IOS Press
Part 2

Foreword
Luis Broganza, Manuel Pinheiro, Said Jalali, Ricardo Mateus, Rogério Amoêda and Manuel Correia Guedes
Welcome

Chapter 5. Designing the Sustainable City of Tomorrow and Urban Sustainability

Environmental Performance and Management of Sustainable Urban Projects
E.D. Dufrasnes, E.W. Wurtz, G.A. Achard and C.B. Buhe
Assessment on Urban Ecosystems
   J. Mourilo and A. Cuchi 643

The Compact City: An Urban Path Towards Sustainability in Arid Areas
   K. Hamel and S. Mazouz 650

One Planet Living Pioneer Project
   P. Reis Silva 658

Reflecting About the Emergence of Sustainable Urban Communities – A Social
Ecological Point of View
   J. Craveiro, P. Machado, D. Silva and A. Pereira 665

Sustainable Tourism Indicators for the Coastal Places. State of Research
   M.N. Suárez Sánchez 670

Sustainability and Human Comfort at Urban Level: Evaluation and Design
Guidelines
   F. Ali-Toudert 678

reCHARGEdcity - From a Perforated, Shrinking City to a Energy-Self-
Sufficient Town
   F. Lüter and T. Meinberg 686

Methods in Sustainable Urban Process
   M.P. Amado, A.J. Pinto, C.V. Santos and A. Cruz 694

Towards Urban Sustainability: Trends and Challenges of Building
Environmental Assessment Methods
   F. Ali-Toudert 702

Green Cities of Tomorrow?
   E. Alexandri 710

Comprehensive Water and Nutrient Planning for Sustainable Design
   J.H. Todd, D. Benjamin and J. Todd 718

Noise Abatement from the Point of View Sustainable Environment
   O. Yilmaz Karaman 726

Regenerating Lost Places in Old Cities (Link Linguistic with Sustainability)
   S. Shadravan 734

The Urban Planning Tools as Quality Control Device for Sustainable Projects
   E. Arbizzani, C. Clemente, P. Civiero, M. Nocera and P. Piermattei 741

Urban Rehabilitation with Sustainable Principles: The Case Study of
Montefalcone, South Italy
   D. Francese and C.F. Ambrosino 749

Chapter 6. Sustainable Resources, Eco-Materials and Technologies

Energy and Resources, Material Choice and Recycling Potential in Low
Energy Buildings
   C. Thormark 759

Chapter 7. Sustainable Construction Materials and Practices

Composite Polymer Materials
M.G. Goni

Using Mine Waste in Concrete Production
F.P. Torga

Use of Cellulose Fibres in Concrete
R. Modolo

Application of New Geopolymers in Concrete
A. Fraga

Optimization of Construction Materials
L.A. Pereira

Chemical Characterization of Construction Materials
L.M. Martino

Eco-Friendly Concrete: Preliminary Studies
R. Veloso, P. Cachim

Concrete Production Technology
P.B. Cavalcanti

Chapter 8. Sustainable Building Envelopes and Insulations

Global Structural Insulation Systems
S. Shahnia

Coolhouse: Indoor Climate Control
J. Maier

The Environmentally Friendly House
S. Russo
Dynamical and Thermal Modelling of PDEC: Using Traditional Chimney and New Dwelling as Case Studies in Portugal 872
C. Melo

Eco-Efficient Mortars with Enhanced Mechanical, Durability and Bactericidal Performance 880
R. Eires, A. Camões and S. Jalali

Structural Concrete with Incorporation of Coarse Recycled Concrete and Ceramic Aggregates 887
M. Gomes and J. de Brito

An Energy Efficient Solution to Mitigate Heat Islands and Reduce Cooling Energy Loads 895
A. Synnefa, A. Dandou, M. Santamouris, M. Tombrou and N. Soulakellis

Chapter 7. Use of Industrial Waste

Composite Panels Reinforced with Waste Fibrous Materials 905
M.G. Gomes, R. Fangueiro and C. Gonilho Pereira

Using Mine Waste Mud to Produce Environmentally Friendly New Binders 912
F.P. Torgal, J.P. de Castro Gomes and S. Jalali

Use of Cellulose Sludge in the Production of Fibre Cement Building Materials 918
R. Modolo, J.A.Labrincha, V.M. Ferreira and L.M. Machado

Application of Crushed Glass Residues in Mortars 923

Optimization of Pozzolanic Reaction of Ground Waste Glass Incorporated in Cement Mortars 928
L.A. Pereira de Oliveira, J.P. Castro Gomes and P. Santos

Chemical Characterization and Leaching of Treated Fly Ash from a MSWI Plant 935
I.M. Martins, A.M. Esteves and J.P. Forth

Eco-Friendly Construction Materials Using Gypsum and Industrial Wastes 943
R. Eires, A. Camões and S. Jalali

Concrete Produced Using Crushed Bricks as Aggregate 950
P.B. Cachim

Chapter 8. Innovative Sustainable Construction Systems

Glocal Structural System in a Seismic Desert City 959
S. Shahnoori and A.I.M. Voorbij

Coolhouse: Integrating Very Low Energy Geothermal Cooling with Sustainable Construction 967
J. Mainwaring

The Environmental Benefits of the off-Site Manufacturing 974
S. Russo Ermolli
Jee – Janela Eco-Eficiente (Eco Efficient Window); Development of a High Performance Standard Window
M. Verissimo, M.G. de Almeida and L. Bragança

A Research on the Integrated System for Efficient Management of Construction Site

Recycling Prefabricated Concrete Components – A Contribution to Sustainable Construction
C. Asam

Guidelines for a Good Practices Manual on Sustainable Construction
I. Santos, L. Soares and J. Teixeira

Sustainability in Lightweight Modular Construction for Housing
G. Wadel, J. Avellaneda and A. Cuchi

Chapter 9. Case Studies

East London Line Sustainability Initiatives
L.B. Carse

The First Cooperative Building of Sustainable Housing in Portugal
J.P.T. Coimbra

Directing Sustainable Investments in Commercial Real Estate
A.G. Entrop and H.J.H. Brouwers

Life Cycle Assessment of a Tourism Resort with Renewable Materials and Traditional Construction Techniques
H. König, E. Schmidberger and L. de Cristofaro

A Sustainable Planning Design Tool for the Environmental Compatibility of the Tourist Coastal Territory
A. Serafino

Building Deconstruction in Portugal: A Case Study
A. Santos and J. de Brito

Impacts in the Internal Environment Quality of a Music School from the Urban Design of a University Campus
I.S. Castro, M.C.G. Silva, P.A. Rheingantz, L.E. Bastos and E. Diniz

Reducing CO₂. Are Industrialised Construction Systems Better?
A. Pagés, O. Paris and A. Cuchi

Integration of Sustainability Solutions in Sanitary Installations: The Example of the AveiroDOMUS “House of the Future”
R. Castro and A. Silva-Afonso

Certifying a Sustainable Reconstruction of Vernacular Architecture in Peneda-Gerês National Park
M.i Cabral
Sustainable Building Structures for Housing
D. Dubina, V. Ungureanu and M. Mutiu

Sustainability of Constructions. Van Abbemuseum, Eindhoven
Y.K. Aktuglu

Sustainability of Constructions. Suleyman’s Mosque, Istanbul

Case Study: LEEDTM by Design in the School of the Future
J. Kliwinski

Influence of End-of-Life Scenarios on the Environmental Performance of a Low-Rise Residential Dwelling
H. Gervasio and L. Simoes da Silva

The SHE Project: Sustainable Housing in Europe. Social Housing Coops’ Best Practices for Sustainable Communities
A. Lusardi and A. Braconi

Natural Illumination Availability in Ponte Da Pedra Apartment Block – A Case Study
C. Cardoso, M. Almeida and L. Braganço
