Introduction xviii

1 Laying the foundation 1
Human performance improvement (HPI) 1
Performance 1
Factors affecting performance 4
Defining human performance improvement 7
The six-step human performance improvement process model 11
The roles of the HPI practitioner 12
The dynamic nature of human performance improvement 13
HPI competencies and outputs 14
Core competencies 17
Outputs 20
The growing importance of human performance improvement 30
New thinking about HPI 31
Certification and certificate programs in HPI 31
The role of the line (operating) manager in HPI 32
Summary 33
References 34

2 The role of analyst 36
Problems in organizations today 36
Defining analysis 36
The importance of analysis 37
Definitions of analysis 38
Performance analysis 39
Cause analysis 40
Levels of analysis 41
The analyst's role 41
  Competencies associated with the role of analyst 42
  Outputs linked to the role 42
  What it all means 42
Models and tools 45
  Sources of data 46
Models and tools for the analyst's role 47
  The Rummler and Brache model 47
  Gilbert's three stages of analysis 48
  Gilbert's performance matrix 49
  Gilbert's behavior engineering model 50
  Mager and Pipe's model 51
  Cause analysis: determining root causes 52
  Brainstorming 53
  Mind mapping 55
  Customer journey mapping 55
  Cause-and-effect analysis 57
  The five whys technique 58
Other analytical tools and approaches 59
  System modeling 59
  High-level flowcharting 61
  Detailed flowcharting 61
  Organizational network analysis 64
  Predictive analytics 64
Data presentation methods and tools 65
  Pie and bar charts 66
  Pareto charts 66
  Line or run charts 67
Summary 68
References 69

3 The role of intervention specialist
  Competencies associated with the role of intervention specialist 73
  Outputs linked to the role 74
  What it all means 74
Selecting interventions 78
  Step 1: establish selection criteria 79
  Step 2: consider alternative interventions 81
  Step 3: evaluate the alternative interventions against the criteria 84
  Step 4: select the appropriate intervention(s) and determine its viability 87
Reaching customer/stakeholder agreement 91
Principles of intervention design 91
Creating solution prototypes 92
Dangers, pitfalls, and cautions 93
Summary 95
References 95

4 The role of change manager 98
Competencies associated with the role of change manager 98
 Outputs linked to the role 99
 What it all means 99
Approaches for managing change 102
 The coercive approach 102
 The persuasive approach 104
 The normative reeducative approach 106
Enacting the role of change manager 109
 Step 15: securing approval for the proposal and launching
 the performance improvement intervention or performance
 improvement strategy 110
 Step 16: implementing the performance improvement strategy
 and monitoring results of the performance improvement
 effort over time 112
 Step 17: providing continuing feedback to participants and
 stakeholders in the performance improvement effort 115
The role of line manager as change manager 117
Change management and positive change 117
Summary 118
References 118

5 The role of evaluator 120
Competencies associated with the role of evaluator 120
 Outputs linked to the role 121
 What it all means 121
Approaches for evaluating performance improvement
 interventions 124
 Evaluating performance improvement interventions at the
 reaction level 124
 Evaluating performance improvement interventions at the
 learning level 132
 Evaluating performance improvement interventions at the
 behavior level 135
 Evaluating performance improvement interventions at the
 results level 139
Contents

How is the role of evaluator enacted? 141
Step 18: completing the performance improvement strategy
when results match objectives 142
Step 19: evaluating results against performance objectives and
reporting results to all key stakeholders and all participants
in the performance improvement strategy 142
New thinking about evaluation and what it means 143
The role of the line (operating) manager as evaluator 143
Measurement and metrics and their role in HPI 143
Summary 143
References 144

6 Trends and their implications for HPI

Business and public-sector trends 145
  Key trend 1: organizations are utilizing their subject matter
  experts in sales. 145
  Key trend 2: organizations are integrating sales and content
  marketing. 146
  Key trend 3: industries are consolidating. 146
  Key trend 4: security and protecting customer data is
  imperative. 147
  Key trend 5: companies worldwide are going green and
  clean. 148
Workforce and human resource trends 148
  Key trend 1: employees and retirees are returning after leaving
  the company. 148
  Key trend 2: traditional recruitment is evolving to talent
  acquisition. 149
  Key trend 3: the new virtual workforce is here. 150
  Key trend 4: we have an aging workforce that is soon to be on
  its way out of the labor pool. 150
  Key trend 5: continuous performance management is in
  vogue. 151
  Key trend 6: innovation in leadership development is critical to
  success. 152
  Key trend 7: reward systems – one size does not fit all. 153
  Key trend 8: human resources goes full-on digital. 153
  Key trend 9: diversity is seen as a competitive advantage. 155
Summary 155
References 156

7 Transforming the training department into an HPI function

One approach to transforming a traditional training department
into an HPI department 158
Contents

Step 1: gain and maintain internal support for the transformation 158
Step 2: transition to a valued, results-based training organization 160
Step 3: educate management on the factors that influence human performance 162
Step 4: obtain an internal champion 163
Step 5: select an HPI model 164
Step 6: determine what services the new organization is going to offer 165
Step 7: develop HPI practitioners 165
Step 8: select the initial HPI project 165
Step 9: demonstrate success and publicize it 168
Step 10: gain organizational support for the transformation 169

Alternative paths for transforming a traditional training department into an HPI department 171

Common mistakes to avoid 172

Success stories 173
Mallinckrodt, Inc. 173
Mobile Telephone Networks (MTN) South Africa 173
Prudential Health Care Systems 174
Steelcase 174
Compaq 175

Assessing your progress 175
Summary 176
References 176

8 Building your competence as an HPI practitioner

Making the shift in role 178
The transformation to HPI practitioner – true stories 179
Steps for transforming to an HPI practitioner 187
Step 1: assess your competencies 187
Step 2: plan for your development 188
Step 3: take action 190
Summary 190
References 190

9 From theory to practice: real-world HPI projects

Improving healthcare insurance sales 192
Improving assistant branch managers 194
Globally distributed pharmaceutical procurement 195
Safe forklift operation 197
Call center makeover 198
Contents

Department of Transportation construction safety improvements 200
Meter reader retention 201
Medicare reimbursement coding errors 203
Words of wisdom 204
Summary 205

Appendix I: Reengineering the training department assessment instrument 206
Appendix II: Determining your optimum pathway to development 219
