Foreword .....	xi
Preface .....	xiv
Acknowledgments .....	xv
Introduction .....	xvi
<b>1 Introduction to Oracle Solaris 11 .....</b>	<b>1</b>
About Oracle Solaris 11 11/11 .....	2
The Oracle Solaris 11.1 Update .....	5
The Solaris 11.2 Update .....	6
Solaris 11 End-of-Feature Notifications .....	8
Solaris 11 Optimizations for Oracle Software .....	8
Solaris 11 The Cloud Operating System .....	9
Summary of Major Changes from Oracle Solaris 10 to Oracle Solaris 11.2 .....	11
Oracle Solaris Future .....	13
Obtaining Oracle Solaris 11 Software .....	13
Summary .....	14
References .....	14
<b>2 Basic Installation and Updates .....</b>	<b>17</b>
Installation Requirements .....	18
Oracle Hardware Compatibility List .....	18
Solaris 11 Installation on x86 Systems .....	19
GUI/Live Media Installation for x86 Systems .....	20
The Interactive Text Installer Image .....	23
Installation on SPARC Systems .....	25

What You'll See When You Log In	25
The Solaris 11 Login Environment	26
Some Postinstallation Tasks	26
Setting Up the VNC Server Graphical Interface	31
Automated Installation	33
The AI Server	33
Updating Your Operating System	34
Installing and Updating Application Software Using IPS	36
Summary	37
References	37
<b>3 Lifecycle Management</b>	<b>39</b>
Boot Environments	40
Creating and Activating Boot Environments	41
Mounting and Destroying Boot Environments	42
Boot Environment Snapshots and Clones	43
Booting from a Boot Environment	44
Image Packaging System	45
Configuring IPS Publishers	45
Getting Information About a Package	47
Installing Packages	48
Understanding the Package FMRI	50
Searching for Packages	51
Updating a System	53
Fixing a System	55
Exact Installations	56
Managing IPS Repositories	57
Unified Archives	59
Unified Archive Types	60
Creating a Clone Archive	61
Creating a Recovery Archive	63
Creating Bootable Media to Deploy an Archive	64
Automated Installer	64
Creating an Automated Installer Service	65
Configuring an AI Manifest	67
Installing a Client System	70
Applying a System Configuration Profile	74

Applying Client Criteria .....	75
Final Configuration with First-Boot Scripts .....	76
Secure End-to-End Provisioning .....	76
Creating Custom Media .....	76
Summary .....	77
References .....	77
<b>4 Oracle Solaris Zones .....</b>	<b>79</b>
Oracle's Virtualization Technologies .....	80
What Are Zones? .....	81
The Global Zone .....	82
Basic Non-global (Native) Zones .....	83
Creating New Zones Using Clones .....	84
Solaris 10 Branded Zones .....	85
Moving a Zone .....	87
Kernel Zones .....	88
Immutable Zones .....	92
Hard Partitioning with Zones for Oracle Licensing .....	93
Capping Zone Resources for Performance Management ...	95
What Kind of Virtualization Should I Use? .....	96
Summary .....	97
References .....	97
<b>5 Configuring Solaris 11 Networking .....</b>	<b>99</b>
Basic Network Setup .....	100
Identifying Physical Network Devices .....	102
Using the Network Preferences Graphical User Interface ...	105
Virtual Network Devices .....	106
Virtual Network Components .....	107
Creating Virtual Network Components .....	109
The Elastic Virtual Switch .....	111
Creating an EVS Network .....	112
Managing and Monitoring Network Resources .....	116
Controlling Network Bandwidth .....	116
Monitoring Network Activity .....	117
Summary .....	118
References .....	118

<b>6 Performance and Observability</b>	<b>119</b>
Server Sizing	120
Methodology	121
Verifying Your System Configuration	121
Optimizing Performance	125
Software and Hardware Errors	125
CPU (Hardware Threads) and Operating System Issues	126
Process Scheduling	127
Memory Issues	129
Storage I/O	130
Network Performance	133
Tunable Kernel Parameters	134
DTrace	135
Virtualization (Zones)	138
Graphical View of Performance Monitoring	141
Summary	142
References	143
<b>7 Oracle Solaris 11 Security Features</b>	<b>145</b>
Secure Installation and Configuration	146
Image Packaging System Security	148
ZFS Security	148
User Privilege Control	150
Observability and Auditing	152
Auditing	152
Observing Virtual Operating System Activity	154
Zone Security	155
Immutable Non-Global Zones	155
Immutable Global Zone	156
Compliance	157
Security Certifications	160
Complete Oracle Stack Security	161
Summary	161
References	161
<b>8 Installing Applications Using Templates and IPS</b>	<b>163</b>
Installing Oracle VirtualBox	164
Creating Solaris Virtual Machines Using <i>VirtualBox</i>	165
Installing Oracle Applications in Zones	171
Installing Oracle WebLogic Server 12c in a Zone	171
Installing Oracle Database 12c in a Zone	173

Packaging and Deploying Applications Using IPS	176
Creating an Image Packaging System Repository	177
Creating a Package Manifest	178
Publishing the Package Manifest	182
Providing Wider Access to Your Repository	183
Summary	184
References	185
<b>9 Configuration Management</b>	<b>187</b>
Service Management	188
Basic Service Management	190
Setting Service Properties	193
Service Bundles—Manifests and Profiles	197
Manifests	198
Profiles	198
Repository Layers	198
Creating Manifests and Profiles	200
Creating a New SMF Service	200
Creating a New System Profile	202
SMF Stencils	203
Managing Solaris 11 Infrastructure with Puppet	204
What is Puppet?	205
Installing Puppet on Solaris 11.2	206
Puppet Resources	207
Performing Configuration with Puppet	210
Puppet Best Practices	211
Remote Administration Daemon	212
Summary	214
References	215
<b>10 Cloud and OpenStack</b>	<b>217</b>
What is OpenStack?	218
Core OpenStack Projects	219
Nova	220
Cinder	222
Neutron	222
Keystone	223
Glance	223
Horizon	224
Heat	224
Swift	224

Getting Started with Oracle OpenStack .....	225
Installing Using Automated Installer .....	225
Installing into an Oracle Solaris Kernel Zone .....	226
Configuring the Elastic Virtual Switch .....	229
Using OpenStack Horizon .....	229
Adding a Self-Service User .....	230
Creating a Network .....	232
Adding SSH Keypair .....	234
Launching a VM instance .....	236
Configuring the Neutron L3 Agent .....	240
Uploading New Images to the Glance Image Repository .....	246
Setting Up a Multinode OpenStack Environment .....	249
Additional OpenStack Services .....	252
Summary .....	253
References .....	253
<b>A Oracle Solaris 11.2 Cheat Sheet General Administration .....</b>	<b>255</b>
System Configuration .....	256
Service Management Facility .....	280
Installation and Deployment .....	287
<b>B Oracle Solaris 11.3 Beta Release .....</b>	<b>291</b>
Oracle Solaris 11.3 .....	292
Obtaining Oracle Solaris 11.3 Beta .....	292
Major New Features of Oracle Solaris 11.3 .....	293
References .....	298
<b>Index .....</b>	<b>299</b>
