Recycling and Reuse of Waste Materials

Proceedings of the International Symposium held at the University of Dundee, Scotland, UK on 9-11 September 2003

Edited by

Ravindra K. Dhir
Director, Concrete Technology Unit
University of Dundee

Moray D. Newlands
CPD/Consultancy Manager, Concrete Technology Unit
University of Dundee

and

Judith E. Halliday
Teaching/Research Fellow, Concrete Technology Unit
University of Dundee

Thomas Telford
CONTENTS

Preface iii
Organising Committee v
Scientific and Technical Committee vi
Collaborating Institutions vii
Sponsoring Organisations With Exhibition viii
Supporting Institutions viii

THEME 1 WASTE GENERATION ISSUES

Keynote Paper
European Trends in Waste Generation and Waste Management 1
B Munck-Kampmann, European Topic Centre For
Waste and Materials Flow, Denmark

Reaching 100% Recycling of Municipal Solid Waste Generated in Egypt 23
S M El-Haggar

The Challenge of Optimal Proportions in the Mixture of Organic
Waste for Optimizing Anaerobic Waste Treatment Processes 35
S Voß, E Kraft and W Biddingmaier

Foundry Sand as a Construction Material: Functional
and Environmental Aspects 43
A Carlson-Ekvall, B von Bahr, A-L Oberg-Hogsta and M Gustafsson

"Waste" or "Product", That is the Question 53
J Enright

A Comparison of Twelve Sources of Waterworks Sludge in England
and the Republic of Ireland With Respect to the Potential For
Their Use in Fired Ceramic Products 67
R G Skerratt and M Anderson

Inorganic Wastes as New Resource of Materials 79
A Lancellotti, F Andreola, L Barbieri, A Corradi and P Pozzi

Managing the Newspaper Recycling Loop 87
P Tucker, P Douglas and J Polson

Prototype of an In-Flight Service Trolley for Segregation of Cabin Waste 95
M G Micallef, J Borg, C Ciantar and V Cassar

Generation and Diversion of Bio Waste in Private Households 107
and Potentials for Waste Minimisation
S Lebersorger and S Salhofer
### Theme 2: Processing for Use

**Keynote Paper**

- Recycling and Reuse of Waste Materials as Raw Materials Within the Framework of Integrated Product Policy (IPP)
  - F. Moedinger, Ziegelei Gasser Mattonaia GmbH srl, Italy

- Recovery of Fibres, Fuels and Chemicals from the Pyrolysis of Fibre Reinforced Composite Plastic Waste
  - P.T. Williams, A.M. Cunliffe and N. Jones

- Advances in the Extraction of Silica from Glass Cullet
  - G. di Belfa, J. Arrigo, P. Cataldino, L. Mavilia and F. Corigliano

- Management Approach for Contaminated Dredged Materials for Valorisation in Civil Engineering Applications at the Seaport of Dunkirk (France)
  - F. MacFarlane, E. Henry and C. Boulemla

- Mixtures of Cullet and Industrial Waste: Raw Materials for the Production of Glass
  - A. Karamheri, L. Diamantopoulou and A. Moutsatsou

- Processing of Phosphogypsum for Value Added Building Materials
  - M. Singh, C.L. Verrou, M. Garg and S.K. Handa

- Sorting of Plastics Using Physical Separation Techniques
  - R.D. Pascoe

- Anaerobic Digestion in Wastewater Treatment and Its Role in Reducing Biosolids
  - U.F. Mahmood and M.M.A. Saleh

- Chemical Characterization of CCA-Creosote Treated Woods in View of Their Thermal Treatment
  - J. Rauch, D. Venditti, G. Trousseau and S. Durècu

- Physical Properties of Organic Waste - A Key Factor for Successful Control of Aerobic Biological Waste Treatment Processes
  - F. Scholwin, E. Kraft and W. Bidlingmaier

- Anaerobic Digestion in Waste Reduction - The Challenge
  - H. Tonge, A. Deakin and J. Yan

- The Application of Biopiling to Bioremediate Diesel Contaminated Soil
  - H.D. van Zyl and L. Lorenzen

- Composting to Solve Problems with Treatment of Crop Wastes from Greenhouses in Southern Spain
  - C. Pérez and R. Plana

---

</tbody>
</table>
A Novel Biomass Methane Generator Developed for the Firing of Clay Bricks
F Moedinger and G D'Anna

Plant Design for the Processing of 12000 Tonnes per Year of Scrap Tyres in Gran Canaria
B Suarez Boza, M C Ling Ling and S O Perez Baez

Microwave Processing of Selected Organic Wastes
N C Burnett

Biomethanation and Composting Plant on Lanzarote Island (Canary Islands, Spain)

From Waste to Wealth: Developing Saleable Mineral Products from Quarry Waste
D J Harrison

New Methods for the Production of (i) pure vanadium pentoxide or (ii) a ferrovanadium concentrate from oil residues
P Primerano, P Catalfamo, S Di Pasquale and F Corigliano

Emission Reduction of Aluminium Anodising Plant Waste Solutions by Production of Secondary Industrial Minerals
H W Nugteren and E Alvarez Ayuso

THEME 3 RECYCLING AND REUSE

Keynote Paper
The Sustainable Management of Discards
J Cairns, Environmental Plastics Advisory Service, Canada

Thermal Treatment of Industrial Residues Using Concentrated Sunlight
M Roeb, N Monnerie, N Rohner and R Schäfer

Quality Aspects in Recycled Plastics
F Stangenberg, S Ägren and S Karlsson

Coherence Between Waste Input and Quality of MSWI Bottom Ashes
J Reichelt and G Pfirng-Stotz

Reuse of Food Industry By-Products: Animal Protein as a Workability-Enhancing Admixture
A Chikhi, R M Dheilly and M Queneudec

B Laidoudi, A Benazzouk, L Marmoret, T Langlet and M Queneudec

</tbody>
</table>
A Study of a Dune Sand Concrete for Aeronautical Runways
R Kettab, A Ghrieb and A Bali

Strength and Durability of Concrete Made with Crushed Concrete as Coarse Aggregates
N Al-Mutairi and M N Haque

Use of Refuse-Derived Fuel Ash as a Cement Component in Mortar
J E Halliday, T D Dyer and R K Dhir

Use of Ferro-Silicate Slag from Zinc Production as Bound Aggregate in Construction
A Dunster and R Elliott

Recycled Building Products
R M Harrex

Utilisation of Tyres in Civil Engineering Applications
S N Amirkhanian

Production of Aluminium-Based Composite Parts using Recycled Metal Chips as Reinforcements
Y M Ismail and M Abdel-Rahman

Compressive Strength of Concrete Block Manufactured Using Wastepaper Sludge Ash
G Veerappan, J M Kinuthia, M O'Farrell, B B Sabir and S Wild

A Novel Ceramic (Casamic) Made From Unwashed Waste Glass of Mixed Colour
T R Jones, R D Pascoe and P B Hegarty

The Use of Construction, Demolition and Industrial Waste as Core Construction Materials in Vegetated Embankments
M J Jones, M J Lamb and J D Lewis

Foundation of Soft Ground Using Waste Plastic Materials and Sludge of Concrete
S Murata, H Shibuya, N Koyama and H Sakai

Application of Coal Ash Slag for Concrete Aggregates
Y Ishikawa

Study on the Cementitious Property of Ground Fly-Ash and the Related Mechanism
W Zhang and H Zhang
Field and Glasshouse Trials to Evaluate the Lime and Fertiliser Value of Some Enhanced Treated Sewage Sludges  
A H Sinclair

Production of Growing Media from Sewage Sludge - The Challenges  
A Johnson

THEME 4 PERFORMANCE

Keynote Paper

Environmental Performance of Waste Materials  
O Hjelma, DHI - Water & Environment, Denmark

Comparability of Results from Similar Leaching Tests on Bottom Ashes  
B Bergfeldt, S Gutkeunst and J Vehlow

Performance Studies on Coconut Fibre Pith Based Adsorbents for the Removal of Zinc from Industrial Effluents  
S Bharatidasan and K Gopalakrishna

Functionality and Usability of Insulated Composters for Family Use  
L Sillanpää and A Korhonen

Peculiar Chemical and Technological Properties of Glass Cullet as the Raw Material for Foamed Insulation  
A A Ketov

Fly Ash as a Chemical Scrubber and Fixation Agent for Acidic Waste of the Fertilizer Industry  
E Lederman, T Pelly, H Cohen, M Werner and M Polat

Performance of Concrete Comprising Shredded Rubber Tyres  
K A Paine, P C Moroney and R K Dhir

Investigating the Properties of Composite Materials Containing Agricultural Residues  
A Gailius and A Kazragis

A Study on the Pozzolana Properties of Pumice Mine Trails  
I Arrigo, C Paradiso, P Primero, L Mavilia and V Corigliano

End-of-Life Cathode Ray Tube Glass as a Raw Material for Hollow Ware Glass Products  
R Siikamäki

Expansion due to Alkali-Silica Reaction (ASR) of Glass Cullet used in Concrete  
R K Dhir, T D Dyer and M C Tang
Sustainable Road Construction - A Local Authority's Experience
S Brown

THEME 5 FUTURE DEVELOPMENTS

Keynote Paper
Evaluation of Environmental Aspects of Alternative Materials Using an Integrated Approach Assisted by a Database/Expert System
H A van der Sloot, P Seignette, R N J Cosmans, A van Zomersen, J J Dijkstra, H Meeussen, ECN, Netherlands, D S Kosson, Vanderbilt University, USA, O Hjelmoe, DHI - Water & Environment, Denmark

Recycling of Post Consumer Special Glass, Present Situation and Possibilities
E Döring

The Assessment of Recycled Materials with the Eco-Costs/Value Ratio Model
Ch F Hendriks, G M T Janssen and J Vogtländer

Improving Household Waste Management in Existing Blocks
I Roos and R Kojo

The Problem of Water: Too Much and Too Little
P Rayat

Use of Waste Glass for Construction Products: Legislative and Technical Issues
H Y Zhu, E A Byars and C Meyer
