Contents

Part I  Computer Science and its Applications

A Large-Scale Terrain Rendering Method With GPU-Based Geometry Compression ........................................ 3
Zihou Ge and Wenhui Li

Cots Sparse Matrix Utilization in Distribution Power Flow Applications ......................................................... 11
Dino Ablakovic, Izudin Dzafic and Hans-Theo Neisius

A New Graph-Based Algorithm for Persian Text Summarization . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 21
Hassan Shakeri, Saeedeh Gholamrezaazadeh, Mohsen Amini Salehi and Fatemeh Ghadamyari

The Factors Affect User Behaviour in a Picture-Based User Authentication System: PixelPin .......................... 31
Zhang Min, Brendan Ryan and Sarah Atkinson

Analysis of Smartphone-Based Location Information ............................................................. 43
Dohyun Kim, Jewan Bang and Sangjin Lee

Dynamic Visualization for Sensing Information Based on Mobile Sensor Network ...................................... 55
Su-Hyun Yang, Eun-Ha Song and Young-Sik Jeong

Model Driven Real-Time Power System Application Development Using Just-In-Time Compilation ............ 67
Izudin Dzafic, Priyanka Mohapatra and Nenad Lecek

A Case Study on Cooperative Real-time Quality Monitoring Service Utilizing Sensor Networks ........................................ 203
Hangbae Chang, Jonggu Kang, Yanghoon Kim, Jachwan Lim
and Youngsub Na

High Availability Archive for Time-Based Data ..................... 211
Tobias Haag, Thomas Meier and Izudin Dzafic

A Multivariate Spatial Outlier Detection Method Based on Semantic Similarity ........................................... 221
Fatemeh Azam and Ahmad Baraani-Dastjerdi

Cohesion Between Size of Commit and Type of Commit .............. 231
Maryam Marzban, Zahra Khoshmanesh and Ashkan Sami

Software Defect Prediction Using Transitive Dependencies on Software Dependency Graph .............................. 241
Javad Kamyabi, Farzaneh Maleki and Ashkan Sami

Test Case Generation for Classes in Objects-Oriented Programming Using Grammatical Evolution ....................... 251
Jirawat Chaiareerat, Peraphon Sophatsathit and Chidchanok Lursinsap

An Efficient Access Control Scheme for Online Gaming Server .......................... 259
Hye-Young Kim

Performance Evaluation of a New Scheduling Algorithm in Data Grid Environment ........................................ 269
N. Mansouri, Gh. Dastghaibyfard and A. Horri

A Novel Dynamic Replication Algorithm in Hierarchical Data Grid .......................................................... 281
N. Mansouri and Gh. Dastghaibyfard

Intelligent Application Migration within a Self- Provisioned Hybrid Cloud Environment .................................. 295
Wei-Jen Wang, Yo-Ming Lo, Shao-Jui Chen and Yue-Shan Chang

Multi-Band OFDM and OFDM Simulation Software Using MATLAB® Graphical User Interface .................. 305
Roslina Mohamad, Wan Mohd Hafeez, Wan Mohd Salleh
and Nuzli Mohdmad Anas
A Comparison on PSO Variants in Calculating HEPWM Switching Angles for a Cascaded H-Bridge Multilevel Inverter ........................................ 315
Norkharziana Mohd Nayan, Naziha Ahmad Azli and Shahrin Md. Ayob

A Hybrid Artificial Potential Field: Genetic Algorithm Approach to Mobile Robot Path Planning in Dynamic Environments .............. 325
Yanping Liu and Kamal K. Bharadwaj

Energy-Constrained Scheduling for Weakly-Hard Real-Time Tasks on Multiprocessors ................................................................. 335
Yeonhwa Kong and Hyeonjoong Cho

A New Software Process Model: The Insect Model ............................. 349
Mahmood Vahedi Moghaddam and Mehdi Zand Akbari

Improving Recommendations in Tag-Based Systems with Spectral Clustering of Tag Neighbors ......................................................... 355
Rong Pan, Guandong Xu and Peter Dolog

Event-Centric Test Case Scripting Method for SOA Execution Environment .......................................................... 365
Youngkon Lee

bQoS (Business QoS) Parameters for SOA Quality Rating ............... 375
Youngkon Lee

Business-Centric Test Assertion Model for SOA ............................. 385
Youngkon Lee

A Classification of Model-Driven Approaches to Develop Semantic Web Service .......................................................... 395
Alaeddin Kalantari, Suhaime Ibrahim and Hamed Taherdoost

A Conceptual Model Explaining IT/IS Usage Behavior ..................... 405
Sabine Hoesch and Siegfried Voessner

Offering a Conceptual Model of Technology Acceptance in e-Banking Based on the Customers’ Satisfaction and Trust .......... 415
Alireza Dehghan, Parham Arjomand, Amirahmed Nayyeri and Masoud Tabatabaey

Part III  Digital Convergence Information Technology

China's Industrial Policy: Focusing on the <12.5 Plan> .......................... 543
Won-bong Lee

A Dual CPU Based Fault Tolerance Technique
for Manufacturing System ......................................................... 553
HwaYoung Jeong and BongHwa Hong

A Computational Clustering of Korean Classical Texts:
Focusing on the Gogocheonbyeon Passage of Sugungga .................... 561
Woonho Choi and Dong Keon Kim

The Survey of Quality Model for Software and System ...................... 569
Hye-Jeong Jeong and Suck-Joo Hong

Improvement of Retinex Algorithm for Backlight Image Efficiency ... 579
Seongsoo Cho, Bhanu Shrestha, Hae-Jong Joo and Bonghwa Hong

A User Authentication Method for M2M Environments ....................... 589
Jin-Mook Kim, Hwa-Young Jeong and Bong-Hwa Hong

Test Driven Development of Model Transformation
with Reusable Patterns .............................................................. 597
Jong-won Ko and Young-jae Song

An Advanced E-learning System Using Web Services ....................... 607
Hae-Gill Choi, Jungsun Kim and JuYeon Jo

A Study of Mobile Architecture Web Design for Virtual Ecology
Learning System Using LED (Light-Emitting Diodes) Lights
in Smart-Phone Environment ..................................................... 613
Jang-Mook Kang, Bong-Hwa Hong, You-Jin Song and Jae-sang Cha

A Study on the Tag Performance Test for International
Standards Using RFID Emulator ................................................ 621
Hae-Gill Choi, Sang-Soo Kim, Moon-Taek Cho, Hae-Jong Joo
and Euy-Soo Lee
Part IV  Heterogenous Networks, Computing and Applications

Simulation and Performance Analysis of Ad-hoc Networks
Using NS-2 and NS-3 Simulators ........................................... 635
Makoto Ikeda, Elis Kulla, Masahiro Hiyama and Leonard Barolli

A Comparison Study for Different Settings of Crossover
and Mutation Rates Using WMN-GA Simulation System ............ 643
Evjola Spaho, Tetsuya Oda, Admir Barolli, Fatos Xhafa,
Leonard Barolli and Makoto Takizawa

A Survey on MANET Testbeds and Mobility Models ................. 651
Elis Kulla, Makoto Ikeda, Leonard Barolli, Fatos Xhafa
and Jiro Iwashige

Evaluation of Wireless Sensor Networks for Multi Mobile
Events Using Different Topologies, Protocols and Radio
Propagation Models. ......................................................... 659
Tao Yang, Leonard Barolli, Jiro Iwashige, Arjan Durresi and Fatos Xhafa

Trustworthiness-Based Broadcast Protocols in Peer-to-Peer
Overlay Networks ............................................................ 669
Ailixier Aikebaier, Tomoya Enokido and Makoto Takizawa

Energy Efficient Distributed Systems for Storage-Based
Applications ................................................................. 677
Takuro Inoue, Ailixier Aikebaier, Tomoya Enokido and Makoto Takizawa

Part V  Multimedia and Information Security Technology

Forged Region Detection for Scanned Images ......................... 687
Chang-Hee Choi, Min-Jeong Lee, Dai-Kyung Hyun and Heung-Kyu Lee

Camcorder Identification for Heavily Compressed
Low Resolution Videos .................................................... 695
Dai-Kyung Hyun, Chang-Hee Choi and Heung-Kyu Lee

Block-based Image Authentication Algorithm Using
Reversible Watermarking .................................................. 703
Dong-Gyu Yeo and Hae-Yeoun Lee
Digital Forgery Detection Scheme Incorporating Imaging Device Characteristics Using Wiener Filter .......................... 713
Jae Youn Shim and Seong-Whan Kim

Part VI Computing and Communications

Dynamic Multi-channel Multi-path Routing Protocol for Smart Grid ................................................................. 725
Jih-Ching Chiu, Kai-Ming Yang, Yao-Chin Huang and Ming-Shiou Wu

Speed and Surge Control for an Unmanned Aircraft Vehicle with Turbojet Engine ............................................. 735
Min-Seok Jie and Beyong-In Jung

Influence of G729 Speech Coding on Automatic Speaker Recognition in VoIP Applications ................................ 745
Dalila Yessad, Abderrahmane Amrouche, Mohamed Debyeche and Nabil Ramou

Scheduling DAGs with Parallel Tasks in Multi-Clusters Based on Parallel Efficiency ........................................... 753
Silvio Luiz Stanzani and Líria Matsumoto Sato

Tomographic Reconstruction of a Multi-Attenuation Phantom by Means of Ultrasonic Method ............................ 761
Mohd Hafiz Fazalul Rahiman, Ruzairi Abdul Rahim and Herlina Abdul Rahim

A Healthcare Cloud Computing Strategic Planning Model ........ 769
Kuo Mu-Hsing

Part VII Mobile Platform, Consumer Electronics and Multimedia Services

Multimedia Data Placement and Retrieval for Mobile Platform ...... 779
Seung-Ho Lim

A Platform-Independent Smartphone Application Development Framework ......................................................... 787
Min Choi
Energy-Efficient Scheduling for Mobile Sensor Networks with Renewable Energy Source .................................................. 795
Kae Won Choi

Issues and Challenges in Determining Quality of Service Requirements in Wired, Wireless and Mobile Networks .................. 805
P. Calduwel Newton and L. Arockiam

Implementation of the River Monitoring System Using Embedded RTU Server ......................................................... 813
Dae-Sik Ko

A Study on Message Batch Verification Scheme Using Bloom Filter in VANET ............................................................. 821
Su-Hyun Kim and Im-Yeong Lee

Computing Text-to-Text Semantic Relatedness Based on Building and Analyzing Enriched Concept Graph ....................... 831
Zoleikha Jahanbakhsh Nagadeh, Fariborz Mahmoudi and Amir Hossein Jadidinejad

Author Index ..................................................................................... 841
