Socio-Informatics

A Practice-Based Perspective on the Design and Use of IT Artifacts

EDITED BY

VOLKER WULF
VOLKMAR PIPEK
DAVE RANDALL
MARKUS ROHDE
KJELD SCHMIDT
GUNNAR STEVENS

OXFORD UNIVERSITY PRESS

Introduction: Socio-Informatics—Practice Makes Perfect?  
DAVE RANDALL, MARKUS ROHDE, KJELD SCHMIDT, AND VOLKER WULF

The Structure of the Book

Part I Conceptual Foundations

1 Grounded Design: A Research Paradigm in Practice-Based Computing  
GUNNAR STEVENS, MARKUS ROHDE, MATTHIAS KORN, AND VOLKER WULF

1.1 Introduction  
1.2 Design Research: State of the Art  
1.3 Grounded Design: Foundations and Core Principles  
1.4 Design Case Studies  
1.5 Building Concepts by Comparative Analysis  
1.6 Quality Criteria for Design Case Studies  
1.7 Sharing Knowledge in the Grounded-Design Paradigm  
1.8 Building a Portfolio of Design Case Studies  
1.9 Conclusion

2 Practice and Technology: On the Conceptual Foundations of Practice-Centered Computing  
KJELD SCHMIDT

2.1 Practice-Centered Computing: The Conceptual Challenge  
2.2 Conceptual Archeology  
2.2.1 Techné  
2.2.2 Praxis  
2.2.3 The Construction of the Modern Concept of “Practice”  
2.2.4 The Heritage
<table>
<thead>
<tr>
<th>Contents</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.2.5 “Practice” in Moral Philosophy</td>
</tr>
<tr>
<td>2.2.6 “Practice In Abstracto”</td>
</tr>
<tr>
<td>2.3 Conceptual Cartography</td>
</tr>
<tr>
<td>2.3.1 “Practice”</td>
</tr>
<tr>
<td>2.3.2 “Technique”</td>
</tr>
<tr>
<td>2.4 Conclusion</td>
</tr>
<tr>
<td>3 “Practice Theory”: A Critique</td>
</tr>
<tr>
<td>KJELD SCHMIDT</td>
</tr>
<tr>
<td>3.1 “No Such a Thing”</td>
</tr>
<tr>
<td>3.2 And Yet, There Is Method to It</td>
</tr>
<tr>
<td>3.3 The Generative Scheme of “Practice Theory”: The Case of Bourdieu</td>
</tr>
<tr>
<td>3.4 The Challenge of Normative Regularity</td>
</tr>
<tr>
<td>3.4.1 The Problem of “Sameness”</td>
</tr>
<tr>
<td>3.4.2 Mere Regularity versus Normative Regularity</td>
</tr>
<tr>
<td>3.4.3 The Ghost of “Tacit Knowledge” in “Practice Theory”</td>
</tr>
<tr>
<td>3.4.4 The Expression of a Rule Is Not a Rule</td>
</tr>
<tr>
<td>3.5 Knowing When To Stop Digging</td>
</tr>
<tr>
<td>3.6 Collateral Damage: The Concept of “Practice”</td>
</tr>
<tr>
<td>4 Making Use: Understanding, Studying, and Supporting Appropriation</td>
</tr>
<tr>
<td>GUNNAR STEVENS AND VOLKMAR PIPEK</td>
</tr>
<tr>
<td>4.1 Introduction</td>
</tr>
<tr>
<td>4.2 Get Back to Work: A Brief Survey of the Origins</td>
</tr>
<tr>
<td>4.2.1 Express Yourself: Appropriation and German Idealism</td>
</tr>
<tr>
<td>4.3 Learning by Doing: Appropriation and Activity Theory</td>
</tr>
<tr>
<td>4.3.1 Appropriation and de Certeau</td>
</tr>
<tr>
<td>4.4 Design in Use: Tailoring, End-User Development, and Appropriation</td>
</tr>
<tr>
<td>4.4.1 Contingencies, Heterogeneity, and Dynamics: Reasons To Make</td>
</tr>
<tr>
<td>Software Flexible</td>
</tr>
<tr>
<td>4.4.2 Making It “Easy To Adapt”: Ways of Designing Flexibility</td>
</tr>
<tr>
<td>4.4.3 Tailorable Artifacts: Increasing the Technical Flexibility</td>
</tr>
<tr>
<td>4.5 Making It Work: Appropriation as Collaborative Work</td>
</tr>
<tr>
<td>4.5.1 Dealing with Breakdowns: A Phenomenology of the</td>
</tr>
<tr>
<td>Appropriation Situation</td>
</tr>
<tr>
<td>4.5.2 Make It Together: The Collaboration Pattern</td>
</tr>
<tr>
<td>4.5.3 Infrastructuring: Appropriation and the Emergence of Infrastructure</td>
</tr>
<tr>
<td>4.6 Studying and Supporting Appropriation</td>
</tr>
<tr>
<td>4.6.1 Appropriation and Ethnographic Work</td>
</tr>
<tr>
<td>4.6.2 Appropriation and Design</td>
</tr>
<tr>
<td>4.7 Concluding Remarks</td>

5 A Bridge Too Far?: Critical Remarks on the Concept of "Infrastructure" in Computer-Supported Cooperative Work and Information Systems

CHARLOTTE P. LEE AND KJELD SCHMIDT

5.1 "Infrastructural Resources" 179
5.2 "Information Infrastructures" 1.0 182
5.3 "Infrastructural Inversion" 185
5.4 "Information Infrastructures" 2.0 195
5.5 "Cyberinfrastructures" 199
5.6 "Infrastructuring" 203
5.7 Using the Concept of "Infrastructure": Proceed with Caution! 206
5.8 Implications and Conclusions 207

Part II Methodological Positionings 219

6 Investigation and Design

DAVE RANDALL

6.1 Introduction 221
6.2 The "Turn to the Social" 223
  6.2.1 The Domain 226
  6.2.2 Ethnographic Strategies 227
6.3 Design Research 229
  6.3.1 Involving Users 229
  6.3.2 Theorizing Design Research 231
  6.3.3 The Politics of Design 232
6.4 Conclusion 235

7 Critical Reflections on Participation in Design 243

INA WAGNER

7.1 Introduction 243
7.2 Participatory Design: The Political Roots 247
7.3 Participation in What? Unpacking the Concept 251
7.4 Thinking about Power Issues in Participatory Design 256
7.5 New Directions for and Forms of Participation 260
  7.5.1 A New "Clientele" for Participatory Designers? 260
  7.5.2 Extending Participation to Communities 263
  7.5.3 Toward "Infrastructuring" 266
  7.5.4 And What about Work? 269
7.6 Thoughts for the Future of Participatory Design: Open Issues 270
7.7 Concluding Remarks 273
8 Integrated Organization and Technology Development: A Critical Evaluation
Markus Rohde and Volker Wulf

8.1 Introduction

8.2 The Framework of Integrated OTD

8.3 Applying the Framework in Practice
8.3.1 OrgTech: Supporting Maintenance Work in a Steel Mill
8.3.2 The Iran NGO-CS Project: Development of a Community System for Iranian NGOs

8.4 Discussion
8.4.1 Vrs Inertiae
8.4.2 Micropolitics
8.4.3 Macropolitics

8.5 Conclusion
8.5.1 Design-versus-Development Dilemma
8.5.2 Asynchronicity
8.5.3 Deepness of Intervention
8.5.4 Output Guarantee

9 Design, Action, and Practice: Three Branches of the Same Tree
Gillian R. Hayes

9.1 Common Historical and Intellectual Traditions

9.2 The Practice of Change
9.2.1 Generation of Research Questions and Problem Statements
9.2.2 Action and Intervention
9.2.3 Evaluation/Analysis
9.2.4 Reporting Research Results
9.2.5 Ensuring Sustainability of Change

9.3 AR Views of Practice

9.4 The Evolution of Practice

9.5 Conclusion

10 PRAXLABS: A Sustainable Framework for User-Centered Information and Communication Technology Development—Cultivating Research Experiences from Living Labs in the Home
Corinna Ogonowski, Timo Jakobi, Claudia Müller, and Jan Hess

10.1 Researching the Home
10.2 Practice-Based Computing
10.2.1 From Participatory Design to Practice-Based Computing
10.2.2 The Living-Lab Approach
10.2.3 Limitations of “Disposable” Living-Lab Projects
10.3 PRAXLABS: Creating Innovative Technologies in Practice
10.4 PRAXLABS Projects: Organizational Framing and Setting 328
  10.4.1 SocialMedia: Co-Creating a Cross-Platform Entertainment Concept 328
  10.4.2 Energy Monitoring: Designing for Energy Practices in the Long Term 333
  10.4.3 The City-Quarter Living Lab: Development of a Neighborhood Platform for Elderly Tenants 337
10.5 Insights into Developing a Sustainable PRAXLABS Concept 341
  10.5.1 Reusing Methodological Best Practices of Living Labs across Projects 342
  10.5.2 Limitations of Comparing Case Study Results 349
  10.5.3 Reusing Experiences and Concepts across Fields of Application 352
10.6 Conclusion 355

Part III Design Case Studies 361

11 Information and Communication Technology Design in a Complex Moral Universe: Ethnography-Based Development of a GPS Monitoring System for Persons Who Wander 363
CLAUDIA MÜLLER AND LIN WAN

11.1 Introduction 363
11.2 Related Work 365
11.3 Overview of the Context Study 368
11.4 Pre-Study: Findings 370
  11.4.1 Understanding the Complexities of Caregiving for Persons with Dementia in Institutions 370
  11.4.2 Understanding the Complexities of Caregiving for Persons with Dementia at Home 372
  11.4.3 Design Implications 374
11.5 Prototype Development 375
11.6 Evaluation: Methodology 377
11.7 Evaluation: Findings 377
  11.7.1 The Settings: Two Institutions and a Family 377
  11.7.2 Institution A: A Dementia Care Home 378
  11.7.3 Institution B: A Hospital Ward 378
  11.7.4 A Family Setting 379
  11.7.5 Some General Findings across Cases 380
11.8 Discussion 380
  11.8.1 Discussion of Design Implications 380
  11.8.2 Methodological Reflections 383
11.9 Conclusion 386

12 come_NET: Connecting Computer Clubs with a Community Platform 391
KONSTANTIN AAL, ANNE WEIBERT, KAI SCHUBERT, MARY-ANN SPRENGER, AND THOMAS VON REKOWSKI

12.1 Introduction 391
12.2 Background
  12.2.1 come_IN Computer Clubs 392
  12.2.2 Sharing Tools 393
  12.2.3 Children as Technology Users/Design Partners 393

12.3 Case Study: come_IN Computer Clubs 394
  12.3.1 Research Setting 394
  12.3.2 Method 397

12.4 The Empirical Pre-Study for come_NET: Identifying Recurring
Challenges in Computer Club Work 398

12.5 The Participatory Design of come_NET 401
  12.5.1 The Development Process for come_NET 403
  12.5.2 Design of the Communication Function 404
  12.5.3 Design of the Artifact-Sharing Function 404
  12.5.4 Design of the Networking Function 407
  12.5.5 Design of the Privacy Settings 408
  12.5.6 Design of the Gamification Function 409

12.6 The Appropriation of come_NET 410
  12.6.1 The Use of come_NET in the Club Sessions 410
  12.6.2 The Appropriation of the Artifact-Sharing Function 412
  12.6.3 The Appropriation of the Communication Function 412
  12.6.4 The Appropriation of the Networking Function 413
  12.6.5 The Appropriation of the Privacy Settings 413
  12.6.6 The Appropriation of the Gamification Function 414

12.7 Discussion 414
  12.7.1 Social Setting 414
  12.7.2 Interacting with Given IT Infrastructures 415
  12.7.3 Gamification 415

12.8 Conclusion 416

13 Enabling Users of Enterprise Systems to Mash Up
Resources and Develop Widgets 421

MICHAEL SPAHN, JULIAN DAX, FAHRI YETIM, AND VOLKMAR PIPEK

13.1 Introduction 421
13.2 Background 423
  13.2.1 Resource Integration Tools 423
  13.2.2 Resource Transformation Tools 424
  13.2.3 Widget Orchestration Tools 424
  13.2.4 Research Gaps 425

13.3 Empirical Investigations in Practice 425
  13.3.1 Exploration of Users' Problems and Needs in Practice 425
  13.3.2 Observing the Users' Design 427

13.4 Design and Development of the Widget Composition Platform 428
  13.4.1 Motivation and Preliminary Remarks 428
  13.4.2 Conceptual Layers 429
13.4.3 Architectural Components
13.4.4 The WCP User Interface
13.5 The Appropriation Study
  13.5.1 Goals and Methods
  13.5.2 Evaluation through Use Cases in Practice
13.6 Conclusion

14 A Fitting Solution

KAORI KASHIMURA, TAKAFUMI KAWASAKI JR., NOZOMI IKEYA,
AND DAVE RANDALL

14.1 Introduction
14.2 Method
14.3 Background: Plant Construction and Maintenance
14.4 The Setting(s)
14.5 The Construction Site
14.6 The Pipe-Manufacturing Subcontractor
14.7 The Storage Site
14.8 Conclusion

15 Toward Transferability in Grounded Design: Comparing Two Design Case Studies in Firefighting

MATTHIAS BETZ AND VOLKER WULF

15.1 Introduction
  15.1.1 Grounded Design, and Design Case Studies
  15.1.2 The Transferability of Design Case Studies
15.2 Design Case Studies in the Domain of Firefighting
  15.2.1 The Landmarke Project: Navigation and Orientation Support for Firefighters
  15.2.2 The Koordinator Project: Coordination and Communication Support for Firefighters
  15.2.3 Building and Extending the Knowledge Base
15.3 Comparative Analysis: Results and Findings
  15.3.1 Autonomy and Monitoring
  15.3.2 Anticipation and Unpredictability
  15.3.3 Standardization and Expressiveness
  15.3.4 Complementation and Substitution
  15.3.5 Addressability and Awareness
  15.3.6 Communicative Effort and Risk
15.4 Discussion
  15.4.1 Historicity in Lines of Research
  15.4.2 Accumulation of Knowledge
  15.4.3 Personal (Dis-)Continuity
Part IV  Meta-Research

16 Research into Design-Research Practices: Supporting an Agenda toward Self-Reflectivity and Transferability 491
DAVE RANDALL, TOBIAS DYRKS, BERNHARD NETT, VOLKMAR PIPEK,
LEONARDO RAMIREZ, GUNNAR STEVENS, INA WAGNER,
AND VOLKER WULF

16.1 Introduction 491

16.2 The State of the Art 494
16.2.1 New Forms of Research Collaboration 494
16.2.2 Why "Meta-Research" into "Practice-Based Computing"? 496
16.2.3 The Notion of "Reflective Practice" 497
16.2.4 Doing Ethnography on Projects: The Approach 499

16.3 Ethnographies of Design Case Studies and Projects 502

16.4 Critical Moments: Understanding Collaborative Exchanges within an IT Design Project 503
16.4.1 Dialogs and Discussions 504
16.4.2 Leading and Facilitating Discussions 507
16.4.3 The Role of Emerging Expectations in the Dialog Process 508
16.4.4 The Role of Anticipation and Speculation in Dialogs 509
16.4.5 How Suggestions Emerged in Dialogs 511
16.4.6 Supporting Arguments in Dialogs 513
16.4.7 Discussion 515

16.5 Historically Grown: Understanding the Design Practices of an IT Research Group 518
16.5.1 WiNeMe: A Practice-Based Group of Design Researchers 519
16.5.2 Project Acquisition and Project Work 521
16.5.3 Acquiring a Research Project 521
16.5.4 Writing a Proposal Document 522
16.5.5 Project Work 524
16.5.6 Knowledge Creation and Publishing 525
16.5.7 Publications as a Part of the Dissertation Process 526
16.5.8 Publication Policy of the Project Holder/Funding Agency 526
16.5.9 IT Media Use in WiNeMe 527
16.5.10 Emotional Tensions in Practice-Oriented Work 527
16.5.11 A Comparative Perspective toward Other EUSSET Groups 530
16.5.12 Discussion 530

16.6 Conclusion 532
Epilogue: Socio-Informatics: Intertwining Analytical and Design-Oriented Research into Social Practices

VOLKMAR PIPEK, DAVE RANDALL, AND VOLKER WULF

Socio-Informatics: Establishing a Research Discourse for Practice-Based Computing
Technological Challenges
Methodological Challenges
Epistemological Positioning
