The Resilience of Students with an Immigrant Background

FACTORS THAT SHAPE WELL-BEING
# Table of Contents

Executive Summary .......................................................................................................................... 13

Reader's Guide ................................................................................................................................ 15

Chapter 1
Overview – The resilience of students with an immigrant background: Factors that shape well-being ......................................................................................................................... 17

A profile of students with an immigrant background in OECD and EU countries ................................................................. 18

Resilience: A multidimensional construct ......................................................................................... 19

Resilience and country of origin/country of destination ........................................................................... 23

Sources of disadvantage ....................................................................................................................... 25

Differences in the learning environment ................................................................................................. 26

Expectations for the future ..................................................................................................................... 26

What can education policy do to help immigrant students become more resilient? ................................. 27

Chapter 2
The resilience of students with an immigrant background ....................................................................... 29

Resilience ........................................................................................................................................ 31

Adversity ...................................................................................................................................... 32

Adjustment .................................................................................................................................. 33

Vulnerability: Risk and protective factors ............................................................................................. 35

Analytical choices taken in this report to study the resilience of students with an immigrant background ....................................................................................................................... 36

Data sources .................................................................................................................................. 37

The Programme for International Student Assessment ........................................................................ 37

European Social Survey .................................................................................................................... 39

Chapter 3
Adversity and adjustment: The resilience of students with an immigrant background ................................. 45

Who are the students with an immigrant background? ........................................................................ 46

Having two foreign-born parents ......................................................................................................... 46

Living in a mixed household ............................................................................................................... 48

Being foreign-born .............................................................................................................................. 48

The prevalence of students with an immigrant background ..................................................................... 49

First-generation immigrant students: Differences related to the age at arrival ..................................... 54

The academic resilience of students with an immigrant background .................................................... 58

The social and emotional resilience of students with an immigrant background .................................. 64

Sense of belonging and social integration .......................................................................................... 64

Life satisfaction ................................................................................................................................. 70

Schoolwork-related anxiety ................................................................................................................ 72

Achievement motivation ...................................................................................................................... 73

Overall resilience .............................................................................................................................. 75

Spotlight on social outcomes among native and immigrant young adults in Europe: Evidence from the European Social Survey .................................................................................................. 87
# TABLE OF CONTENTS

Chapter 4  
**Individual characteristics and the resilience of students with an immigrant background**  
- Country of birth effects ................................................................. 99  
- Country of destination effects ....................................................... 100  
- Working for pay and doing unpaid work .......................................... 104  
- Participation in pre-primary education ........................................... 108  
- Gender differences ........................................................................ 110  

Chapter 5  
**Language barriers and the resilience of students with an immigrant background**  
- Individual characteristics and use of the host-country language at home ........................................... 117  
- Immigrant background and languages spoken at home: An overview ................................................. 122  
- Language barriers and the academic performance of students with an immigrant background ................ 127  
  - Attaining **baseline levels of proficiency in the core PISA subjects** ...................................................... 129  
- Language barriers and the well-being of students with an immigrant background ................................... 133  
- Language groups and linguistic distance ............................................................................................... 137  
- Linguistic distance and students' outcomes ......................................................................................... 140  
- **Annex 5.A1** ................................................................................. 143  
- **Annex 5.A2** ................................................................................. 145  

Chapter 6  
**Resilience and the socio-economic status of students with an immigrant background**  
- The socio-economic status of students with an immigrant background ................................................. 149  
- Socio-economic status and the academic, social and emotional resilience of students with an immigrant background ........................................................................................................... 154  
  - Academic outcomes ........................................................................ 162  
  - Social and emotional well-being ...................................................... 162  
- Components of the PISA index of economic, social and cultural status ................................................. 166  
  - Parents' education ......................................................................... 177  
  - Parents' occupational status ............................................................ 177  
  - Household possessions .................................................................... 179  
- Socio-economic status and the disadvantage of students with an immigrant background ...................... 181  

Chapter 7  
**How schools and education policy support or undermine student resilience**  
- The learning environment and the academic, social, emotional and motivational resilience of immigrant students .............................................................................................................................. 187  
  - School composition ....................................................................... 192  
  - Parental involvement in the school community ................................ 193  
  - Disciplinary climate ...................................................................... 201  
  - Truancy ......................................................................................... 205  
  - Bullying ......................................................................................... 208  
  - Student-teacher interactions .......................................................... 211  
- School resources and the academic, social, emotional and motivational resilience of immigrant students ............................................................................................................................... 221  
- School policies to improve the learning environment ............................................................................. 221  
  - Assessment practices ..................................................................... 225  
  - Selecting and grouping students: Vertical and horizontal stratification ............................................... 227  
  - Grade repetition ............................................................................ 228  
  - Horizontal stratification ................................................................. 230  
- **Annex 7.A1** ................................................................................. 235  
- **Annex 7.A2** ................................................................................. 236

THE RESILIENCE OF STUDENTS WITH AN IMMIGRANT BACKGROUND: FACTORS THAT SHAPE WELL-BEING
Chapter 8
What students with an immigrant background expect in their future
Expectations of further education ............................................................................. 243
Career expectations .................................................................................................. 246
Spotlight on intergenerational educational mobility: Evidence from the European Social Survey ........................................................................................................ 258

Chapter 9
Policies and practices to support the resilience of students with an immigrant background ............................................................................................................ 263
The overall well-being of students ........................................................................... 265
Policies and practices aimed at promoting overall well-being .................................. 265
The importance of access to education for all children with an immigrant background ............................................................................................................. 266
Examples of policies to promote access to quality early education ............................. 266
Access to compulsory education ............................................................................... 267
Examples of policies to promote access to vocational education and training, and higher education ................................................................. 267
Evidence on ability grouping, grade repetition and early tracking ............................. 268
Examples of policies to reduce grade repetition and early tracking ........................... 269
Access to quality education and career guidance ...................................................... 270
Examples of policies to reduce grade repetition ....................................................... 270
Early assessment of language and other skills ......................................................... 270
Examples of policies to promote early language assessment of all children ............... 271
Examples of policies to promote rapid language assessments of newly arrived immigrant children ................................................................. 271
Targeted language training ....................................................................................... 272
Examples of policies to promote language training .................................................. 272
Multilingualism and exposure to more than one language ........................................... 273
Examples of policies and practices to promote multilingualism ................................ 273
The role of socio-economic disadvantage .................................................................. 273
Additional support to disadvantaged students and schools ..................................... 274
Examples of policies aimed at providing greater support ......................................... 274
Evidence on the concentration of students with an immigrant background in disadvantaged schools ................................................................. 274
Examples of policies aimed at limiting the concentration of disadvantaged students ........................................................................................................ 275
Links between language and socio-economic background ....................................... 276
Achieving a supportive climate at school through positive relationships ........................ 277
Examples of policies that promote a bully-free environment ...................................... 277
Evidence on the availability of and participation in extracurricular activities ................ 278
Examples of practices to encourage participation in sports and extracurricular activities ............................................................................................................. 279
The role of parent engagement ............................................................................... 279
Examples of policies and practices that promote parent engagement ........................ 280
The role of diversity-aware teachers for supporting all learners ................................. 281
Examples of policies and practices for building a diversity-aware teaching force .......... 281
Evidence on mentoring schemes ............................................................................... 282
Examples of practices aimed to promote mentoring ................................................ 283
Monitoring progress ............................................................................................... 283
Examples of monitoring policies ............................................................................. 283
