Understanding Structures
Analysis, Materials, Design

Fourth Edition

Derek Seward
Professor of Engineering Design
Department of Engineering
Lancaster University

palgrave macmillan
Contents

Preface iv

Symbols v

1 Design 1
2 Basics 16
3 Materials 32
4 Loads 62
5 Pin-jointed trusses 87
6 Tension 115
7 Beams 134
8 Compression 205
9 Combined axial and bending stresses 224
10 Torsion 243
11 Connections 257
12 Arches and portal frames 279
13 Foundations and retaining walls 294
14 Deflection 320
15 Indeterminate structures and computers 334

Appendix: Section properties 358
