

ANNUAL TRANSACTIONS
THE NORDIC RHEOLOGY SOCIETY

VOLUME 22
2014

PAPERS PRESENTED AT
THE NORDIC RHEOLOGY CONFERENCE
REYKJAVIK, ICELAND, August 13 – 14, 2014

General papers
and
Papers from the special session on
Suspension Rheology

Editor: A. Sorvari

Contents 2014

Invited Paper

- Rheological trends of civil engineering suspensions 3
P. Coussot

Polymer Rheology

- Rheological Properties of Poly (Vinylpyrrolidone) as a Function of Molecular Weight 11
D. Marani, B.R. Sudireddy, R. Kiebach, L. Nielsen, and S. Ndoni
- Cellulose Stearate in Melt and Plant Oil Suspension 19
I. Krasnou, E.M. Ferrer, and A. Krumme
- Responsive Gelation of Hydrophobized Linear Polymer 23
C.G. Madsen, J. Toeth, L. Jorgensen, S. Hietala, and S. Baldursdottir
- Cellulose Composite Fibre Spinning Using a Capillary Viscometer 27
T. Moberg and M. Rigdahl
- In situ* Rheological Characterization of Poly(Dimethylsiloxane)-Containing Sol-Gel Protective Coatings 31
L.S. Perše, M. Rodošek, D.M. Kek, and A.Š. Vuk

Food Rheology and Industrial Applications

- Model Fluids for Safe Swallowing: A Rheological Perspective 41
W. Qazi, M. Nyström, M. Bülow, O. Ekberg, and M. Stading
- Food Oral Design 45
M. Stading
- Assessing the Handleability of Bread Dough 49
C. Tock, F. Gates, C. Speirs, G. Tucker, P. Robbins, and P. Cox
- Solubility of Small-molecule Drugs into Polymer Excipients in Hot Melt Extruded Dosage Forms 55
J. Aho, M. Edinger, J.P. Boetker, S. Baldursdottir, and J. Rantanen

Influences of Wet Torrefaction on Pelletability and Pellet Properties of Norwegian Forest Residues	61
<i>Q.-V. Bach, N. Mišljenović, K.-Q. Tran, C. Salas-Bringas, and Ø. Skreiberg</i>	
Rheological Methods to Simulate Adhesive Properties for the Wood Working Industry	69
<i>T. Viljugrein</i>	

Suspensions

Influence of Experimental Parameters of the Squeeze-flow Test on the Rheological Behaviour and Phase Segregation of Cement Mortars	79
<i>F.A. Cardoso, F.C. Lofrano, V.M. John, and R.G. Pileggi</i>	
The Rheological Characterisation of Emulsions as Saliva Substitutes	87
<i>S.M. Hanning, T. Yu, J.A. Kieser, D.S. Jones, G.P. Andrews, and N.J. Medlicott</i>	
The Influence of Pigments on Rheological Properties and Spectral Selectivity of Solar Paints	95
<i>L.S. Perše and M. Mihelčič</i>	
Fluid Dynamics of Film Drainage around Round Particles and Spheres Falling Through a Liquid-Liquid Interface	103
<i>A.H. Rabenjafimanantsoa and R.W. Time</i>	
Cross-Linking Affects Rearrangements in Acid Casein Gels: Evaluation of Acidification Conditions	109
<i>N. Raak, L. Darnay, J. Brandt, S. Boye, A. Lederer, H. Rohm, and D. Jaros</i>	
Flow Regimes of Particle Settling in Suspensions and Non-Newtonian Fluids with Relevance to Cuttings Transport during Drilling	115
<i>R.W. Time and A.H. Rabenjafimanantsoa</i>	
Effect of Temperature and Pressure on Rheological Measurements of Cement Slurries	125
<i>K.F. Alexandersson and S.Ó. Wallevik</i>	
Application of Thermo-Mechanically Treated Drill Cuttings as an Alternative to Bentonite in Spud Muds	131
<i>F. Taghiyev, A. Saasen, and H. Hodne</i>	
The Effect of Different Portland Cements on Initial Hydration Reaction of a Self-Compacting Concrete Cement Paste	139
<i>R. Haldenwang, I. Masalova, and R. Elmakk</i>	

Instrumentation

Effect of Hydrodynamic Pressure in a 4 Blades Vane Rheometer <i>J.E. Wallevik</i>	147
Simultaneous In-situ Analysis of Instabilities and First Normal Stress Difference during Polymer Melt Extrusion Flows <i>R. Kádár, I.F.C. Naue, and M. Wilhelm</i>	153
Stability and Structure of Interfaces in Foams and Emulsions <i>K. Lilja and S. Laurén</i>	161
The Determination of the Rheological Properties of SCC with the Ball Measuring System <i>F. Fleischmann and M. Greim</i>	165
Flow-Viz- A Fully Integrated and Commercial In-Line Fluid Characterization System for Industrial Applications <i>J. Wiklund, R. Kotzé, B. Birkhofer, S. Ricci, V. Meacci, R. Haldenwang, and M. Stading</i>	169
A New Numerical Method for Correction of Wide Gap Rheometry Data by CFD <i>N. Hamed, J. Revstedt, E. Tornberg, and F. Innings</i>	175

Posters

Viscosities of Aqueous Solutions of Monoethanolamine (MEA), Diethanolamine (DEA) and N-Methyldiethanolamine (MDEA) at T = (90-150) °C <i>U.S.P.R. Arachchige, B. Singh, K. Prajapati, and M.C. Melaaen</i>	185
Amplitude Sweep Measurements in Heat-Induced Gel of Spray-Dried and Freeze-Dried Whey Protein Concentrate <i>E. Gausemel, E.-O. Rukke, S. Svanborg, and R.B Schüller</i>	191
Functionality of Purified Yellow Pea Protein Isolates for Food Application <i>M. Kristjansson, K.L. Eybye, and M.B. Hansen</i>	197
Influence of Various Enzymes and Lignosulphonate on Power Consumption During Pelleting Process and Physical Quality of Pelleted Products <i>D. Miladinovic and C. Salas-Bringas</i>	203

The Effect of Waste Vegetable Oil Addition on Pelletability and Physical Quality of Wood Pellets <i>N. Mišljenović, J. Mosbye, R.B. Schüller, O.-I. Lekang, and C. Salas-Bringas</i>	211
Rheological Comparison of Bentonite Based and KCl/Polymer Based Drilling Fluids <i>A. Torsvik, V. Myrseth, N. Opedal, B. Lund, A. Saasen, and J.D. Ytrehus</i>	219
Measuring Yield Stress to Correlate Slump of Concrete and Cement Paste <i>J.P. Plog</i>	225
Rheological and Microstructural Characterization of Some Norwegian Milk Products <i>E.-O. Rukke and R.B. Schüller</i>	229
Developing an In-Vitro Dynamic Model of the Stomach and Small Intestine for Milk Products with Rheological Monitoring <i>C. Salas-Bringas, E.-O. Rukke, T. Devold, G. Vegarud, C.F. Naess-Andresen, and R.B. Schüller</i>	237
Rheological Behavior and Droplet Size Distribution of Emulsions Stabilized by Whey Proteins and Chitosan during <i>ex vivo</i> Digestion <i>A. Sreedhara, G.E. Vegarud, D. Ekeberg, T.G. Devold, E.-O. Rukke, and R.B. Schüller</i>	245
<i>Index of Contributors</i>	253
