High Performance Liquid Chromatography in Pesticide Residue Analysis

Edited by
Tomasz Tuzimski
Joseph Sherma
Contents

Preface ........................................................................................................... xiii
Editors ........................................................................................................... xv
Contributors .................................................................................................. xix

SECTION I  Practical Guide to HPLC Methods of Pesticide Residue Analysis

Chapter 1  Overview of the Field of Chromatographic Methods of Pesticide Residue Analysis and Organization of the Book ................................................................. 3
Tomasz Tuzimski and Joseph Sherma

Chapter 2  Pesticide Classification and Properties ........................................... 11
Tomasz Tuzimski

Chapter 3  Method Development of Chromatography: Retention–Eluent Composition Relationships and Application to Analysis of Pesticides ..................................... 77
Tomasz Tuzimski and Edward Soczewiński

Chapter 4  Choice of the Mode of Chromatographic Method for Analysis of Pesticides on the Basis of the Properties of Analytes ................................................. 99
Piotr Kawczak, Tomasz Bączek, and Roman Kaliszan

Chapter 5  Choice of the Mode of Sample Preparation in the Analysis of Pesticides on the Basis of the Properties of the Matrix ....................................................... 115
Robert E. Smith, Kevin Tran, Chris Sack, and Kristy M. Richards

Chapter 6  Selection of the Mode of Stationary Phases and Columns for Analysis of Pesticides ............................................................................................................... 139
Bogusław Buszewski and Szymon Bocian

Chapter 7  Selection of the Type of Mobile Phases for Analysis of Nonionic Analytes: Reversed- and Normal-Phase HPLC ................................................................. 167
Tomasz Tuzimski

Chapter 8  Selection of the Mobile Phases for Analysis of Ionic Analytes: Reversed-Phase, Ion-Pair, Ion-Exchange, Ion-Exclusion HPLC ............................................. 191
Monika Waks mundzka-Hajnos and Anna Petrucznik
Chapter 9  Optimization of Normal-Phase and Reversed-Phase Systems for Analysis of Pesticides: Choice of the Mode of Elution—Isocratic and Gradient Elution .............................. 215

Pavel Jandera

SECTION II  Kinetic Study of Pesticides

Chapter 10  Kinetics Study of Pesticides in the Environment: Application of HPLC to Kinetic Effects of Pesticide Analysis ..................................................................................... 245

Łukasz Cieśla

Chapter 11  Phototransformation of Pesticides in the Environment .............................................. 261

Davide Vione, Marco Minella, and Claudio Minero

SECTION III  Applications of HPLC and UPLC to Separation and Analysis of Pesticides from Various Classes

Chapter 12  Sample Preparation for Determination of Pesticides by High-Performance Liquid Chromatography and Liquid Chromatography–Tandem Mass Spectrometry ............................................................... 289

Robert E. Smith, Kevin Tran, Chris Sack, and Kristy M. Richards

Chapter 13  Quantitative Analysis and Method Validation .......................................................... 303

Renato Zanella, Osmar Damian Prestes, Manoel Leonardo Martins, and Martha Bohrer Adaime

Chapter 14  Analysis of Pesticides by HPLC-UV, HPLC-DAD (HPLC-PDA), and Other Detection Methods ................................................................................................. 325

Tomasz TuzimsJci

Chapter 15  High-Performance Liquid Chromatography–Mass Spectrometry as a Method of Identification and Quantification of Pesticides ......................................................... 349

Ana Masid and Yolanda Picó

Chapter 16  Multidimensional Liquid Chromatography Applied to the Analysis of Pesticides ................................................................................................................................. 393

Ahmed Mostafa, Heba Shaaban, and Tadeusz Górecki

Chapter 17  Chiral Separation of Some Classes of Pesticides by High-Performance Liquid Chromatography Method ...................................................................................... 411

Imran Ali, Iqbal Hussain, Mohd Marsin Sanagi, and Hassan Y. Aboul-Enein
Contents

Chapter 18 Application in Pesticide Analysis: Liquid Chromatography—A Review of the State of Science for Biomarker Discovery and Identification ...........................................449

Peipei Pan and Jeanette M. Van Emon

Chapter 19 Ultra-Performance Liquid Chromatography Applied to Analysis of Pesticides......469

María de los Ángeles Herrera Abdo, José Luis Martínez Vidal, and Antonia Garrido Frenich

Chapter 20 High-Performance Liquid Chromatography versus Other Modern Analytical Methods for Determination of Pesticides.................................................................491

Tomasz Tuzimski and Joseph Sherma

Index..........................................................................................................................531
