Multi-Agent Systems

12th European Conference, EUMAS 2014
Prague, Czech Republic, December 18–19, 2014
Revised Selected Papers
Contents

Agent-Based Models, Trust and Reputation

Ants in the OCEAN: Modulating Agents with Personality for Planning with Humans .......................................................... 3

Sebastian Ahrndt, Armin Aria, Johannes Fähndrich, and Sahin Albayrak

A Trust-Based Situation Awareness Model ............................................. 19

Reyhan Aydoğan, Alexei Sharpanskykh, and Julia Lo

Angerona - A Flexible Multiagent Framework for Knowledge-Based Agents. ........ 35

Patrick Krümpelmann, Tim Janus, and Gabriele Kern-Isberner

Affordance-Based Interaction Design for Agent-Based Simulation Models ........ 51

Franziska Klügl

MORE: Merged Opinions Reputation Model ............................................. 67

Nardine Osman, Alessandro Provetti, Valerio Riggi, and Carles Sierra

Coordination, Coalitions and Teamwork

Computing Coalitions in Multiagent Systems: A Contextual Reasoning Approach .......................................................... 85

Antonis Bikakis and Patrice Caire

Comparison of Task-Allocation Algorithms in Frontier-Based Multi-robot Exploration .......................................................... 101

Jan Faigl, Olivier Simonin, and Francois Charpillet

Homecoming: A Multi-robot Exploration Method for Conjunct Environments with a Systematic Return Procedure ................................. 111

Shervin Ghasemlou, Ali Mohades, Taher Abbas Shangari, and Mohammadreza Tavassoli

Distributed Deliberation on Direct Help in Agent Teamwork ..................... 128

Mojtaba Malek Akhlagh and Jernej Polajnar

Forming Coalitions in Self-interested Multi-agent Environments Through the Promotion of Fair and Cooperative Behaviour ..................... 144

Ted Scully and Michael G. Madden

Auction-Based Dynamic Task Allocation for Foraging with a Cooperative Robot Team .......................................................... 159

Changyun Wei, Koen V. Hindriks, and Catholijn M. Jonker
Logic and Formal Approaches

Tableaux and Complexity Bounds for a Multiagent Justification Logic with Interacting Justifications .................................................. 177
Antonis Achilleos

A Framework for Epistemic Gossip Protocols ....................................... 193
Maduka Attamah, Hans van Ditmarsch, Davide Grossi, and Wiebe van der Hoek

Compliance Games ........................................................................ 210
Piotr Kazmierczak

Synthesis with Rational Environments .............................................. 219
Orna Kupferman, Giuseppe Perelli, and Moshe Y. Vardi

STIT Based Deontic Logics for the Miners Puzzle ............................. 236
Xin Sun and Zohreh Baniasadi

Arbitrary Announcements on Topological Subset Spaces .................... 252
Hans van Ditmarsch, Sophia Knight, and Aybiike Öztün

Theories in Practice and Real-World Problems

Direct Exchange Mechanisms for Option Pricing ................................ 269
Sarvar Abdullaev, Peter McBurney, and Katarzyna Musial

A Study on the Influence of the Number of MTurkers on the Quality of the Aggregate Output ................................................... 285
Arthur Carvalho, Stanko Dimitrov, and Kate Larson

Multi-Agent Cooperation for Optimizing Weight of Electrical Aircraft Harnesses ................................................................. 301
Stéphanie Combettes, Thomas Sontheimer, Sylvain Rougemaille, and Pierre Glize

Optimizing Emergency Medical Assistance Coordination in After-Hours Urgent Surgery Patients .................................................. 316
Marin Lujak, Holger Billhardt, and Sascha Ossowski

Spatial Coordination Games for Large-Scale Visualization .................. 332
Andre Ribeiro and Eiko Yoneki

Decision Making, Conflicts and Agreements

Modeling a Multi-issue Negotiation Protocol for Agent Extensible Negotiations ................................................................. 349
Samir Aknine, Souhila Arib, and Djamil Boukredara
