Achieving Sustainability in Construction

Proceedings of the International Conference held at the University of Dundee, Scotland, UK on 5-6 July 2005

Edited by

Ravindra K. Dhir
Director, Concrete Technology Unit
University of Dundee

Tom D. Dyer
Lecturer, Concrete Technology Unit
University of Dundee

and

Moray D. Newlands
CPD/Consultancy Manager, Concrete Technology Unit
University of Dundee

Thomas Telford
CONTENTS

Preface iii
Introduction iv
Organising Committee v
Scientific and Technical Committee vi
Collaborating Institutions vii
Sponsoring Organisations With Exhibition vii
Exhibiting Organisations viii
Supporting Institutions ix

Opening Paper
Sustainable Concrete Structures - A Win-Win Situation for Industry and Society
M Glavind, D Mathiesen, C V Nielsen, Danish Technological Institute, Denmark 1

THEME 1 EFFICIENT USE OF ENERGY AND RAW MATERIALS

Keynote Paper
Sustainable Development in Construction - Theory, Feasibility and Practice Using Raw Materials and Energy
A Samar, University of Technology Sydney, Australia 15

Properties of Fly Ash from Real-Scale Co-Combustion Experiments
A J Saraber, J W van den Berg 25

Waste Generation Issues in Petroleum Producing Communities in Nigeria
S Dalton 33

Study of Early Hydration of Cement Pastes Containing Alternative Calcium Sulfate Bearing Materials
G Tzouvalas, A Papageorgiou, D Papageorgiou, S Tsimes 41

Peculiarities of Synthesizing Artificial Zeolites on a Fly Ash Basis and their Usage for Modification of Specially Destined Concrete
E K Pushkarova, O A Gonchar 53

Performance of Concrete with Mining Sand as an Alternative Non-Conventional Material
Z Y H Harith, K A Shavarebi 61

Influence of Modifying Admixtures on Properties of Foam Glass Obtained by Using Ashes Resulting from Incineration of Household Waste
V I Gots, K M Germash 67
Innovative Materials for Concrete - An Overview
C M S Kutty

Construction Materials Management Adopting GIS Technology
E Arunbabu, P Thirumalini, P Partheeban

The Significance of Embedded Energy for Buildings in a Tropical Country
S P Poohiyadda, W P S Dias

Design and Evaluation of Sustainable Concrete Production
Z Li, Y Yamanoto, O Takasaki

Green Buildings and Flyash Concrete - The Commerce City, Colorado Project
M Reiner, K L Rens, A Ramanwami

Concrete Mixes for Desert Environments
B M El-Arish

Contribution of Mixed Cements in Production of More Durable and Sustainable Concrete
R Roskovic, D Bjegovic, J Beslac

Concrete Mixing & Curing: The Influence of Waste Water on the Characteristic Strength of Concrete
B Mohammed, A A Waziri, B A Umadas

THEME 2 POLLUTION, WASTE AND RECYCLING

Keynote Paper
Sustainability of the Cement and Concrete Industries
T R Naik, University of Wisconsin - Milwaukee, USA

Development of Self Compacting Concrete for Prefabricated Street Furniture
R Gettu, B Barragan, R L Zerbino, C de la Cruz, M Bravo, C Benmadi

Drying Shrinkage and Modulus of Elasticity of Sand and Total Lightweight Concretes
M N Haque, O Kayali, H Al-Khaisat

Construction Potential of a Mining By-Product
D Ionescu

Refractory Properties of Insulating Materials from Secondary Cementitious Materials (SCMs)
A Jenker, H Potgieter

Maximum Dosage of Glass Cullet as Fine Aggregate in Mortar
K Yamada, S Ishiyama

THEME 3 MINERALS

Keynote Paper
Environmental Assessment of Life Cycle Assesments
A Josa, A Agudelo, R Gettu, Indian Institute of Technology

Freeze-Thaw Resistance of Crushed Roofing M Sugiya

xii
Durability Performance of Recycled Aggregate Concrete
A R M Ridzuan, A Ibrahim, A M M Ismail, A B M Diah

Performance of Concrete Containing Fly Ash at Early Ages
J Wang, P Yas

Use of Recycled Tyre Rubber as Aggregates in Silica Fume Concrete
M Gesoglu, E Guneyisi, T Ozturun

Engineering and Durability Properties of Concrete Containing Waste Glass
M C Tang, W Long, R K Dhir

Potential for Recycling Demolished Concrete and Building Rubble in Kuwait
S Al-Otaibi, M El-Hawary

The Manufacture of Precast Building Blocks Utilising Recycled Construction and Demolition Waste
N Jones, M N Soutsos, S G Millard, J H Bunney, R G Tickell, J Gradwell

Best Practicable Environmental Options (BPEOs) for Recycling Demolition Waste
A Whyte, T D Dyer, R K Dhir

Cost Effective and Good Performance Concrete for Sustainable Construction Through Recycling
G Moriconi

Room Temperature Granulated Fly Ash on a Fixed Bed As Sorbent for Organic Contaminants From Wastewater
F Medici, G Rinaldi

Admixtures Effect on Mechanical Strength of a Concrete Made of Recycled Aggregate
L Belagraa, M Beddar

THEME 3 MINIMISING ENVIRONMENTAL IMPACT

Keynote Paper
Environmental Assessment of Cement Based Products: Life Cycle Assessment and the EcoConcrete Software Tool
A Josa, A Aguado, Universitat Politècnica de Catalunya, Spain
R Gettu, Indian Institute of Technology Madras, India

Freeze-Thaw Resistance of Porous Concrete Mixed with Crushed Roofing Tile
M Sugiyama
Durability of Reinforced Concrete Applying Some Expert Systems from the World Wide Web (WWW)
J Gomez Dominguez, C E P Garay Mendoza

Accelerated Carbonation of Portland Cement Mortars Partially Substituted with a Spent Fluid Catalytic Cracking Catalyst (FCC)
E Zornoza, P Garces, J Monzo, M V Borrachero, J Paya

Fly Ash Blended Cement: An Effective Material for Addressing Durability Related Issues
N Shafiq, F Nunnadi

The Use of Coal Combustion Bottom Ash in Lightweight Masonry Units
J Groppo, B Phillips, R Rathbone, R Perrone, C Price

Does Recycling Fit with Sustainable Use?
C F Hendriks, G M T Janssen

Development of Technology for Processing Open-Hearth Slag for Composite Construction Materials
S I Pavlenko, Y V Filippov, U N Anashkina, N S Anashkin

Industrial Waste Utilisation in Building Elements
M M Prasad, S Kumar

Stainless Steel in Concrete for Efficiency and Durability
D J Cochrane

Construction Waste Management: Using the 7Rs Golden Rule for Industrial Ecology
M S Al-Ansary, S M El-Haggar

THEME 4 ENVIRONMENTAL ENGINEERING WITH CEMENT AND CONCRETE

Keynote Paper
Improvement of Concrete Mix Design for Hazardous Material Storage or Immobilisation of Wastes by Numerical Simulation
D Damidot, S Kamali, F Bernard, Ecole des Mines de Douai, France

Mix Proportioning and Some Properties of Slag Concrete
M C Nataraja, B M Ramalinga Reddy

Technologies for the use of Hazardous Wastes - Fly Ash and Condensed Silica Fumes for Eco-Friendly Building Materials
R Chowdhury

Mechanical Properties and Reaction Products in Ternary Hydraulic Systems Anhydrite - Blast Furnace Slag and Metakaolin
P E Fraire-Luna, J I Escalante-Garcia, A Gorokhovsky

Closing Paper
MEDIA: A Decision Support System
C F Hendriks, G M T Janssen
Technology, Netherlands

Late Paper
The Role of Concrete Past in the Construction Industry
J Harrison

Index of Authors

Subject Index
Closing Paper
MEDIA. A Decision Support Tool for Sustainable Urban Development
C F Hendriks, G M T Janssen, A L A Fraaij, Delft University of Technology, Netherlands

Late Paper
The Role of Concrete Post Kyoto: The Unrecognized Sequestration Solution?
J Harrison

Index of Authors

Subject Index
