grained Access Control Model for Smart Grid
C. Wang, H. Ai, L. Wu and Y. Yang ..................................... 772

Design of the Miniature Programmable Logic Controller Based on STM32

The Implementation and Application of Image Adaptive Dictionary Algorithm Based on Manifold
J.B. Jin and Y.X. Liu ............................................................ 781

Algorithm of Mining Association Rule Based on Matrix
Z.Z. Lin, S.H. Shu and Y. Ding ................................................. 786

Protection of Cultural Heritage's Focus on 3D Technologies: A Survey
R. Zheng, D. Zhang and G.S. Yang ....................................... 792

Description Mirror Features and Data Structures in an Optical CAD System
J.H. Jiang and X.H. Yang ...................................................... 796

Design a Trellis-Based Receiver to Combat CCI in EDGE Network
T.T.T. Linh and D.H. Bac ...................................................... 800

A Discrete-Time Queueing Model with Service Upgrade
I. Atencia, I. Fortes and S. Sánchez ....................................... 806

Link Quality and MAC-Overhead Aware Predictive Preemptive Multipath Routing Protocol for Mobile Ad Hoc Networks
M.A. Cherif, M.K. Feraoun and S.B. Hacene ................................ 812

Google Maps-Based Geospatial Application Framework with Custom Layers Management
M.T. Titanto and T. Dirgahayu .............................................. 822

Motion Capture as an Extension of Web-Based Simulation
M. Říveček and D. Gabriška .................................................. 827

Jamming-Aware Randomized Spectrum Sharing in Cognitive Radio Communication Networks
Y. Lin .............................................................................. 834

Evolution of the Complicated Innovation Networks with Multi-Agent
F.X. Qiu ........................................................................... 841
