Introduction 1

Chapter 1: About Time as the Numerical Order of Material Changes 17

Chapter 2: Three-Dimensional Euclid Space and Special Relativity 113

Chapter 3: Three-Dimensional non-Euclid Space as a Direct Information Medium and Quantum Phenomena 151

Chapter 4: About Quantum Cosmology in a Background Space as an Immediate Information Medium 230

Chapter 5: The Gravitational Space in an A-Temporal Quantum-Gravity Space Theory 253

Chapter 6: A Three-Dimensional Timeless Quantum Vacuum as the Fundamental Bridge Between Gravitation and the Quantum Behavior 304

Conclusions 396
