HCl Design and Evaluation Methods and Tools

Janaina Abib and Junia Anacleto
119

Practices, Technologies, and Challenges of Constructing and Programming Physical Interactive Prototypes
Andrea Alessandrini
132

ISO 9241-11 Revised: What Have We Learnt About Usability Since 1998?
Nigel Bevan, James Carter, and Susan Harker
143

Incorporating Marketing Strategies to Improve Usability Assurance in User-Centered Design Processes
Iunia C. Borza and José A. Macías
152

Communication of Design Decisions and Usability Issues:
A Protocol Based on Personas and Nielsen’s Heuristics
Joelma Choma, Luciana A.M. Zaina, and Daniela Beraldo
163

Web-Systems Remote Usability Tests and Their Participant Recruitment
Piotr Chynal and Janusz Sobecki
175

User Experience Evaluation Towards Cooperative Brain-Robot Interaction
Chris S. Crawford, Marvin Andujar, France Jackson, Sekou Remy, and Juan E. Gilbert
184

Analysis of Factors Influencing the Satisfaction of the Usability Evaluations in Smartphone Applications
Ayako Hashizume and Shuwa Kido
194

The Definition and Use of Personas in the Design of Technologies for Informal Caregivers
Susanne Hensely-Schinkinger, Aparecido Fabiano Pinatti de Carvalho, Michael Glanznig, and Hilda Tellioğlu
202

An Interaction Design Method to Support the Expression of User Intentions in Collaborative Systems
Cristiane Josely Jensen, Julio Cesar Dos Reis, and Rodrigo Bonacin
214

Usability, Quality in Use and the Model of Quality Characteristics
Masaaki Kurosu
227

Creating Personas to Reuse on Diversified Projects
Andrey Araujo Masiero and Plinio Thomaz Aquino Jr.
238
Using Diary Studies to Evaluate Railway Dispatching Software .......................... 248
Isabel Schütz, Anselmo Stelzer, and Andreas Oetting

Heuristic Evaluation in Information Visualization Using Three Sets of Heuristics: An Exploratory Study .................................................... 259
Beatriz Sousa Santos, Beatriz Quintino Ferreira, and Paulo Dias

Extending MoLIC for Collaborative Systems Design ...................................... 271
Luiz Gustavo de Souza and Simone Diniz Junqueira Barbosa

Using Readers’ and Organizations’ Goals to Guide Assessment of Success in Information Websites ................................................................. 283
Robert B. Watson and Jan Spyridakis

Interaction Design

Designing Simulation-Based Training for Prehospital Emergency Care: Participation from a Participant Perspective ................................. 297
Beatrice Alenljung and Hanna Maurin Söderholm

What About Document Folding? User Impressions and a Design Approach ...... 307
Rodrigo Chamun, Angelina Ziesemer, Isabel H. Manssour, João B.S. de Oliveira, and Milene S. Silveira

Designing of a Natural Voice Assistants for Mobile Through User Centered Design Approach ................................................................. 320
Sanjay Ghosh and Jatin Pherwani

Comparative Analysis of Regular Grid Based Algorithms in the Design of Graphical Control Panels ....................................................... 332
Jerzy Grobelny and Rafal Michalski

Towards Paperless Mobility Information in Public Transport ........................................ 340
Stephan Höröld, Cindy Mayas, and Heidi Krömker

Study of Uninterruptible Duration Prediction Based on PC Operation ............ 350
Hokuto Iga, Takahiro Tanaka, Kazuaki Aoki, and Kinya Fujita

Development of Tidy-up Promotion System by Anthropomorphication of Shared Space ................................................................. 360
Takayoshi Kitamura, Tianne Jin, Motoki Urayama, Hirotake Ishii, and Hiroshi Shimoda

E-Mail Delivery Mediation System Based on User Interruptibility ................. 370
Yasumasa Kobayashi, Takahiro Tanaka, Kazuaki Aoki, and Kinya Fujita

Workflow-Based Passenger Information for Public Transport .......................... 381
Cindy Mayas, Stephan Höröld, and Heidi Krömker
Concrete or Abstract User Interface? .......................... Abbas Moallem

Airway Cursor: A Pointing Technique Based on Direction of Mouse Movement Towards a Targets. ........................................... 396
Tomohiro Nakatsuji, Keiko Yamamoto, Itaru Kuramoto, and Yoshihiro Tsujino

Interactive Clinical Pedigree Visualization Using an Open Source Pedigree Drawing Engine .................................................. João Miguel Santos, Beatriz Sousa Santos, and Leonor Teixeira

User Requirements for Intermodal Mobility Applications and Acceptance of Operating Concepts .......................................... 415
Ulrike Stopka, René Pessier, and Katrin Fischer

Reduce Complexity by Increasing Abstraction in Interactive Visual Components ................................................................. 426
Pedro M. Teixeira-Faria and Javier Rodeiro Iglesias

Graphical User Interface for Search of Mathematical Expressions with Regular Expressions .............................................. 438
Takayuki Watabe and Yoshinori Miyazaki

**Emotions in HCI**

Understanding Visual Appeal and Quality Perceptions of Mobile Apps: An Emotional Perspective .............................................. 451
Upasna Bhandari, Tillman Neben, and Klarissa Chang

A Smartphone Application to Promote Affective Interaction and Mental Health ................................................................. 460
Maurizio Caon, Leonardo Angelini, Stefano Carrino, Omar Abou Khaled, and Elena Mugellini

A Study on the Relationships Between Drivers’ Emotions and Brain Signals ................................................................. 468
Songyi Chae

Interactions in Affective Computing: Sharing a Haptic Experience Increases Calmness and Closeness ................................. 477
Norene Kelly

The Effect of Gamification on Emotions - The Potential of Facial Recognition in Work Environments .......................... 489
Oliver Korn, Sandra Bozzo, and Albrecht Schmidt
Towards the Evaluation of Emotional Interfaces ........................................... 500
  Damien Lockner and Nathalie Bonnardel

Analytical Steps for the Calibration of an Emotional Framework:
Pre-test and Evaluation Procedures .......................................................... 512
  Nicholas H. Müller and Martina Truschzinski

Automatic Interpretation of Negotiators' Affect and Involvement Based
on Their Non-verbal Behavior ................................................................. 520
  Zhaleh Semnani-Azad and Elnaz Nouri

HCI and Natural Progression of Context-Related Questions ...................... 530
  Aggeliki Vlachostergiou, George Caridakis, Amaryllis Raouzaiou,
  and Stefanos Kollias

Emotional Engagement for Human-Computer Interaction in Exhibition
Design ........................................................................................................... 542
  Mengting Zhang, Cees de Bont, and Wenhua Li

Author Index ................................................................................................ 551
