Vernacular Heritage and Earthen Architecture: Contributions for Sustainable Development

Editors
Mariana Correia, Gilberto Carlos & Sandra Rocha
Escola Superior Gallaccia, Vila Nova de Cerveira, Portugal
**Table of contents**

Preface xiii
Opening remarks xv
Organisation and committees xvii
Conference support xix
Foreword Gisle Jakhelln xix
Foreword John Hurd xxiii
Foreword Hubert Guillaud xxv
Foreword Mariana Correia xxvii

**Keynote speakers**

'Built to meet Needs': Paul Oliver and the study of vernacular architecture
M. Vellinga 3

Cultural values of earthen architecture for sustainable development
H. Guillaud 9

**Theme 1  Cultural heritage and building cultures**

Vernacular earthen granaries in Mexico
L. Guerrero 17

Vaab Island, on the arctic coast of Norway—a multifaceted economy surviving on heritage skills
G. Jakhelln 23

Historic daubed corner-timbered constructions in Czech Republic
Z. Syrová & J. Syrový 28

The Oga'i of the Mbya Guarani people in Paraguay: Alternatives for indigenous habitat
S.R. Cabrera & E.G. Nessi 35

Vernacular houses of Lesvos, Greece: Typology and construction technology
P. Jerome 41

Building on piles
M. Lewis 47

Carrasqueira—fishing harbour on stilts, hut village in Portugal
F. Jorge & P. Bruno 53

Working and living: The fishermen and their settlements in Alagoas, Brazil
M. A. da Silva & L. M. Cerqueira 59

An example of vernacular architecture in Central Anatolia: The mut houses
B. Celebioğlu & U. Yergün 65

The Sami Goahti, an earthen house in the Arctic
P. Sjölie 71
Researching the traditional building culture of Costa da Lagoa, Santa Catarina, Brazil
I. Kanan

Vernacular architecture in Cuba
D. M. Taboada Espinella

African-Brazilian architecture in Benin: Rescue and revaluation of traditional techniques
A. Mascarenhas & R. K. Ghéahou

“Sino-Portuguese”: The significance of the Shophouse definition in Southern peninsula, Thailand
N. Chansen

Minka—Japanese immigrant houses in Ribeira Valley, São Paulo, Brazil
A. Hijioka, B. Joaquim & A. Ino

(Re)using adobe—from survey to conservation, from restoration to new construction
V. Mestre

Adobe architecture in Portugal: Differences and analogies between vernacular and ‘designed’ architecture
M. Fernandes

Vernacular rammed earth building typologies in the ancient reign of Seville, Spain
J. Caniell, R. Rodríguez García, A. M. González Serano & A. Romero Girón

Geographical cataloguing of earthen architecture in Soria, Spain
J. J. Gil Crespo

Contribution to the knowledge of rammed earth houses in Vidigueira, Portugal
N. Fialho

Rural rammed earth houses in Baixo Alentejo, Portugal: Ruin or heritage?
C. S. Pereira

Constructions with terrzos in Alta Limia, Galicia: A lost sustainable architecture
A. Fernández Palicio

Vernacular technology in Brazil: Transformation and preservation
M. A. P. Rezende, J. L. R. Leite & F. M. P. Cardoso

Traditional and contemporary constructive cultures: A comparison between building processes
T. Ferreira

Evaluation of planning systems in earthen heritage conservation
M. Correia & N. Walliman

Intangible values of building culture in vernacular architecture
O. Karamul

Cultural heritage management and ownership regime in Island of Mozambique
A. T. Silva, R. Derks, A. P. Roders & J. Hougaard

Diagnosis methodology for restoration of Brazilian 18th century buildings
F. M. Tavares & M. T. G. Barbosa

Restoring rural houses in Estonia
J. Metsulag

Conservation of architectural heritage in Saudi Arabia: The case study of Jawatha Mosque
M. S. Zami

Conservation problems and recommendations on architectural heritage of Kastamonu Hanönü, Turkey
K. Güler, Z. C. Kevici, A. Akaraloğlu & Y. Saluk

Manuals for the recovery of historical centers of Sardinia, Italy
S. Carrucciu

</table>
Architectural morphology and construction techniques of traditional Yoran houses, Turkey
U. Yergün, C. I. Gencer, B. Celeboglu & A. Ciftci 337

Typological research on traditional community house of the Katu ethnic minority in Vietnam
P.H. Truong, H. Kobayashi & T.N. Nguyen 343

The vernacular house between the Cavado and the Ave, Portugal
C.E. Barroso, D.V. Oliveira, L.F. Ramos & P.B. Lourenco 351

Body-based units of measurement for building Kato community houses in Central Vietnam
H. Kobayashi & T.N. Nguyen 359

Rammed earth walls in the late middle age castles in the actual province of Soria, Spain
I.J. Gil Crespo 365

Timber roof structures of centenary earthen buildings—case studies
A. Tavares, A. Costa & H. Varum 371

The importance of knowledge on the vernacular heritage preservation
A. Costa, D. Silveira, A. Tavares, H. Varum, C. Almeida & A. Arede 377

Recycling of bricks in rammed earth walls
V. Cristini, C. Mileo, F. Vegas Lopez-Manzanares & J.R. Ruiz Checa 383

Gypsum as reinforcement for floors: Conceptual approach
F. Vegas Lopez-Manzanares, C. Mileo, V. Cristini, J.R. Ruiz Checa & V. La Spina 389

Adequacy of mortars for adobe building renders
A. Velosa & H. Varum 395

Use of plasters containing straw in vernacular architecture
M. Golei & A. Mauko 401

Evaluation of air lime and clayish earth mortars for earthen wall renders
P. Faria, V. Silva, N. Jamú, I. Dias & M.I. Gomes 407

Cattail-reinforced clay plasters in building heritage preservation and new constructions
G.P. Georgiev, W. Theuerkorn, M. Kvas & R. Killian 415

Strategies to improve earth building durability
R. Eires, A. Camões & M. Ponte 421

Lime and colour technologies in the vernacular architecture of the Algarve, Portugal
M. Santos, J. Perno, J. Aguier & M. Reinão Costa 427

Theme 3 Territory and environmental adaptation

Understanding landscape and the values of traditional architecture and construction
F. Vela Cossío & I. Sato-Weis Acevedo 435

Good practice for the conservation of urban settlements, vernacular architecture and surrounding landscapes
R. Eppich, J.C. Espada, C. Cruz & A. Kulmer 441

Watermills and traditional landscape in the hills of the Algarve, Portugal
M. Rarán, T. Valente & M. Reinão Costa 447

Watermills and weirs from the Ave River: An inter-municipal heritage value in Portugal
R.B. Matos 453

The Pesqueiras of Minho River—a vernacular heritage to preserve
F. Pacheco, A. Fernandes, X. Ollen & C. Antunes 459

Apiary-walls and pitfall-traps in Portugal: Archaic constructions for wild animals
J.C. Caninas, F. Henriques & F. Alvare 465
Brandas and Inverneiras of Castro Laboreiro, Portugal—a settlement model in a high mountain territory

G. Sousa & R. Correia

Vernacular settlements in Serra da Peneda, Portugal: The case of Rouças and Gavieira

A.F. Gomes

Architecture(s) in Serra da Peneda, Portugal: An approach to settlements on the territory

F.C. Barros

Dry stone buildings in Sicily, Italy: An environmental and territorial resource

L. Dipasquale, V. Megna & R. Prescia

Underground dwellings in the Tajuña valley, Madrid, Spain and their bioclimatic adaptation

M.M. Barbero Barrera, I.J. Gil Crespo, L. Malдонado Ramos & J. de Cárdenas y Chávarri

Bioclimatic comparative analysis in vernacular architecture: Two Sardinia examples

L.G.F. Cannas & G. Desogus

Archaeological and vernacular heritage coexistence in rural areas: Didyma, Turkey

E.O. Polat, E.H. Aslan & B.C. Çetin

Cacela revisited: A brief study of the architecture and landscape of Algarve, Portugal

M. Reimão Costa & D. Batista

Relating religious and vernacular architecture: Convent of Santo António, a case study in Portugal

A. Rodrigues & A.P. Raders

The melting vernacular architecture in Maramureș, Romania

L. Zaharia

The unrecognized bedouin villages—internal spatial order as a basis for development

Y. Manor-Rosner, Y. Roje & S. Abu-Rabia-Queder

Vernacular architecture in Oman: A case study of transition from wood to cement

S. Abdulac

From universal to local: Challenges of safeguarding the vernacular architecture in Turkey

T.G. Köksal, D. Ikiz & B.S. Coşkun

The patio house in Morocco: A sustainable design strategy

B. Aguilar, L. Dipasquale & S. Mecca

Urban heritage in Setúbal’s domestic architecture, Portugal

I.S. Macedo

Vernacular architecture within the urban Master Plan of Maia, Portugal

Saving Çumalikızık for the future: Cultural heritage in Turkey

A.Z. Aranbay, T. Ayrançilar, A. Polat & A. Uray

Common cultural heritage in two Ottoman ports: Smyrna and Salonica

C.I. Gencer

Theme 4 Energy efficiency and sustainable design

Study for the rehabilitation of vernacular architecture with sustainable criteria

I. Costa Carrapicho & J. Neila-González

The microclimatic design of Southern Sardinian loggias in Italy

M. Achenza, G. Chiri & L. Giovagnorio

Assessing energetic self-sufficiency and low environmental impact in Pontes, Portugal

I. Cabaial, G. Machado & A. Coelho

Energy efficient design strategies for contemporary vernacular buildings in Egypt

M. Dabaeieh
Responding to extreme climatic conditions through Shovadan architecture in Dezful, Iran
Z. Hosseini & R. Vatankhah

Efforts to resurrect and adapt earth building and passive solar techniques in Ladakh, India
N. Joshi

Vernacular principles towards eco-efficiency: A case study in Santiago do Cacém, Portugal
M. Sampaio & B. Marques

The potential of vernacular materials to the sustainable building design
J. Fernandes, R. Mateus & L. Bragança

Evaluation of sustainable design elements in the historic centre of Nicosia, Cyprus
M. Philakyprou, A. Michael, S. Thravalou & I. Ioannou

Local potentials for a sustainable heritage management
A.M. Labo & D.F. Faruque

The case of village Mače, Republic of Serbia
M. Dragićić & Z. Đorđević

Added value by benchmarking: Comparing existing buildings to demonstrate their potential
N. Silva Brito & M. Gameiro da Silva

Sustainability of vernacular houses in the inner towns of Muğla, Turkey: Architectural typology and its transformation
O.B. Avsar & E.A. Levi

Theme 5 Natural hazards and risk mitigation

Seismic V: Vernacular seismic culture in Portugal
M. Correia, G. Carlos, S. Rocha, P.B. Lourenço, G. Vasconcelos & H. Varum

The history of New Zealand housing and the performance of different styles in the 2011 Christchurch earthquakes
H. Morris & M. Worth

Japanese Dozo-structured buildings damaged by the 2011 Tohoku’s Earthquake
Y. Yamada, S. Hirata & S. Ono

Improvement of vernacular housing for disaster prone areas in Bangladesh: A six year experience

Seismic risk mitigation of Lorca historic centre masonry residential buildings, in Spain
A. Guardiola- Villora & L. Basset-Salom

Vulnerability assessment of churches under earthquake hazard
E. Pauperio, X. Romiio, A. ArMe & A. Costa

Learning from vernacular building practices: A starting point for risk mitigation
A. Caimi & M. Hofmann

A vernacular architectonic tradition hidden behind facades: Concepción’s case in Chile
H. Capellà Miternique

Vernacular heritage seismic risk management—ongoing educational project
J. Vargas Neumann, S. Rodríguez-Larrain, T. Montoya Robles & S. Onnis

Runner beams as a building element of masonry walls in Eastern Anatolia, Turkey
Z. Inan

Experimental investigation on the repair of rammed earth by means of injection of mud grouts
R.A. Silva, D.V. Oliveira, P.B. Lourenço, L. Schueremans & T. Miranda

Contemporary installations with timber from disaster reconstructions
M.B. Dan & D. Mendes
