Biodegradable
Plastics and
Polymers

Proceedings of the Third International Scientific Workshop on Biodegradable
Plastics and Polymers, Osaka, Japan, November 9–11, 1993

Edited by

Yoshiharu Doi
The Institute of Physical and Chemical Research (RIKEN), Japan

Kazuhiko Fukuda
Biodegradable Plastics Society (BPS), Japan
Contents

Foreword v
Preface vii
Committees ix

Session 1: Biodegradation of Polymers and Plastics

Similarities and Differences between Biodegradation and Non-Enzymatic Degradation
S.J. Huang, L.-H. Ho, M.T. Huang, M.F. Koenig, and J. A. Cameron 3

The Complexity of the Biodegradation of Poly(2-hydroxy acid)-Type Aliphatic Polyesters
M. Vert, A. Torres, S.M. Li, S. Roussos, and H. Garreau 11

Biodegradation of Polyethers and Polyacrylate
F. Kawai 24

Biodegradation of Biosynthetic and Chemosynthetic Polyhydroxyalkanoates
Y. Doi, K. Mukai, K. Kasuya, and K. Yamada 39

Purification and Characterization of Extracellular Poly(3-hydroxybutyrate) Depolymerases
T. Saito, M. Shiraki, T. Shimada, and M. Tatsumichi 52

Monitoring of Polymer Biodegradabilities in the Environment by a DNA Probe Method
H. Yukawa, Y. Uchida, K. Kohama, and Y. Kurusu 65

Session 2: Environmental Degradation of Plastics

Environmental Biodegradation of Hydrocarbon Polymers: Initiation and Control
G. Scott 79

Effects of Soil Conditions on Biodegradation of Plastics and Responsible Microorganisms
M. Kimura, K. Toyota, M. Iwatsuki, and H. Sawada 92
Session 3: Synthesis and Properties of New Biodegradable Plastic Materials

Bacterial Synthesis of Poly-β-Hydroxyalkanoates with Functionalized Side Chains
R.W. Lenz, R.C. Fuller, C. Scholz, and F. Touraud

Properties and Applications of Polyhydroxyalkanoates
M.K. Cox

Plastid Targeting of the Enzymes Required for the Production of Polyhydroxybutyrate in Higher Plants
C. Nawrath, Y. Poirier, and C.R. Somerville

"BIONOLLE", Biodegradable Plastic through Chemical Synthesis
E. Takiyama and T. Fujimaki

Session 4: Biodegradation and Morphologies of Polymer Blends

Biodegradable Plasticizers: Miscible Blends of Poly(β-hydroxybutyrate-co-β-hydroxyvalerate) with Poly(ε-caprolactone) and Poly(ethylene glycol)
M. Gada, R.A. Gross, and S.P. McCarthy

Enzymatic Degradation of Polymer Blends
Y. Tokiwa and A. Iwamoto,

Starch/Vinyl-Alcohol Copolymer Interactions
C. Bastioli, V. Bellotti, M. Camia, L. Del Giudice, and A. Rallis

Session 5: Development of Biodegradation Test Methods

Strategy for Biodegradability Testing in OECD
M. Kitano and Y. Yakabe

Expectations for Biodegradation Testing Methods
G. Swift
The Development and Modification of Some Special Test Methods and the Progress in Standardisation of Test Methods in Germany

R.-J. Müller, J. Augusta, T. Walter, and H. Widdecke

Perspectives on Standard Test Methods for Biodegradable Plastics

R. P. Wool

Session 6: Governmental Policy, Regulations and Standards

Impact of Governmental Policies, Regulations, and Standards Activities on an Emerging Biodegradable Plastics Industry

R. Narayan

Status of Government Policy, Regulation and Standards on the Issue of Biodegradable Plastic Materials in Italy

E. Chiellini

Current Status of Biodegradable Plastics in Korea: Research, Commercial Production and Government Policy

H. N. Chang, Y. C. Kim, S. Y. Lee, and B. S. Kim

Field Testing of Biodegradable Plastics

H. Sawada

Governmental Policy, Regulations and Standards

A-C. Albertsson and R. H. Marchessault

Session 7: Poster Communications

Standard Test Methods for Polymer Biodegradation in Solid Waste Treatment Systems

L. De Baere, B. De Wilde, and R. Tillinger

Evaluation of Biodegradability of Biodegradable Plastics in Activated Sludge

Y. Yakabe and M. Kitano

A Study on Methods of Testing Biodegradable Plastics in Soil: Aerobic and Anaerobic Gas Evolution Test; Petri Dish Test in Various Soils

H. Eya, N. Iwaki, and Y. Otsuji
A Simple Method for Detection of Polymeric Degrading Microorganisms on Agar Plates  
*M. Tsuji and Y. Omoda*  

An Extracellular Poly(3-hydroxybutyrate) Depolymerase from the Activated Sludge  
*M. Shiraki, M. Tatsumichi, T. Shimada, and T. Saito*  

Cloning and Nucleotide Sequencing of the Poly(3-hydroxybutyrate) Depolymerase Gene from *Pseudomonas pickettii*  
*Y. Kurusu, K.Kohama, Y.Uchida, T. Saito, and H. Yukawa*  

'Biopol' Properties and Processing  
*K. Tsuchikura*  

Molecular Weight Distribution Control and Mole Fraction Control in Poly(D(-)-3-hydroxyalkanoate) (PHA) Production by *Alcaligenes eutrophus*  
*H. Shimizu, S. Tamura, Y. Ishihara, S. Shioya, and K. Suga*  

Production of Copolyesters from Organic Acids by Mutant Strains of *Alcaligenes eutrophus*  
*S. Kitamura and Y. Doi*  

A New Kinetic Model for the Accumulation of Poly-3-hydroxybutyrate in *Alcaligenes eutrophus*  
*J. Kurja, G.M. De Koning, H.F. Zirkzee, and I. A. Maxwell*  

Production of Poly(3-hydroxybutyrate) by Photosynthetic Microorganisms  
*T. Suzuki, A.A. Tsygankov, M. Miyake, J. Miyake, Y. Tokiwa, and Y. Asada*  

Biosynthesis and Characterization of Poly (3-hydroxybutyrate-co-4-hydroxybutyrate) by *Comamonas acidivorans*  
*Y. Saito and Y. Doi*  

Isolation and Characterization of *Pseudomonas putida* BM01 Accumulating High Amount of PHA<sub>MCL</sub>  
*S.C.Yoon, J.J. Song, and T.U. Kim*
Biosynthesis and Characterization of Poly(3-hydroxybutyrate-co-3-hydroxyhexanoate) from Oils and Fats by *Aeromonas* sp. OL-338 and *Aeromonas* sp. FA-440

G. Kobayashi, T. Shiotani, Y. Shima, and Y. Doi

Producton of Poly(3-hydroxybutyrate) from Plant Oils by *Alcaligenes* sp.

M. I. A. Majid, K. Hori, M. Akiyama, and Y. Doi

Biosynthesis of Poly(γ-glutamic acid) in *Bacillus subtilis* IFO3335 and Crosslinking Reaction by γ-Irradiation of Poly(γ-glutamic acid)

M. Kunioka

Studies on Biodegradability of Low Density Polyethylene (LDPE) to Which a Biodegradation Inducing Agent Has Been Added

Y. Ohtake, T. Kobayashi, S. Itoh, H. Asabe, M. Yabuki, and K. Ono

Development of Polycaprolactone/Gelatinized Starch Blends and Their Enzymatic Degradation

S. Takagi, M. Koyama, H. Kameyama, and Y. Tokiwa

Properties and Applications of "Mater-Bi"

Y. Yoshida and T. Uemura

New Application of Cellulose and Chitosan for Biodegradable Polymer Material

R. Kitagawa, M. Nishiyama, J. Hosokawa, T. Kubo, K. Yoshihara, T. Endo, and H. Kabeya

Development of Biodegradable Material for Loose Fill Packaging

M. Nagai, Y. Tokugawa, F. Tsuda, and H. Iwasaki

Biodegradable Star-Shaped Poly-L-Lactide

S.H.Kim and Y.H. Kim

Cellular Response to Phagocytized Particles of Poly-L-Lactic Acid

D.F. Gibbons, J.E. Gysbers, K.H. Kato, and P. J. Parks
L-Lactic Acid Production by a CSTR with Cross-Flow Membrane Filter on Pilot Scale
H. Ohara

Purification Process of L-Lactic Acid for Bio-Degradable Poly-L-Lactate
H. Ohara and S. Sawa

Recycle of Polylactide in Natural Circumstances: Mechanism of Degradation
E. Ozeki and Y. Fujii

Synthesis of Copolyester Containing Poly(ethylene terephthalate) and Poly(ε-caprolactone) Units, and Its Biodegradability
H.S.Jun, B.O.Kim, Y.C.Kim, H.N.Chang, and S.I.Woo

An Attempt to Make Poly(vinyl acetate) Biodegradable
N.Kawabata and T. Kurooka

Synthesis and Biodegradability of Polyesters Based on 1,4: 3,6-Dianhydrohexitols and Succinic Acid Derivatives
M. Okada, K. Aoi, S. Shimizu, and Y. Okada

Studies of the Hydrolytic Degradation of Some Aliphatic Polyesters
J.V. Seppälä and R.M.H. Malin

Synthesis of Polydepsipeptide with Pendant Carboxylic Acid Groups and Its Hydrolysis Behavior
T. Ouchi, Y. Okamoto, M. Shiratani, M. Hirao, M. Jinno, and Y. Ohya

Tailor-Making of Multimeric Poly(β-malic acid) Derivatives: Property Adjustment through Ester Pendant Groups
S. Cammas, M.A. Leboucher, I. Renard, K. Boutault, and Ph. Guerin

Biodegradation of Optically Active New-Polyesters
H. Shirahama and H. Yasuda
Ring-Opening Copolymerization of Optically Active β-Butyrolactone with Several Lactones: Synthesis of New Biodegradable Polyesters
Y. Hori, Y. Takahashi, A. Yamaguchi, and T. Nishishita

Biodegradability of Poly(L/DL-lactide-co-DL-β-Methyl-δ-Valerolactone)
A. Nakayama, N. Kawasaki, I. Arvanitoyannis, and N. Yamamoto

Novel Biodegradable Copolyamides Based on Adipic Acid, 1,6 Hexane Diamine and Aminoacids: Synthesis and Study of Properties; Part 1
I. Arvanitoyannis, E. Nikolaou, and N. Yamamoto

Polytransesterification of C4-Diacids and 1,4-Butanediol with Various Lipases in Organic Solvent
Y.-Y. Linko, Z.-L. Wang, and J. Seppälä

Physical Properties and Processabilities of Biodegradable Plastics "BIONOLLE"
Y. Yokota, R. Ishioka, Y. Moteki, and N. Watanabe

Biodegradation of BIONOLLE
M. Nishioka, T. Tuzuki, Y. Wanajyo, H. Oonami, and T. Horiuchi

Morphology and Enzymatic Degradation of Poly [(R)-3 hydroxybutyrate] Plasticized with Acylglycerols
H. Abe, Y. Doi, M. Satkowski, and I. Noda

Synthesis of Dimethyl Succinate Using Carbon Monoxide and Its Application to Biodegradable Polymers
I. Takahashi, K. Koumoto, A. Matsuda, and T. Masuda

Biodegradation and Composting Studies of Polymeric Materials
S. Bloembergen, J. David, D. Geyer, A. Gustafson, J. Snook, and R. Narayan,
