Part 1: International Trade, Technological Change and Economic Growth 1

1 Economic Integration and Endogenous Growth 3
   1.1 Introduction 3
   1.2 Specification of the Models 6
   1.3 Balanced Growth and Integration 11
   1.4 Trade in Goods and Flows of Ideas 15
   1.5 Scale Effects and Growth 22
   1.6 Limitations of the Models and Extensions 24
   1.7 Appendix 27
   References 29
1.8 Economic Integration and Endogenous Growth: An Addendum 30
   References 32
2 International Trade with Endogenous Technological Change 33
   2.1 Introduction ........................................... 33
   2.2 Scale, Allocation, and Redundancy ..................... 37
   2.3 Specification of the Model ............................ 41
   2.4 Across the Board Protection ........................... 45
   2.5 Selective Protection with Imperfect Intellectual
       Property Rights ....................................... 52
   2.6 Conclusions ........................................... 58
   2.7 Appendix ............................................... 61
   References ................................................ 69

3 GATT, Trade, and Growth 71
   3.1 Introduction ........................................... 71
   3.2 Growth Effects of Integration and Tariff Cuts .......... 72
   3.3 A General Model of Endogenous Growth ................ 73
   3.4 Integration and Reciprocal Tariff Reductions .......... 77
   3.5 Conclusions ........................................... 81
   References ................................................ 81

4 Integration among Unequals 83
   4.1 Introduction ........................................... 83
   4.2 A Two-Country Model of Technological Change
       and Growth ............................................. 86
   4.3 Integration between Unequal, Innovating
       Economies .............................................. 91
   4.4 Integration between Highly Asymmetric
       Countries .............................................. 97
   4.5 Conclusions ........................................... 102
   References ................................................ 103

5 The Economics of Technological Progress
   and Endogenous Growth in Open Economies 105
   5.1 Introduction ........................................... 105
   5.2 Endogenous Technological Change and
       Economic Growth ....................................... 109
7.4 The Geography of Employment, Agriculture and Pollution Externalities ..... 192
7.5 Industrial Centers Servicing Widespread Heterogeneous Markets ..... 194
7.6 The Gravity Theory of Trade Patterns ..... 197
7.7 Patterns of Spatial Resource Allocation in Manufacturing and Agriculture ..... 201
7.8 Technological Change, Transportation Efficiency and Externalities ..... 202
7.9 Industrial Policy and Theory of Central Location ..... 205
7.10 Concluding Remarks ..... 209
References ..... 209

Part 3: Public Sector Governance, Capital Flows and Economic Growth 213

8 Democracy, Governance, and Economic Growth: Theory and Evidence 215
  8.1 Introduction ..... 215
  8.2 The Linkages between Democracy and Governance ..... 216
  8.3 A Model of Democracy, Governance, and Endogenous Growth ..... 222
  8.4 The Empirical Evidence on Democracy and Growth ..... 237
  8.5 Conclusions ..... 242
References ..... 245

9 Political Institutions, Capital Flows, and Developing Country Growth: An Empirical Investigation 249
  9.1 Introduction ..... 249
  9.2 Data and Exploratory Causality Tests ..... 252
